

0-4 Introduction

The Mk. II Volkswagen Golf and Jetta range of models was introduced in March 1984, revised body and trim features being the main visual difference to the earlier range of models.

The engine/transmission is mounted transversely at the front of the vehicle, drive being to the front wheels. Detailed improvements have been made throughout the years of manufacture to improve power output and economy. These include the introduction of hydraulic

bucket tappets, the Digifant, Digjet and Mono-Jetronic fuel injection systems, the 16-valve engine fitted to the GTI variant, the fully electronic ignition system (F.E.I.), the GRS 5-speed gearbox and several other minor modifications and revisions.

As with earlier models the new range is proving popular, giving economy, reliability, comfort and, if previous models can be used as a yardstick, long life.

Your Volkswagen Golf and Jetta Manual

The aim of this Manual is to help you get the best value from your vehicle. It can do so in several ways. It can help you decide what work must be done (even should you choose to get it done by a garage), provide information on routine maintenance and servicing, and give a logical course of action and diagnosis when random faults occur. However, it is hoped that you will use the Manual by tackling the work yourself. On simpler jobs it may even be quicker than booking the car into a garage and going there twice, to leave and collect it. Perhaps most important, a lot of money can be saved by avoiding the costs a garage must charge to cover its labour and overheads.

The Manual has drawings and descriptions to show the function of the various components so that their layout can be understood. Then the tasks are described and photographed in a clear step-by-step sequence.

Thanks are due to Champion Spark Plug who supplied the illustrations showing spark plug conditions, to Duckhams Oils, who provided lubrication data and also to Sykes-Pickavant Limited, who supplied some of the workshop tools, and to all those people at Sparkford who helped in the production of this Manual.
