prompted by paper folding later treated and conceptualised Aiming to answer these questions this volume provides for the first time an extensive historical study on the history of folding in mathematics spanning from the 16th century to the 20th century and offers a general study on the ways mathematical knowledge is marginalised disappears is ignored or becomes obsolete In doing so it makes a valuable contribution to the field of history and philosophy of science particularly the history and philosophy of mathematics and is highly recommended for anyone interested in these topics *Proceedings of the Board of Education of the City of Albany* ,1904 **The Trimmed Lamp** Howard Vincent O'Brien,1912 Teacher's Manual for Prang's Complete Course in Form-study and Drawing John Spencer Clark,Mrs. Mary Dana Hicks,Walter Scott Perry,1895
