

Analytic Self-Evaluation Report (ASER) (Vocational Institutions)

PREPARING AN ASER/BASER - INTRODUCTION

These guidelines are provided to assist institutions offering vocational education programs to prepare an Analytic Self-Evaluation Report (ASER) for the main campus and, if applicable, a Branch Analytic Self-Evaluation Report (BASER) for any branch campus, within the context of ACCET Document 2 – Standards for Accreditation, and applicable policies. Refer to ACCET Document 31 – Definitions for definitions of main and branch campus. Although the instructions that follow specifically address preparation of the ASER, they apply identically to the BASER.

The ACCET Standards for Accreditation are articulated in broad terms in order to accommodate the necessary balance of structure and good practice, while recognizing the importance of flexibility for innovation. ACCET standards, policies, and procedures serve a number of purposes and functions, in the context of preparing an ASER, including the provision of:

- valid criteria by which the institution is evaluated; and
- reliable methodologies and practices to assess and enhance the quality of education and training provided by the institution and to assure systematic and effective implementation of operational functions through an ongoing quality assurance and evaluation process.

VOCATIONAL INSTITUTIONS

Postsecondary vocational institutions are defined by ACCET as those which offer at least one program that is designed to prepare students for gainful employment in a recognized occupation. These programs are sufficiently comprehensive to train individuals for entry level employment in the new occupation. Many institutions classified as vocational may also offer individual courses and/or shorter programs for avocational purposes, in addition to their vocational program(s), and must include information, under the relevant standards, on all courses and programs offered.

ASER DEVELOPMENT

The ASER serves as a structured resume on the institution's mission, management, coursework, admissions, academic policies, and quality measures, along with plans for continued improvement and growth. As the institution formulates responses to the questions and statements under each standard in the ASER and, if applicable, the BASER and/or templates, it will conduct a critical self-evaluation of its policies, procedures, and practices, which will be subsequently reviewed during the on-site visit to evaluate the institution's systematic and effective implementation. Therefore, it is likely that some revision to policies, procedures, and/or practices will be made during the ASER development process, with self-analysis and improvement a positive outcome of the accreditation process. Additionally, the development of the ASER is designed to be a team effort, requiring a high level of commitment, input, and interaction across a broad cross-section of staff and faculty.
