The Art Of Mindful Facilitation:

The Art of Mindful Facilitation Mun Wah Lee, 2004 The Art of Effective Facilitation Lisa M. Landreman, 2023-07-03 Co published with How can I apply learning and social justice theory to become a better facilitator Should I prepare differently for workshops around specific identities How do I effectively respond when things aren't going as planned This book is intended for the increasing number of faculty and student affairs administrators at whatever their level of experience who are being asked to become social justice educators to prepare students to live successfully within and contribute to an equitable multicultural society It will enable facilitators to create programs that go beyond superficial discussion of the issues to fundamentally address the structural and cultural causes of inequity and provide students with the knowledge and skills to work for a more just society Beyond theory design techniques and advice on practice the book concludes with a section on supporting student social action The authors illuminate the art and complexity of facilitation describe multiple approaches and discuss the necessary and ongoing reflection process What sets this book apart is how the authors illustrate these practices through personal narratives of challenges encountered and by admitting to their struggles and mistakes They emphasize the need to prepare by taking into account such considerations as the developmental readiness of the participants and the particular issues and historical context of the campus before designing and facilitating a social justice training or selecting specific exercises They pay particular attention to the struggle to teach the goals of social justice education in a language that can be embraced by the general public and to connect its structural and contextual analyses to real issues inside and outside the classroom The book is informed by the recognition that the magic is almost never in the exercise or the handout but instead is in the facilitation and by the authors commitment to help educators identify and analyze dehumanizing processes on their campuses and in society at large reflect on their own socialization and engage in proactive strategies to dismantle oppression *Guiding Teams to Excellence With Equity* John Krownapple, 2016-10-28 Guide your school through its cultural proficiency transformation Despite the best efforts of equity leaders our schools suffer from persistent inequities Guiding the Journey to Excellence with Equity is a must read for anyone who supports professional learning in our schools It defines a process of inside out growth that helps develop culturally proficient educators with the facilitation skills needed to navigate the obstacles that arise during equity transformations Written with an equity lens this book Includes a powerful vignette that illustrates common challenges and solutions Focuses on mental models for managing group energy Is grounded in a systems model for personal and organizational transformation Provides tools for planning culturally proficient learning experiences **More Courageous Conversations About Race** Glenn E.  Back cover *Mindfulness-Based Leadership: The Art of Being a Leader... Not Becoming One* Kathirasan K, 2018-07-15
 Today we need a new type of leader. As we enter the fourth industrial revolution we need leaders with the wisdom to address new ways of working to make positive change in the world. One of the key premises of Mindfulness Based Leadership is that leadership is about being, not becoming. We make a bigger difference by looking within ourselves than by striving to become what we are not. While mindfulness has often been perceived as a solitary activity, this book reveals how it is applicable on a wider scale in groups, businesses, and the wider community. Mindfulness Based Leadership shows us how to balance self and organisational goals to erase the real and imagined internal conflicts between what we believe in and what we do in reality. Mindfulness expert Kathirasan K presents a unique 56-day course on Mindfulness Based Leadership. Each day introduces a new facet of mindfulness through guided introspection, acceptance, and mindful practice, illuminating the ways in which we can unlock the leader within ourselves. Group Counseling with LGBTQI Persons Across the Life Span Kristopher Goodrich, Melissa Luke, 2015-04-08. This unique resource provides strengths-based group counseling strategies designed to meet the needs of LGBTQI clients in a variety of settings. Drs. Goodrich and Luke capture the developmental concerns of LGBTQI individuals throughout the life cycle as they establish and maintain intimate relationships, create families, encounter career concerns, and navigate other milestones and transitions. Illustrative case examples and interventions throughout the text, as well as warnings and recommendations, make this an ideal resource for practice and group work courses. After a discussion of the history of group work with the LGBTQI community, the planning and process issues that group leaders should consider in their work, and relevant ethical and legal concerns, the authors explore a range of group types and pertinent issues. Individual chapters focus on the following types of counseling: child and adolescent, same gender, adult, intersex, and transgender, coming out, disclosure, school, community, outpatient, and residential, couples, and family, substance abuse, grief and loss, and advocacy. Chapters on group work supervision and the importance of allies round out the book. Requests for digital versions from ACA can be found on www.wiley.com. Check your privilege is not a request for a simple favor. It asks white people to consider the painful dimensions of what they have been socialized to ignore. Alison Bailey's *The Weight of Whiteness: A Feminist Engagement with Privilege, Race, and Ignorance* examines how

whiteness misshapes our humanity measuring the weight of whiteness in terms of its costs and losses to collective humanity People of color feel the weight of whiteness daily The resistant habits of whiteness and its attendant privileges however make it difficult for white people to feel the damage White people are more comfortable thinking about white supremacy in terms of what privilege does for them rather than feeling what it does to them The first half of the book focuses on the overexposed side of white privilege the side that works to make the invisible and intangible structures of power more visible and tangible Bailey discusses the importance of understanding privileges intersectionally the ignorance preserving habits of white talk and how privilege and ignorance circulate in educational settings The second part invites white readers to explore the underexposed side of white dominance the weightless side that they would rather not feel The final chapters are powerfully autobiographical Bailey engages readers with a deeply personal account of what it means to hold space with the painful weight of whiteness in her own life She also offers a moving account of medicinal genealogies which helps to engage the weight she inherits from her settler colonial ancestors The book illustrates how the gravitational pull of white ignorance and comfort are stronger than the clean pain required for collective liberation The stakes are high Failure to hold the weight of whiteness ensures that white people will continue to blow the weight of historical trauma through communities of color
