Expansion is a comprehensive introductory guide to taking sustainable business into and doing business within the world's fastest growing economies. The authors, multi-cultural seasoned experts in accounting, finance, law, and strategy, stress the fundamental importance of sustainability. They underline the critical role of research and analysis before action. The potential positive impact of AI and digital transformation is a consistent theme. Drawing on their own experiences and a rich panoply of relevant literature, the authors highlight opportunities, risks, and proven techniques for market entry. Primarily written to inform undergraduate and postgraduate business students, the book also appeals to executives and managers tasked with crafting successful plans for businesses contemplating foundation or expansion in a world of unlimited potential.

The Automotive Industry and European Integration A. J. Jacobs, 2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Pax Sinica Y.Y. Kueh, 2012-10-01 The book confronts the popular conjecture of a Pax Sinica emerging to replace Pax Americana in the wake of global financial crisis. It argues that by virtue of its overwhelming economic, technological, and military clout, US hegemony will continue to prevail, though increasingly less coherently, as China's ascendancy as a global power accelerates. The argument is underpinned with analysis of different junctures in China's trajectory towards the status of economic giant: from the tacit creation of the Greater China growth triangle and ordeal of the Asian Financial Crisis through the breakthrough with China's membership in the WTO and the subsequent large-scale realignment of productive forces in the Asia Pacific region. A chronological approach is combined with topical analysis, focusing in particular on the interplay between economic imperatives and geopolitical dynamics. Taken together, the book provides a highly refreshing and coherent perspective for looking at China arising as a dominant Asia Pacific power with significant global implications. As an interdisciplinary study, it will appeal to scholars and academics as well as businessmen and government policy makers interested in Asian and global affairs, and especially to students of economics, politics, international business, and globalization studies. Y.Y. Kueh is a Hong Kong-based China expert. He taught at The Chinese University of Hong Kong for over two decades, served as Founding Director of Centre for Chinese Political Economy at Macquarie University Sydney, and retired from Lingnan University Hong Kong as Chair Professor of Economics and Dean of Social Science. Currently, he is Senior College Tutor, Honorary New Asia College, The Chinese University of Hong Kong.
