The Cutter's Practical Guide, Part 10 W. D. F. Vincent,2025-08-28 Time tries all things and no better test can be desired than the fact that after years of widespread recognition as a standard work on Cutting and Practical Tailoring this

book has so grown in favour that edition after edition is demanded This the tenth part deals with all kinds of Waistcoats and similar garments and though it comes late in the series it is not by any means the least important class of garments the tailor is called upon to produce No pains have been spared either by author artist or printer to make this part a worthy companion of the preceding ones In conclusion we can justly make a further quotation from the Preface of Part One which will be found to apply with equal force both to the individual part now before us and to the Cutter s Practical Guide Volumes as a whole Very rarely if ever has a work so comprehensive been published in connection with the Art of Cutting as this great work by Mr W D F Vincent **A History of the Paper Pattern Industry** Joy Spanabel Emery,2014-04-24 Sewing patterns have been the principle blueprint for making garments in the home for centuries From their origins in the tailoring manuals of the 16th century to the widely produced pamphlets of the 18th and 19th centuries through to the full size packet patterns of today their history and development has reflected major changes in technology such as the advent of the sewing machine retailing and marketing practices the fashion periodical and shifts in social and cultural influences This accessible book explores this history outlining innovations in patternmaking by the companies who produced patterns and how these reflected the fashions and demands of the market Showcasing beautiful illustrations from original pattern pamphlets packets and ads as well as 9 complete patterns from which readers can reproduce vintage garments of different eras the book provides a unique visual guide to homemade fashions as well as essential exploration of the industry that produced them

The Cutter's Practical Guide, Part 8 John Falconer,W. D. F. VINCENT,2025-08-04 The importance and necessity of just such a work as this on Economy in Cutting has found ample proof in the disposal of the First Edition in less than one month in a Second Edition being again exhausted and in our now being called upon to introduce a Third Such a work is bound to be popular its advantages come so closely home to every cutter and we are pleased to record that the efforts of both Author and Publisher have been so fully appreciated From no other publishing firm has emanated so many works relating to cutting fitting and practical tailoring and so much is the time and attention of cutters devoted to these features of their profession that the matter of Economy in Cutting is in many cases perhaps comparatively a secondary consideration Tis true that in the cutting of a garment saving a quarter of material is of small importance when compared with its good or bad fit But where from experience or the use of our Tailor and Cutter Reliable Model and Special Patterns the fit may be pretty well assured even a quarter of material on each coat cut would very soon bulk to a tolerably large amount At the present time when competition runs so high and prices must be cut so fine it became forcibly impressed upon us that a work might very advantageously be entirely devoted to ECONOMY IN CUTTING We had little difficulty in selecting an author of thorough practical experience for this work Mr Falconer having devoted special attention to the matter of Economy The completeness with which Mr Falconer has done his work will be found in the fact of its containing no less than thirty six Plates illustrating different lays ranging from one to four garments on each lay or illustration The Tables describe the Plates giving the garment

or garments their sizes and the quantities of material from which they can very comfortably be cut The Weekly record of fashion, and tailor and cutter's guide, ed. by T.D. Humphreys [afterw.] The 'London tailor and record of fashion' [afterw.] The London tailor [afterw.] The London tailor and gentleman's magazine of fashion Thomas Darwin Humphreys, 1882 £20
prize essay on cutting by block patterns. With additions by T.D. Humphreys W L. Dobson, 1885 *The Cutters' Practical Guide to Cutting Every Kind of Garment Made by Tailors* William D. F. D. F. VINCENT, 2025-09-30 We take great pleasure in presenting this Work to the trade confident that it will meet a long felt need Although it addresses garments somewhat beyond the usual scope of tailoring practice they nevertheless form a legitimate and indeed essential part of it There is no more reason to decline orders for such garments simply because certain firms have chosen to specialize in them than there would be in refusing to make a pair of breeches or any other item that naturally belongs within the tailor s craft It is the duty of every progressive house to embrace those branches which though sometimes neglected are vital to the completeness of a craftsman s repertoire As regards the Work itself the systems instructions and details of execution we submit with confidence that they will be found both reliable and of genuine practical service They are not the product of theory or speculation but rather of one who has gained wide and varied experience in this particular branch of the trade and is therefore well qualified to speak with authority Both the diagrams and the accompanying text have been prepared with the greatest care uniting clarity with refinement Every line has been drawn with precision and every explanation phrased with utmost attention so that the student may proceed with confidence and the experienced practitioner may find their skill further enriched No effort has been spared to make this Work worthy of its title a genuine Guide to Shirt Cutting not merely a compilation of rules but a practical manual filled with hints and suggestions of lasting value to both learner and expert **Occupational Outlook Handbook** , 1963 Occupational Outlook Handbook United States.
