Critical Qualitative Research in Social Education Cameron White, 2015-03-01 Critical qualitative research informs social education through a lens that ensures the investigation of issues in education tied to power and privilege ultimately leading to advocacy and activism The concept of critical is increasingly challenged in this age of neoliberal reform nevertheless critical implies questioning investigating and

challenging in terms of equity and social justice leading to critical consciousness Freire 1970 While we resist defining social education as hopefully these ideas concepts are fluid the idea stems from a continual analysis and synthesis of critical theory critical pedagogy media and cultural studies social reconstruction social justice and social studies education framed by culturally responsive pedagogy A social education take on critical qualitative research thus suggests multiple truths and perspectives and focuses on questions rather than answers While many have written on qualitative educational research and some have attempted to integrate critical pedagogy and qualitative research few have explored the specific idea of social education and critical qualitative research A major issue is that social education claims that there are no set procedures scripted approaches or narrow definitions as to the possibilities of research endeavors Social education researchers make the process and investigation their own and adapt questions procedures methods and strategies throughout the experience This reflects an ever changing criticality in the bricolage of the research Steinberg 2011 Critical qualitative research and social education are vital for the world of the 21st century The onslaught of neoliberalism corporatization standardization testing and the continuing attack on public schools and educators necessitate critical approaches to teaching and learning along with critical qualitative research in social education Ongoing issues with equity and social justice tied to race ethnicity class orientation age and ability linking to schooling education teaching and learning must be addressed The struggle between unbridled capitalism and democracy warrant these investigations in the 21st century hopefully leading to advocacy and activism

by its loveliness and power Many modern interpreters however would not hesitate to call it puzzling confusing or ridden with riddles at least What is John is therefore a fascinating question that lingers During the last half century literary theories have been brought into the study of the Fourth Gospel with varying degrees of success New analytical lenses are cast over the Gospel to render its secrets but it feels as if only those who are initiated into its mystery have the knowledge Reading and rereading strategies are offered but the path out of the vast labyrinth is difficult to find The Gospel of John however surprisingly reads much like the Old Testament In fact its form is deeply imbued in the styles of Old Testament poetry narratives and prophets that when they are properly understood together John s message comes across clearly Taking a comprehensive view of the styles of the Old Testament this book takes you to see John in its grand design     *Transformative Practice in Critical Media Literacy* Steve Gennaro,Nolan Higdon,Michael Hoechsmann,2024-04-16 Transformative Practice in Critical Media Literacy brings together a diverse selection of essays to examine the knowledge production crisis in higher education and the role that news media and technology play in this process This text highlights the importance of radical pedagogy and critical media literacy to fight back and reclaim higher education as the battleground for democracy and the embodiment of citizenship Using a global and social justice lens it explores the transformative potential of critical media literacy in higher education It also provides real examples of current critical media literacy practices around the globe and of successful experiences inside classrooms In an era of fake news this text fulfils the yearning for critical media literacy to permeate higher education by drawing together practitioners and scholars speaking to journalism students teacher candidates and to students scholars and activists across a variety of spaces in higher education This book will be a key resource for scholars students policymakers community members and activists interested in education politics youth studies critical theory intersectionality social justice and peace studies activism critical media literacy communication or media studies     The Art and Craft of Comparison John Boswell,Jack Corbett,R. A. W. Rhodes,2019-10-24 Is it possible to compare French presidential politics with village leadership in rural India Most social scientists are united in thinking such unlikely juxtapositions are not feasible Boswell Corbett and Rhodes argue that they are possible This book explains why and how It is a call to arms for interpretivists to embrace creatively comparative work As well as explaining defending and illustrating the comparative interpretive approach this book is also an engaging hands on guide to doing comparative interpretive research with chapters covering design fieldwork analysis and writing The advice in each revolves around rules of thumb grounded in experience and illustrated through stories and examples from the authors research in different contexts around the world Naturalist and humanist traditions have thus far dominated the field but this book presents a real alternative to these two orthodoxies which expands the horizons of comparative analysis in social science research
