Higher Education ICT Integration in Africa Ke Yu, Reuben Dlamini, 2024-08-21 This multidisciplinary edited volume examines higher education's ICT integration in Africa contributing a new and inclusive change readiness framework to better understand how to manage ICT or other technological disruptions in resource-restrained contexts. Tackling ICT incorporation in HEIs from different levels, chapters document case studies from countries such as Uganda, South Africa, Rwanda, Eswatini, and Zimbabwe to demonstrate both the complexity of integration but also the successes it has enabled and under which conditions. The cases included in this book also exhibit better incorporation of both change content and process while some cases also make explicit reference to other technology adoption models. Ultimately, the book highlights conceptual and empirical research to inform practices and policy development in Africa, improving multi-level success or change readiness in ICT incorporation in HEIs in Africa. Addressing various gaps in existing literature and proposing innovative solutions like the multilevel change readiness model, this book will therefore be of interest to scholars, researchers, and academics in the fields of higher education, ICT integration, and educational technology more broadly. Polymer Nanocomposites for Advanced Engineering and Military Applications Ramdani, Nouredine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing, sensors, biomedical, microelectronics, hard coating, and many other domains. Due to their outstanding mechanical and thermal features, polymer nanocomposite materials have recently been developed and now have a wide range of applications. *Polymer Nanocomposites for Advanced Engineering and Military Applications* provides emerging research on recent advances in the fabrication methods, properties, and applications of various nano fillers, including surface modification methods and chemical functionalization. Featuring coverage on a broad range of topics such as barrier properties, biomedical, microelectronics, and matrix processing, this book is ideally designed for engineers, industrialists, chemists, government officials, military professionals, practitioners, academicians, researchers, and students.

ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management _ Vladlena Benson, Fragkiskos Filippaios, 2016-05-20 *Proceedings of The Focus Conference (TFC 2022)* Manyane Makua, Mariam Akinlolu, Mashango Sithole, Phiwayinkosi Gumede, Cebo Nyondo, 2023-02-08 This is an open access book. It is a common cause globally that the abrupt emergence of Covid-19 wreaked havoc in all sectors, including the higher education system. The sudden closure of campuses as a social distancing measure to prevent community transmission has shifted face-to-face classes to online teaching and learning, a transformative experiment for academics and students in most institutions. This has thrown the focus on utilising Learning Management Systems (LMS), eLearning tools, and platforms for effective student engagement, which may have limitations of accessibility and affordability for many students. The pandemic has

exposed the shortcomings of the current higher education system and the need for more training of academics and practitioners in digital technology to adapt to the rapidly changing educational climate In the post pandemic situation eLearning and virtual education may become an integral part of the higher education system hence the question of re inventing higher education The higher education institutions and universities need to plan the post pandemic education and research strategies to ensure student learning outcomes and standards of educational quality With the move to online teaching and learning subsequently traditional assessments followed and were adapted and adopted for online assessment Assessments lie at the heart of the teaching process It shapes students understanding of the curriculum and determines their ability to progress Reflections on assessments during Covid 19 abounded with the challenges that both academics and students faced regarding online assessments including cheating and quality assurance issues The focus on quality extended to the quality of teaching and learning in general Moreover the pandemic brought about the question of staff and student health and psychosocial support also became important For academics the abrupt shift to adapt to working from home and implementing online learning has led to over work low work life balance and compromised mental health With a view on constructive and futuristic discourse the sub themes of the 2022 Focus conference encapsulate the current realities in the higher education sector and beyond It further provides opportunities for an in depth analysis based on the benefit of hindsight and foresight The Organising Committee specifically coined the theme Re inventing higher education Insights trends and lessons learnt from specifically for the conference to reflect on and address the matters mentioned earlier Academics scholars and practitioners in the higher education sector are called upon to share their research and express their perspectives on the reinvention of higher education

Design and Applications of Nanostructured Polymer Blends and Nanocomposite Systems Sabu Thomas, Robert Shanks, Sarath Chandran, 2015-09-22 Design and Applications of Nanostructured Polymer Blend and Nanocomposite Systems offers readers an intelligent thorough introduction to the design and applications of this new generation of designer polymers with customized properties The book assembles and covers in a unified way the state of the art developments of this less explored type of material With a focus on nanostructured polymer blends the book discusses the science of nanostructure formation and the potential performance benefits of nanostructured polymer blends and composites for applications across many sectors electronics coatings adhesives energy photovoltaics aerospace automotive and medical devices biocompatible polymers The book also describes the design morphology and structure of nanostructured polymer composites and blends to achieve specific properties Covers all important information for designing and selecting the right nanostructured polymer system Provides specialized knowledge on self repairing nanofibre and nanostructured multiphase materials as well as evaluation and testing of nanostructured polymer systems Serves as a reference guide for development of new products in industries ranging from electronics coatings and energy to transport and medical applications Describes the design morphology and structure of nanostructured polymer composites

and blends to achieve specific properties **Monument Culture** Laura A. Macaluso,2019-05-30 Monument Culture International Perspectives on the Future of Monuments in a Changing World brings together a collection of essays from scholars and cultural critics working on the meanings of monuments and memorials in the second decade of the twenty first century a time of great social and political change The book presents a broad view of the challenges facing individuals and society in making sense of public monuments with contested meanings From the United States to Europe to Africa to Australia and New Zealand to South America and beyond the contributors tackle the ways in which different places approach monuments in a landscape where institutions and ideas are under direct challenge from political and social unrest It also discusses sharply changed attitudes about the representation of history and memory in the public sphere The goal is to acknowledge shared experiences through a wider perspective to contribute to the work of the world wide heritage community and to document the history and shifting cultural attitudes towards monument culture across the world encouraging a more informed approach to monuments and their meanings especially for the public and those outside of academia **Improving Business Performance Through Innovation in the Digital Economy** Oncioiu, Ionica,2019-09-06 In the 21st century advancements in the digital world are bringing about rapid waves of change in organizational management As such it is increasingly imperative to discover ways for businesses to adapt to changes in the markets and seize various digital marketing opportunities Improving Business Performance Through Innovation in the Digital Economy is an essential reference source for the latest research on the impact of digital computing It investigates new economic and entrepreneurial approaches to enhancing community development Featuring research on topics such as business ethics mobile technology and cyber security this book is ideally designed for knowledge workers business managers executives entrepreneurs small and medium enterprise managers academicians researchers students and global leaders seeking coverage on the management of sustainable enterprises **The Land Is Sung** Thomas M. Pooley,2023-10-17 What does it mean to belong In The Land is Sung musicologist Thomas M Pooley shows how performances of song dance and praise poetry connect Zulu communities to their ancestral homes and genealogies For those without land tenure in the province of KwaZulu Nata performances articulate a sense of place Migrants express their allegiances through performance and spiritual relationships to land are embodied in rituals that invoke ancestral connection while advancing well being through intergenerational communication Engaging with justice and environmental ethics education and indigenous knowledge systems musical and linguistic analysis and the ethics of recording practice Pooley s analysis draws on genres of music and dance recorded in the midlands and borderlands of South Africa and in Johannesburg s inner city His detailed sound writing captures the visceral experiences of performances in everyday life The book is richly illustrated and there is a companion website featuring both video and audio examples **Universities in the National Innovation Systems** V. V. Krishna,2017-07-31 This volume looks at the role of universities in the National Innovation Systems in economies of the Asia

Pacific It examines the tremendous growth of human and knowledge capital made possible by teaching and research excellence in major universities along with how universities are being re positioned as frontiers of innovation in the National Systems of Innovation The chapters assess the impact of globalisation and innovation together with the emergence of new knowledge sites extended to the Asia Pacific region With contributions by experts and academics and key case studies this book will be useful to scholars and researchers in higher education development studies public policy economics business and resource management Asian studies as well as policymakers

Encyclopedia of Polymer Applications, 3 Volume Set Munmaya Mishra, 2018-12-17 Undoubtedly the applications of polymers are rapidly evolving Technology is continually changing and quickly advancing as polymers are needed to solve a variety of day to day challenges leading to improvements in quality of life The Encyclopedia of Polymer Applications presents state of the art research and development on the applications of polymers This groundbreaking work provides important overviews to help stimulate further advancements in all areas of polymers This comprehensive multi volume reference includes articles contributed from a diverse and global team of renowned researchers It offers a broad based perspective on a multitude of topics in a variety of applications as well as detailed research information figures tables illustrations and references The encyclopedia provides introductions classifications properties selection types technologies shelf life recycling testing and applications for each of the entries where applicable It features critical content for both novices and experts including engineers scientists polymer scientists materials scientists biomedical engineers macromolecular chemists researchers and students as well as interested readers in academia industry and research institutions

Advanced Composites in Aerospace Engineering Applications Norkhairunnisa Mazlan, S.M. Sapuan, R.A. Ilyas, 2022-02-21 This book presents an authoritative account of the potential of advanced composites such as composites biocomposites composites geopolymer hybrid composites and hybrid biocomposites in aerospace application It documents how in recent years composite materials have grown in strength stature and significance to become a key material of enhanced scientific interest and resultant research into understanding their behavior for selection and safe use in a wide spectrum of technology related applications This collection highlights how their unique combination of superior properties such as low density high strength high elastic modulus high hardness high temperature capability and excellent chemical and environmental stability are optimized in technologies within these field

Intellectual Decolonisation George Hull, 2024-10-18 This book puts contemporary calls for decolonisation in context Featuring an interdisciplinary team of scholars from around the world the book explores and critically assesses the diverse theoretical visions which inform calls for decolonisation of the mind today Contemporary calls to decolonise focus less on politico economic relations between states more on culture and ideas Sometimes museums are the target sometimes universities or academic disciplines sometimes entire legal systems Commentators and activists speak out for others against intellectual decolonisation decolonisation of the mind But what is the colonisation which intellectual decolonisation undoes

Under what circumstances can inculcation or acceptance of ideas constitute colonialism As this book demonstrates advocates of intellectual decolonisation give very different indeed incompatible answers to these questions Critically examining conceptualisations of decolonisation spanning a century and four continents the book explores what is at stake in the choice between these theoretical alternatives Some see the aim of decolonisation as truth via the removal of distorting effects of power and bias Others troublingly subordinate truth and knowledge to ethnic or regional identity potentially paving the way for culturally authoritarian politics Intellectual Decolonisation Critical Perspectives is an indispensable resource for teachers students and scholars seeking to deepen their understanding of debates about decolonisation of the mind Individual chapters will interest researchers of the new right wing ethnonationalist political ideologies emerging in Europe Asia and Africa Originally published as a special issue of Social Dynamics this book is also a guide for anyone wondering what decolonisation is all about Handbook of Phytonutrients in Indigenous Fruits and Vegetables Dharini Sivakumar,Yasmina

Sultanbawa,Michael Netzel,2022-10-31 The effects of inadequate diets on the population include malnutrition non communicable diseases and obesity Hidden hunger also known as micronutrient deficiencies leads to various health related disorders and diseases Indigenous plants in the form of indigenous fruits and leafy vegetables are gaining interest as a source of nutrients and bioactive phytochemicals satisfying both food demand and health needs Moreover with the impact of climate change and the importance of sustainability of food systems it is essential that we investigate new forgotten and alternative crops that can thrive in harsh conditions require low fertilizer input and are easily harvestable This is an essential resource for academic researchers and industry professionals in the fields of horticulture agriculture crop science human health and nutrition **Polymers and Two-Dimensional Nanocomposites** Rotimi Sadiku,Yskandar Hamam,Suprakas

Sinha Ray,Oladipo Folorunso,2024-11-23 Polymers and Two Dimensional Nanocomposites provides a detailed review of recent progress in this important research field The chapters cover new developments in synthesis methods fabrication techniques sample preparation methods surface modification characterization methods of enhancing the properties of these materials and industrial applications in energy environmental oil and gas sensors corrosion biomedical and structural applications The book provides a valuable reference resource for academic and industrial researchers materials scientists and engineers working in the fields of polymer science and engineering polymer composites and nanocomposites Covers recent developments in synthesis characterization properties and applications Discusses new fabrication techniques and how to select the right processing conditions Systematic presentation of theoretical and experimental investigation of properties for various industrial applications Attention is given to current challenges and future improvements Higher Education Pathways Ashwin, Paul,Case, Jennifer M.,2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have

particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent. Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society. Undergraduate education is seen as central to addressing skills shortages in South Africa. It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits. This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues.

Feeling lives: An intersectional exploration of past experiences and present living Lindsay Clowes, LJ Theo, Nadia Sanger, Landa Mabenge, Sisa Ngabaza, 2023-11-15. We each make sense of the world through our embodied feeling lives. We do it through the social groupings, contexts and processes which history rather than biology presents and assigns to us. In this collection we aim to illustrate how these embodied feelings and emotions underpin contemporary theorising by sharing reflective autobiographical writing by individuals from a wide range of backgrounds and contexts. This somewhat unruly collection unsettles conventional academic writing precisely because authors have grounded themselves in the tangible and the personal rather than in abstract theory. We hope that readers might see aspects of their own lives in some of these stories, develop better understandings of lives that are experienced very differently and start or continue to theorise their own lives.

History of South Africa Thula Simpson, 2022-08-04. South Africa was born in war, has been cursed by crises and ruptures and today stands on a precipice once again. This book explores the country's tumultuous journey from the Second Anglo Boer War to 2021. Drawing on diaries, letters, oral testimony and diplomatic reports, Thula Simpson follows the South African people through the battles, elections, repression, resistance, strikes, insurrections, massacres, crashes and epidemics that have shaped the nation. Tracking South Africa's path from colony to Union and from apartheid to democracy, Simpson documents the influence of key figures including Jan Smuts, Nelson Mandela, Steve Biko, P. W. Botha, Thabo Mbeki and Cyril Ramaphosa. He offers detailed accounts of watershed events like the 1922 Rand Revolt, the Defiance Campaign, Sharpeville, the Soweto uprising and the Marikana massacre. He sheds light on the roles of Gandhi, Churchill, Castro and Thatcher and explores the impact of the World Wars, the armed struggle and the Border War. Simpson's history charts the post apartheid transition and the phases of ANC rule from Rainbow Nation to transformation state, capture to New Dawn. Along the way, it reveals the divisions and solidarities of sport, the nation's economic travails and painful pandemics from the Spanish flu to AIDS and Covid 19.

Public Intellectuals in South Africa Chris Broodryk, 2021-07-01. This edited collection gives voice to neglected public intellectuals in the arts, humanities and journalism in South Africa who gave voice and presence to those

who have been marginalized and silenced in South African history Edward Said described a public intellectual as someone who uses accessible language to address a designated public on matters of social and political significance The essays in *Public Intellectuals in South Africa* apply this interpretive prism and activist principle to a South African context and tell the stories of well known figures as well as some that have been mostly forgotten They include Magera Fuze John Dube Aggrey Klaaste Mewa Ramgobin and Koos Roets alongside marginalized figures such as Elijah Makiwane Mandisi Sindo William Pretorius and Dr Thomas Duncan Greenlees The essays capture the thoughts and opinions of these historical figures who the contributors argue are public intellectuals who spoke out against the corruption of power promoted a progressive politics that challenged the colonial project and its legacies and encouraged a sustained dissent of the political status quo Offering fascinating accounts of the life and work of these writers critics and activists across a range of historical contexts and disciplines from journalism and arts criticism to history and politics it enriches the historical record of South African public intellectual life This volume makes a significant contribution to ongoing debates about the value of research in the arts and humanities and what constitutes public intellectualism in South Africa
