Tswane University Of Technology:

Innovation at the Tshwane University of Technology Pontso Ezekiel Ralepeli, 2008 **Polymer Nanocomposites for Advanced Engineering and Military Applications** Ramdani, Nouredine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing sensors biomedical microelectronics hard coating and many other domains Due to their outstanding mechanical and thermal features polymer nanocomposite materials have recently been developed and now have a wide range of applications Polymer Nanocomposites for Advanced Engineering and Military Applications provides emerging research on recent advances in the fabrication methods properties and applications of various nano fillers including surface modification methods and chemical functionalization Featuring coverage on a broad range of topics such as barrier properties biomedical microelectronics and matrix processing this book is ideally designed for engineers industrialists chemists government officials military professionals practitioners academicians researchers and students **The South African Herbal Pharmacopoeia** Alvaro Viljoen, Maxleene Sandasi, Gerda Fouche, Sandra Combrinck, Ilze Vermaak, 2022-11-24 The South African Herbal Pharmacopoeia Monographs of Medicinal and Aromatic Plants is a collection of 25 original monographs of medicinal plants that are currently under commercialization or have the potential for commercialization into herbal medicinal products for the global marketplace Chapters include a general overview covering synonyms common names conservation status botany geographical distribution ethnopharmacology commercialization pharmacological evaluation chemical profiling and quality control including HPTLC fingerprint analysis UPLC analysis gas chromatography and mid infrared spectroscopy analysis Academics researching pharmacy and analytical chemistry will benefit from the detailed chemical profile on each species presented Industrial manufacturers of herbal products herbal medicines cosmetics food supplements and national and international policymakers and regulators will benefit from the overview provided at the beginning of each chapter Provides a comprehensive up to date literature review on 25 medicinal plants of South Africa Documents quality control protocols for chemical fingerprinting and biomarker identification in plant material Includes updated safety profiles of medicinal plants **Polyolefin Fibres** S C O Ugbole, 2017-06-09 Polyolefin Fibres Structure Properties and Industrial Applications Second Edition explores one of the most widely used commercial polymers with a focus on the most important polyolefins namely polyethylene polypropylene and polyolefin bicomponent fibres These versatile fibres are durable chemically resistant lightweight economical and functional This new edition has been updated and expanded to include cutting edge research on a broad range of advanced applications Part I covers the structure and properties of polyolefin fibres incorporating a new chapter on the environmental aspects of polyolefin use Part II examines the methods for improving the functionality of polyolefins providing essential information for those engaged in developing high performance materials A final group of chapters addresses how polyolefin fibres can be incorporated into specific textile applications such

as automotive geotextile biomedical and hygiene products and explores potential future development This book is an essential reference for textile technologists and manufacturers polymer and fibre scientists yarn and fabric manufacturers biomedical and device engineers and industrialists and researchers Introduces the types properties and structure of polyolefin fibers for readers new to the polyolefins field Examines methods to improve the functionality of polyolefin fibers providing essential information for textile technologists and research and development managers engaged in developing high performance materials Presents existing and potential applications of polyolefin fibers exploring how they can expand the range of commercial polyolefin based products

Functionalized Nanomaterials for Cancer Research Hamed Barabadi,Ebrahim Mostafavi,Chaudhery Mustansar Hussain,2024-03-22 Functionalized Nanomaterials for Cancer Research Applications in Treatments Tools and Devices presents an in depth and step by step description of knowledge on functionalized nanomaterials for cancer research including treatment and future developments as well as their impact on patients overall outcomes The book discusses the functionalized nanoplateforms for cancer detection and imaging interactions between nanomaterials and cancer cells and drug resistant malignancies The chapters are organized in a manner that can be readily adopted as sources for new and further studies by highlighting the main in vitro and in vivo nano therapeutic achievements on cancer Additionally current trends on functionalized nanomaterials for cancer research and commercial scale opportunities are discussed It is a valuable resource for researchers oncologists students and members of the biomedical and medical fields who want to learn more about the potential of nanotechnology in cancer research and treatment Provides comprehensive coverage on functionalized nanomaterials for cancer therapeutics and future developments Explores current trends on functionalized nanomaterials for cancer research and commercial scale opportunities Discusses real world case studies on functionalized nanomaterials for cancer therapy and research

E-Systems for the 21st Century Seifedine Kadry,Abdelkhalak El Hami,2019-07-10 E based systems and computer networks are becoming standard practice across all sectors including health engineering business education security and citizen interaction with local and national government They facilitate rapid and easy dissemination of information and data to assist service providers and end users offering existing and newly engineered services products and communication channels Recent years have witnessed rising interest in these computerized systems and procedures which exploit different forms of electronic media to offer effective and sophisticated solutions to a wide range of real world applications With contributions from researchers and practitioners from around the world this two volume book discusses and reports on new and important developments in the field of e systems covering a wide range of current issues in the design engineering and adoption of e systems E Systems for the 21st Century Concept Developments and Applications focuses on the use of e systems in many areas of sectors of contemporary life including commerce and business learning and education health care government and law voting and service businesses The two volume book offers comprehensive research and case studies addressing e system

use in health business education security and citizen interaction with local and national government Several studies address the use of social networks in providing services as well as issues in maintenance and security of e systems as well This collection will be valuable to researchers at universities and other institutions working in these fields practitioners in the research and development departments in industry and students conducting research in the areas of e systems The book can be used as an advanced reference for a course taught at the undergraduate and graduate level in business and engineering schools as well

The Impact of the Tshwane University of Technology Merger on Diversity in the Workplace Hendrik Petrus Van der Walt, Tshwane University of Technology. Business School, 2007 Focuses on the adverse effects of diversity on staff members after three institutions formerly known as Technikon North West Technikon Pretoria and Technikon Northern Gauteng were merged into Tshwane University of Technology TUT

Advanced Coating Materials Liang Li, Qing Yang, 2018-11-15 Provides a comprehensive yet practical source of reference and excellent foundation for comparing the properties and performance of coatings and selecting the most suitable materials based on specific service needs and environmental factors Coating technology has developed significant techniques for protecting existing infrastructure from corrosion and erosion maintaining and enhancing the performance of equipment and provided novel functions such as smart coatings greatly benefiting the medical device energy automotive and construction industries The mechanisms usage and manipulation of cutting edge coating methods are the focus of this book Not only are the working mechanisms of coating materials explored in great detail but also craft designs for further optimization of more uniform safe stable and scalable coatings A group of leading experts in different coating technologies demonstrate their main applications identify the key bottlenecks and outline future prospects Advanced Coating Materials broadly covers the coating techniques including cold spray plasma vapor deposition chemical vapor deposition sol gel method etc and their significant applications in microreactor technology super de wetting joint implants electrocatalyst etc Numerous kinds of coating structures are addressed including nanosize particles biomimicry structures metals and complexed materials along with the environmental and human compatible biopolymers resulting from microbial activities This state of the art book is divided into three parts 1 Materials and Methods Design and Fabrication 2 Coating Materials Nanotechnology and 3 Advanced Coating Technology and Applications

Intelligent Sustainable Systems Atulya K. Nagar, Dharm Singh Jat, Durgesh Kumar Mishra, Amit Joshi, 2023-01-24 This book provides insights of World Conference on Smart Trends in Systems Security and Sustainability WS4 2022 which is divided into different sections such as Smart IT Infrastructure for Sustainable Society Smart Management Prospective for Sustainable Society Smart Secure Systems for Next Generation Technologies Smart Trends for Computational Graphics and Image Modeling and Smart Trends for Biomedical and Health Informatics The proceedings is presented in two volumes The book is helpful for active researchers and practitioners in the field

Design and Applications of Nanostructured Polymer Blends and Nanocomposite Systems Sabu Thomas, Robert Shanks, Sarath

Chandran,2015-09-22 *Design and Applications of Nanostructured Polymer Blend and Nanocomposite Systems* offers readers an intelligent thorough introduction to the design and applications of this new generation of designer polymers with customized properties The book assembles and covers in a unified way the state of the art developments of this less explored type of material With a focus on nanostructured polymer blends the book discusses the science of nanostructure formation and the potential performance benefits of nanostructured polymer blends and composites for applications across many sectors electronics coatings adhesives energy photovoltaics aerospace automotive and medical devices biocompatible polymers The book also describes the design morphology and structure of nanostructured polymer composites and blends to achieve specific properties Covers all important information for designing and selecting the right nanostructured polymer system Provides specialized knowledge on self repairing nanofibre and nanostructured multiphase materials as well as evaluation and testing of nanostructured polymer systems Serves as a reference guide for development of new products in industries ranging from electronics coatings and energy to transport and medical applications Describes the design morphology and structure of nanostructured polymer composites and blends to achieve specific properties *Where Parallels Intersect* Eli Cohen, Tourism in Rural Protected Areas Kaitano Dube,Ikechukwu O. Ezeuduji,Magdalena Petronella Swart,2025-06-30 Despite its potential to unlock socio economic benefits in rural and protected areas in a manner that addresses the Sustainable Development Goals SDG rural and protected areas tourism is yet to be thoroughly examined by academics scholars practitioners and policymakers This lack of exploration has undermined the potential benefits associated with tourism development in rural and protected areas Given the complexity of rural tourism this contributed volume explores current and future debates on the subject using cases in Southern Africa The book is useful for various audiences including tourism academics planners cultural and heritage practitioners and rural development planners The topics covered include gender transformation service delivery visitor experience wildlife tourism and host community tourism interaction *Polymer Based Bio-nanocomposites* Chandrasekar Muthukumar,Senthil Muthu Kumar Thiagamani,Senthilkumar Krishnasamy,Rajini Nagarajan,Suchart Siengchin,2022-03-28 This book gives a comprehensive overview of bionanocomposites a class of materials that consist of a biopolymer matrix which is embedded with nanoparticles and natural fibres as reinforcement to produce novel material and achieve superior physico chemical and mechanical properties The book looks into the synthesis of various forms of nanoparticles the fabrication methods and the characterization of bionanocomposites It also includes topics related to the sustainability and life prediction of bionanocomposites such as biodegradability recycling and re use An important aspect in the designing of bionanocomposites includes computational modeling and the suitability of the bionanocomposites in various applications is presented This book appeals to students researchers and scientists looking to gain fundamental knowledge know about recent advancements in the research on bionanocomposites and their applications Circular Economy Maulin P. Shah,Suvendu Manna,Papita

Das,2024-08-23 The reclamation of wastewater and other essential materials is among the major research areas for understanding the effects of implementing a circular economic model The re use and re cycling of wastewater can greatly reduce the overall demand for freshwater for various industrial applications Such concepts could potentially greatly reduce the overall water demands of our planet if implemented successfully Circular Economy Applications for Water Remediation will examine the current understanding of the circular economy in water remediation processes its drawbacks and relatively unexplored areas that require further research This book Provides an overview of the processes available to extract value added materials from wastewater such as clean water nutrients and energy Explores the possibilities of re using wastewater for agricultural uses Provides an overview of the current policies and regulations concerning the implementation of circular economy concepts in wastewater remediation *Cases on Transnational Learning and Technologically Enabled Environments* Mukerji, Siran,Tripathi, Purnendu,2010-03-31 This book offers case studies on divergent themes addressing the core perspective of technological adaptability and transnational learning Provided by publisher Advanced Instrument Engineering: Measurement, Calibration, and Design Lay-Ekuakille, Aimé,2013-06-30 Measurement technologies and instrumentation have a multidisciplinary impact in the field of applied sciences These engineering technologies are necessary in processing information required for renewable energy biotechnology power quality and nanotechnology Advanced Instrument Engineering Measurement Calibration and Design presents theoretical and practical aspects on the activities concerning measurement technologies and instrumentation This wide range of new ideas in the field of measurements and instrumentation is useful to researchers scientists practitioners and technicians for their area of expertise Management and Practices of Pilgrimage Tourism and Hospitality Gupta, S.K.,Aragon, Lilibeth C.,Kumar, Pankaj,Madhurima,Ramasamy, Rajesh,2023-10-09 Pilgrimage is one of the oldest extant and most basic forms of population mobility known to human society and its political social cultural and economic implications have always been and continue to be substantial In recent decades a new focus on pilgrimage has emerged through the lens of tourism which explores the political cultural behavioral economic and geographical impacts Therefore the identification of challenges in transformation and emerging ways and means of managing pilgrimage and related destinations is critical in an era of crises and disastrous situations Management and Practices of Pilgrimage Tourism and Hospitality identifies understands and recognizes the changing facts and facets of pilgrimage tourism around the world It develops and promotes pilgrimage tourism for community integration faith sharing perseverance tolerance and pace for secular and sustainable futures This book further identifies any new issues scopes challenges and entrepreneurial opportunities for pilgrimage tourism as are found to be relevant and important for future pilgrimages with larger intensity and frequency Covering topics such as behavioral challenges community empowerment and pilgrimage economy this book is an essential resource for entrepreneurs professionals researchers academicians policymakers students of higher education sociologists and more **Augmented Reality and Its Application** Dragan
