Gadamer's Hermeneutics and the Art of Conversation Andrzej Wierciński, 2011. Gadamer's *Hermeneutics and the Art of Conversation* covers the nature of dialogue and understanding in Hans Georg Gadamer's linguistically oriented hermeneutics and its relevance for contemporary philosophy. This timely collection of essays stresses the fundamental significance of the other for a further development of Heidegger's analytics of Dasein. By recognizing the priority of the other over oneself, Gadamerian hermeneutics finds a culture of dialogue sorely needed in our multi-cultural globalized community. The essays solicited for this volume are presented in three thematic blocks: Hermeneutic Conversation, Hermeneutics, Aesthetics and Transcendence, Hermeneutic Ethics, Education and Politics. The volume proposes a dynamic understanding of hermeneutics as putting into practice the art of conversation.

Truth and Method Hans-Georg Gadamer, 2013-06-27. *Truth and Method* is a landmark work of 20th-century thought which established Hans Georg Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of philosophical hermeneutics, exploring the nature of knowledge; the book rejected traditional quasi-scientific approaches to establishing cultural meaning that were prevalent after the war. In arguing that truth and method acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jürgen Habermas and many others.
