Managerial Ethics Poonam Sharma, Kanika T Bhal, 2004-11-16 Ethics both in general and particularly at the workplace is a topic of major significance in the contemporary world. The authors of this book start with a discussion of the conceptual framework of ethics combining Western and Indian models e.g. Machiavellianism and Gunas. They then proceed to provide a descriptive understanding of this abstract and complex concept. The authors support their conclusions through field research in an organizational setting. They also discuss questions of ethical leadership, personality and cultural differences. The book yields fresh insights into ethical conduct and individual perceptions while conceptualizing a new model of managerial ethics.

The Mongoose Diaries Teejay LeCapois, 2019-04-15 My name is Alain Stephens Jr. I'm studying civil engineering at Carleton University in Ottawa, Canada. Just a guy trying to lead a normal life. Well, as normal a life as one can lead when one's father is the first Haitian-born Canadian Supreme Court Judge, one's mother is an activist, and one is afflicted with M.S. Been a rough year. My girlfriend Khadija Osman didn't react well when I told her that I'm Bisexual, haven't explored it yet. My best friend Jeremy Chan has grown distant. I was quite despondent until I met Dr. Gabriel Pontes, a strange little man who promised me he could cure me. Thanks to his Formula, my M.S. is dormant and I'm stronger and faster than I've ever been. Practically superhuman. Oh, and there are stalkers after me, and I'm slowly becoming a man-sized frigging Mongoose. Help.

A Contemporary Look at Business Ethics Ronald R. Sims, 2017-07-01 A Contemporary Look at Business Ethics provides a present-day look at business ethics to include the challenges, opportunities, and increased need for ethical leadership in today's and tomorrow's organizations. The book discusses current and future business ethics challenges, issues, and opportunities, which provides the context leaders and their organizations must navigate. The book includes an in-depth look at lessons learned about the causes of unethical behavior by examining a number of real-world examples of ethical scandals from around the world that have taken place over the past few decades. The analysis of the various ethical scandals focuses on concepts like ethical versus unethical leadership, received wisdom, the bottom-line mentality, groupthink, and moral muteness, all of which contribute to the kind of organizational culture and ethical behavior one finds in an organization. The book discusses ethical decision-making in general and the increased role of religion and spirituality in confronting unethical behavior in contemporary organizations. The book also takes an in-depth look at the impact ethical scandals have on employees and more specifically the psychological contract and person-organization ethical fit with the goal of identifying, along with other things, what leaders can do to restore relationships with employees and rebuild the organization's reputation in the eyes of various stakeholders.
