In contrast the contributions from the satellite events are organized in five different parts according to their respective ADBIS satellite event: BiDaTA 2013 Special Session on Big Data New Trends and Applications, GID 2013 The Second International Workshop on GPUs in Databases, OAIS 2013 The Second International Workshop on Ontologies Meet Advanced Information Systems, SoBI 2013 The First International Workshop on Social Business Intelligence Integrating Social Content in Decision Making and last but not least the Doctoral Consortium a forum for Ph.D. students. The book which addresses academics and professionals alike provides the readers with a comprehensive and timely overview of new trends in database and information systems research and promotes new ideas and collaborations among the different research communities of the eastern European countries and the rest of the world.

Spatio-Temporal Recommendation in Social Media Hongzhi Yin, Bin Cui, 2016-05-19. This book covers the major fundamentals of and the latest research on next generation spatio temporal recommendation systems in social media. It begins by describing the emerging characteristics of social media in the era of mobile internet and explores the limitations to be found in current recommender techniques. The book subsequently presents a series of latent class user models to simulate users behaviors in decision making processes which effectively overcome the challenges arising from temporal dynamics of users behaviors user interest drift over geographical regions data sparsity and cold start. Based on these well designed user models the book develops effective multi dimensional index structures such as Metric Tree and proposes efficient top k retrieval algorithms to accelerate the process of online recommendation and support real time recommendation. In addition it offers methodologies and techniques for evaluating both the effectiveness and efficiency of spatio temporal recommendation systems in social media. The book will appeal to a broad readership from researchers and developers to undergraduate and graduate students.
