Sourcebook on Violence Against Women Claire M. Renzetti,Jeffrey L. Edleson,Raquel Kennedy Bergen,2011 Jonathan Letterman was an outpost medical officer serving in Indian country in the years before the Civil War responsible for the care of just hundreds of men But when he was appointed the chief medical officer for the Army of the Potomac he revolutionized combat medicine over the course of four major battles Antietam Fredericksburg Chancellorsville and Gettysburg that produced unprecedented numbers of casualties He made battlefield survival possible by creating the first organized ambulance corps and a more effective field hospital system He imposed medical professionalism on a chaotic battlefield Where before 20 percent of the men were unfit to fight because of disease squalid conditions and poor nutrition he improved health and combat readiness by pioneering hygiene and diet standards Based on original research and with stirring accounts of battle and the struggle to invent and supply adequate care during impossible conditions this new biography recounts Letterman s life from his small town Pennsylvania beginnings to his trailblazing wartime years and his subsequent life as a wildcatter and the medical examiner of San Francisco At last here is the missing portrait of a key figure of Civil War history and military medicine His principles of battlefield care continue to be taught to military commanders and first responders

The Protohistoric Pueblo World, A.D. 1275-1600 E. Charles Adams, Andrew I. Duff, 2016-04 In the centuries before the arrival of Europeans the Pueblo world underwent nearly continuous reorganization Populations moved from Chaco Canyon and the great centers of the Mesa Verde region to areas along the Rio Grande the Little Colorado River and the Mogollon Rim where they began constructing larger and differently organized villages many with more than 500 rooms Villages also tended to occur in clusters that have been interpreted in a number of different ways This book describes and interprets this period of southwestern history immediately before and after initial European contact A D 1275 1600 a span of time during which Pueblo peoples and culture were dramatically transformed It summarizes one hundred years of research and archaeological data for the Pueblo IV period as it explores the nature of the organization of village clusters and what they meant in behavioral and political terms Twelve of the chapters individually examine the northern and eastern portions of the Southwest and the groups who settled there during the protohistoric period The authors develop histories for settlement clusters that offer insights into their unique development and the variety of ways that villages formed these clusters These analyses show the extent to which spatial clusters of large settlements may have formed regionally organized alliances and in some cases they reveal a connection between protohistoric villages and indigenous or migratory groups from the preceding period This volume is distinct from other recent syntheses of Pueblo IV research in that it treats the settlement cluster as the analytic unit By analyzing how members of clusters of villages interacted with one another it offers a clearer understanding

of the value of this level of analysis and suggests possibilities for future research In addition to offering new insights on the Pueblo IV world the volume serves as a compendium of information on more than 400 known villages larger than 50 rooms It will be of lasting interest not only to archaeologists but also to geographers land managers and general readers interested in Pueblo culture *Formal Perspectives on Secondary Predication* Marcel den Dikken,Hideki Kishimoto,2024-07-01 The topic

of secondary predication has attracted much attention especially in the generative literature The present volume distinguishes itself from previous volumes on this topic in that all chapters discuss current issues in the syntax and semantics of secondary predication in the languages of Europe including the Indo European languages English Dutch French and Spanish as well as Hungarian a Finno Ugric language and the languages of Asia including Japanese Chinese and Korean from formal linguistic perspectives This book brings to light important new results in and directions for research on secondary predication Forthcoming Books Rose Arny,2002-02 **The Complete Guide to Fertility Awareness** Jane
