

TS-W1215PL

HIGH-QUALITY SPL SUBWOOFER
30 CM DUAL VOICE COIL C-TYPE SUBWOOFER

NEW

2000 W
Max.

Loads of decibels combined with solid power make the TS-W1215PL a force to be reckoned with. This high-quality subwoofer weighs in at +165 dB with a thumping 2000-W maximum power output. Borrowing some of the innovative ideas from its older brother, the TS-W15000SPL, this 30 cm subwoofer features a Glass fibre/Carbon fibre reinforced IMPP cone and a die-cast aluminium basket. With all of this and more, the TS-W1215PL has what it takes for your next SPL competition, or perhaps your next trip around the block!

The Right Stuff: Interlaced Fibre Reinforced IMPP Cone

An extremely rigid yet lightweight cone is vital to prevent cone failure at high sound pressure levels. Pioneer's new patent-pending IMPP cone meets this need perfectly. It incorporates a proprietary composite blend of long carbon fibres for the TS-W15000SPL, glass fibres/carbon fibres for the TS-W1215PL and TS-W1500SPL or Aramid fibres for the TS-W1500C and TS-W1215C. The fibres interlace together to form an exceptionally resilient fibre weave, which provides the strength and rigidity for low distortion, clean and extremely powerful bass. The stuff that champions are made of!

Long Carbon fibre weave

High dB Durability: 3-layer Fibre Woven Radial Surround

The whole range of new Pioneer subs is outfitted with a patent-pending 3-layer Fibre Woven Radial Surround design. The surround consists of two outer layers (rubber for the TS-W15000SPL) and one inner layer of interwoven fibre (Aramid fibre for the TS-W15000SPL) with a honeycomb weave for even distribution throughout the surround material. This eliminates weak points and improves the high power capability for an extremely durable and resilient surround that resists puckering, even under the extreme power conditions of SPL competitions.

3-layer fibre woven radial surround: an extremely durable and high-performance radial surround

Massive Force of the High Power Motor Assembly

The huge triple-stacked motor assembly of the TS-W15000SPL uses three massive, power-packing magnets — at 3 kg each — to drive the voice coil and cone with incredible force, moving the cone assembly as hard as possible to overcome the tremendous air pressure resistance experienced in world class SPL (170+ dB) competitions. The TS-W1215PL and TS-W1500SPL feature a double-stacked magnet assembly; the TS-W1500C and TS-W1215C models feature a dual mass magnet assembly which also provides exceptional force for superior bass. Either way you go, these subs really stack up!

Solid Support: Aluminium Die-cast Basket with Bottom Hold Structure

During high SPL levels, the motor assembly is placed under extreme pressure. So Pioneer developed an exclusive aluminium die-cast basket which securely supports the motor. This basket structure prevents any unwanted flex or vibration that can cause energy loss and reduce overall performance. A solid winner!

Aluminium die-cast basket structure
