Progress notes are to be written by the resident or intern on each covered medical patient on a daily basis. The daily progress note serves as a written medical-legal document that:

- Serves as a record of a patient's hospitalization
- Must be completed on a **Daily** basis and includes all "events" that occur during the hospitalization
- Records "events" in terms of subjective and objective findings
- Must include new and active patient health/social issues ("problems")
- Each problem is evaluated/assessed and an appropriate plan is formulated
- Must be legible and well written so to avoid any misunderstanding by the reader
- Must have a time and date and be signed on each page by the author in legible fashion.

The daily progress note is traditionally organized as a "SOAP" Note. Many, however, organize the Progress note as "HSOAP" where the H stands for history and contains one or two sentences summarizing the patient's case.

#### S=Subjective

- Record of subjective findings that occurred during the evening , overnight, and in the morning that patient is being examined.
- Essentially how the patient felt during the evening, night time and morning hours and what happened during those hours.

#### O=Objective (Includes all the following)

- Physical Exam: Vital signs, focused physical exam but almost always should include:
  - LUNG
  - CARDIAC
  - ABDOMINAL
  - EXTREMITIES
- Laboratory data
- Diagnostic Imaging
- Microbiology
- Please note that a **Medication List** which includes a listing of all scheduled and PRN (as needed) medications that are relevant to active problems is always helpful and recommended but is not required.
