Ultimate Way in Effective File Documentation Management (Tamil) KANG ENG THYE, 2021-10-26 The biggest flaw of

today's management expert lies in their inability to manage well their files and documents that they used on a daily basis. Such a flaw makes the meaning of the word Management suspicious. The fundamental root cause of this problem lies in the university's education system that to me needs a severe post mortem. An organization's operation would be severely paralyzed without the support of a fundamental IT database platform. The only solution and answer to this management flaw is database management knowledge.
