Rising from My Knees Sandrah Hlatshwayo, 2013 My book is a memoir based on my life experiences and how

I have overcome life's challenges as a single mother as a student and living with my daughter in a single parent home with my five brothers. The aim of the book is to motivate and inspire teen mummies to pursue their dreams and achieve their goals no matter what circumstances they are in. I truly believe that with hard work and dedication dreams do come true. The book has fifty-one chapters and poems based on my thoughts and fears of failing in life which makes it okay. In the end, I must say that I have lived my life. This book will inspire my readers to appreciate life and to cherish all that surrounds them with passion by letting the past go and reaching to the future with a purpose. *Twenty-Twenty Hindsight* Mosiuoa Sekese, 2013

Twenty-twenty hindsight means perfect understanding of events only after they have happened. In his book, Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events. Sekese suffered discrimination and prejudice under the old apartheid government as well as the new democratic regime. His story is highly personal but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with. I had a quick read and I find the content heartbreaking but fascinating. Especially as a white South African, you are drawing me into a world that I always knew existed but which few people have the guts and conviction to paint into words. Louise Heystek, Emerton CEO, Wordwise Khuluma Awethu. *Online Teaching and Learning in Higher Education* Mariam Akinlolu, Manyane Makua, Nomalungelo Ngubane, 2024-06-03. This edited volume explores current practices in African higher education during and post the global pandemic. It fills a gap in the existing literature by focusing on student engagement and online learning in South Africa and examines how pandemic restrictions amplified pre-existing inequalities within the higher education sector. The book is divided into 3 sections. The first section discusses various methods of instruction and the use of online tools for facilitating learning, succeeded by a section focusing on the resource implications of moving to online learning platforms from a social justice perspective, and finally the last section considers issues and concerns about online assessments and quality assurance. Drawing on lessons from the experiences of South African educators and students during the pandemic, this book provides a knowledge base essential for the effective management of online teaching and learning in Africa. It is intended for academic stakeholders to develop and engender an improved higher education climate. **South African Journal of Higher Education**, 2007. **Pretoria Street Guide** Map Studio (Firm), 2005. Application of Nanotechnology in Mining Processes Elvis Fosso-Kankeu, Martin Mkandawire, Bhekie B. Mamba, 2022-03-02. Application of Nanotechnology in Mining Processes. Nanotechnology has revolutionized processes in many industries, but its application in the mining industry has not been widely discussed. This unique book provides an overview of the successful implementation of nanotechnology in some of the key environmental and beneficiation mining processes. This book explores extensively the potential of nanotechnology to revolutionize the mining industry, which has been relying for a very long time on processes with limited efficiencies. The nine specialized chapters focus on applying nanoflotation to improve mineral processing, effective extraction of metals from leachates or pregnant solutions using nanoscale

supramolecular hosts and development of nano adsorbents or nano based strategies for the remediation or valorization of AMD The application of nanotechnology in mining has so far received little attention from the industry and researchers and this groundbreaking book features critical issues so far under reported in the literature Application of nanotechnology in mineral processing for the enhancement of froth flotation Development of smart nanomaterials and application for the treatment of acid mine drainage Recovery of values from pregnant solutions using nanoadsorbents Valorization of AMD through formation of multipurpose nanoproducts Audience Industrial interest will be from mining plant operators environmental managers water treatment plants managers and operators Researchers in nanotechnology environmental science mining and metallurgy engineering will find the book valuable as will government entities such as regulatory bodies officers and environmentalists *From Polarisation to Multispecies Relationships* Janet J. McIntyre-Mills, Yvonne Corcoran-Nantes, 2021-08-05

This book explores the concept of multi species relationships and suggests critical systemic pathways to protect shared habitats This book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk This book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment This book explores a priori norms and a posteriori measures and indicators to include and protect multiple species This book aims to strengthen institutional capacity and powers to address and extend the UN 2030 Sustainable Development Agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide This book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation state to support living systems of which we are a strand **Research Anthology on Military and Defense Applications, Utilization, Education, and Ethics** Management Association, Information Resources, 2021-05-28
