Toward a Psychology of Being Abraham H Maslow, 2024-03-26 This book is a continuation of my *Motivation and Personality* published in 1954 It was constructed in about the same way that is by doing one piece at a time of the larger theoretical structure It is a predecessor to work yet to be done toward the construction of a comprehensive systematic and empirically based general psychology and philosophy which includes both the depths and the heights of human nature The last chapter is to some extent a program for this future work and serves as a bridge to it It is a first attempt to integrate the health and growth psychology with psychopathology and psychoanalytic dynamics the dynamic with the holistic Becoming with Being good with evil positive with negative Phrased in another way it is an effort to build on the general psychoanalytic base and on the scientific positivistic base of experimental psychology the Eupsychian B psychological and metamotivational superstructure which these two systems lack going beyond their limits It is very difficult I have found to communicate to others my simultaneous respect for and impatience with these two comprehensive psychologies So many people insist on being either pro Freudian or anti Freudian pro scientific psychology or anti scientific psychology etc In my opinion all such loyalty positions are silly Our job is to integrate these various truths into the whole truth which should be our only loyalty Wilder Publications is a green publisher All of our books are printed to order This reduces waste and helps us keep prices low while greatly reducing our impact on the environment

style Publisher description *Summary of Abraham H. Maslow's Toward a Psychology of Being* Everest Media,2022-04-05T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The new conception of human sickness and health is based on the assumptions that we have an essential biologically based inner nature that is good or neutral and that it is best to bring this out and encourage it rather than to suppress it 2 The classical approach to personality problems considers them to be problems in an undesirable sense Struggle conflict guilt bad conscience anxiety depression frustration and tension are all symptoms of sick and undesirable people But all of these symptoms are found in healthy people or people who are growing toward health 3 The classical Freudian notion of a superego is entirely authoritarian and relativistic It is the internalization of the wishes demands and ideals of the father and mother whoever they may be But there is also another kind of conscience which is based on the unconscious and preconscious perception of our own nature 4 The question of whether or not it is possible to grow and self fulfill without pain and grief is also important to consider If these are to some extent unavoidable then to what extent If grief and pain are sometimes necessary for growth then we must learn not to protect people from them automatically **Toward a Psychology of Being-Reprint of 1962 Edition First Edition** Abraham H. A Psychological Perspective on Joy and Emotional Fulfillment Chris Meadows,2013-11-26 Throughout the history of psychology there have been full investigations of discrete emotions particularly negative ones and a recent wealth of books on happiness but few exist on the emotion of joy This book takes a unique psychological approach to understanding this powerful emotion and provides a framework within which the study of human joy and other related positive fulfillment experiences can fit in a meaningful schema A key feature of this book is its development of an experiential phenomenology of joy This phenomenology is based on more than three hundred descriptions of joy experiences recounted by subjects in an empirical study executed by the author Types of joy experiences are examined such as excited vs serene joy anticipatory vs completed joy and affiliative vs individuated joy There is no comparable book or work that clarifies the relationship among major positive states with emotional components including satisfaction happiness and ecstasy

Religions Values and Peak-Experiences Abraham H. Maslow,2021-11-09T16:42:00Z One of the foremost spokesmen for the Third Force movement in psychology Abraham H Maslow here articulates one of his prominent theses the religious experience is a rightful subject for scientific investigation and speculation and conversely the scientific community will see its work enhanced by acknowledging and studying the species wide need for spiritual expression which in so many forms is at the heart of peak experiences reached by healthy fully functioning people

Humanistic Psychology: Interviews with Maslow, Murphy, and Rogers Willard B. Frick,Abraham Harold Maslow,Gardner Murphy,Carl Ransom Rogers,1971

One Nation Under Therapy Christina Hoff Sommers,Sally Satel,2025-08-22 Americans have traditionally placed great value on self reliance and fortitude In recent decades however we have seen the rise of a therapeutic ethic that views Americans as emotionally underdeveloped psychically frail and requiring the ministrations of mental health professionals to cope with life's vicissitudes Being in touch

with one's feelings and freely expressing them have become paramount personal virtues Today with a book for every ailment a counselor for every crisis a lawsuit for every grievance and a TV show for every conceivable problem we are at risk of degrading our native ability to cope with life's challenges Drawing on established science and common sense Christina Hoff Sommers and Dr Sally Satel reveal how therapism and the burgeoning trauma industry have come to pervade our lives Help is offered everywhere under the presumption that we need it in children's classrooms the workplace churches courtrooms the media the military But with all the help comes a host of troubling consequences including The myth of stressed out homework burdened hypercompetitive and depressed or suicidal schoolchildren in need of therapy and medication The loss of moral bearings in our approach to lying crime addiction and other foibles and vices The unasked for grief counselors who descend on bereaved families schools and communities following a tragedy offering dubious advice while billing plenty of money The expansion of Post Traumatic Stress Disorder from an affliction of war veterans to nearly everyone who has experienced a setback Intelligent provocative and wryly amusing One Nation Under Therapy demonstrates that talking about problems is no substitute for confronting them

New Knowledge in Human Values Abraham Harold Maslow, 1959 [A More Perfect Union](#) Linda Sargent Wood, 2012-09-01 This book uncovers a holistic sensibility in post World War II American culture that challenged Cold War logic and fed some of the century's most powerful social movements This impulse is illustrated by focusing on Rachel Carson Buckminster Fuller Martin Luther King Jr Abraham Maslow Pierre Teilhard de Chardin and the Esalen Institute

Beyond Decolonial African Philosophy Joseph C. A. Agbakoba, Marita Rainsborough, 2024-12-30 Beyond Decolonial African Philosophy dives into decoloniality discourse challenging some of its shortcomings and offering alternative perspectives on the nature of Africanity and Afrotopia Africa's better future from leading African philosophers Beginning with an overview of philosophy in contemporary Africa the first half of the book goes on to critically interrogate and rethink decoloniality's deconstructivist approach The second half of the book considers a range of alternative new conceptualizations of Afrotopia and Africanity that transcend decolonial theory drawing on constructivist and creative approaches The book considers key questions such as Is Africanity immutable essentialism or mutable nominalism Should we emphasize idealist identitarian concerns or pragmatic developmentarian concerns Should we prioritise African agency or structures and circumstances Should Africa embrace hybrid interculturality and creative self-manifestive identity or essentialist purity Drawing on rich insights from African philosophers across the continent this book challenges students and researchers to think beyond the concept of decolonization to alternative forms of African identities and African futures

Self-Esteem Ian Miller, 2024-02-07 By the end of the twentieth century the idea of self-esteem had become enormously influential A staggering amount of psychological research and self-help literature was being published and before long devoured by readers Self-esteem initiatives permeated American schools Self-esteem became the way of understanding ourselves our personalities our interactions with others Nowadays however few people think much about the

concept of self esteem but perhaps we should Self Esteem An American History is the first historical study to explore the emotional politics of self esteem in modern America Written with verve and insight Ian Miller s expert analysis looks at the critiques of self help that accuse it of propping up conservative agendas by encouraging us to look solely inside ourselves to resolve life s problems At the same time he reveals how African American LGBTQ and feminist activists have endeavored to build positive collective identities based on self esteem pride and self respect This revelatory book will be essential reading for anyone with an interest in the history of mental health and well being and in how the politics of self esteem is played out in today s US society and culture

Poetic Theology William A. Dyrness,2011 What are the poetics of everyday life What can they teach us about God Art music dance and writing can certainly be poetic but so can such diverse pastimes as fishing skiing or attending sports events Any and all activities that satisfy our fundamental need for play for celebration and for ritual says William Dyrness are inherently poetic and in Poetic Theology he demonstrates that all such activities are places where God is active in the world All of humanity s creative efforts Dyrness points out testify to our intrinsic longing for joy and delight and our deep desire to connect with others with the created order and especially with the Creator This desire is rooted in the presence and calling of God in and through the good creation With extensive reflection on aesthetics in spirituality worship and community development Dyrness s Poetic Theology will be useful for all who seek fresh and powerful new ways to communicate the gospel in contemporary society William Dyrness s bold invitation to a poetic theology shaped by Scripture tradition and imagination one luring us toward a fuller participation in beauty than argument or concept alone allow reminds us that truth itself is beautiful to behold and poetic to the core If poetry is in its deepest reflex an intensification of life then Dyrness s call for a poetic theology is one we ignore at our peril reminding us that faithful living is not only about proper thinking but also and perhaps more properly about the texture of our living and the quality of our loving Mark S Burrows Andover Newton Theological School Makes a strong case for aesthetics as one of the avenues used by God to draw human beings near to him and his glory A wonderful journey through Reformed spirituality and a wake up call for Reformed theology Cornelius van der Kooi Free University Amsterdam

Repentance Louis E. Newman,2013-07 An inspiring way to reclaim your integrity and renew your sense of moral purpose Like water teshuvah is both destructive and creative It dissolves the person you were but simultaneously provides the moisture you need to grow anew It erodes the hard edges of your willfulness but also refreshes your spirit It can turn the tallest barriers of moral blindness into rubble while it also gently nourishes the hidden seeds of hope buried deep in your soul Teshuvah like water has the power both to wash away past sin and to shower you with the blessing of a new future if only you trust it and allow yourself to be carried along in its current from Part VII In this candid and comprehensive probe into the nature of moral transgression and spiritual healing Dr Louis E Newman examines both the practical and philosophical dimensions of teshuvah Judaism s core religious moral teaching on repentance and its value for us Jews and non Jews alike today He exposes the inner logic of teshuvah as well as

the beliefs about God and humankind that make it possible He also charts the path of teshuvah revealing to us how we can free ourselves from the burden of our own transgressions by Acknowledging our transgressions Confessing Feeling remorse Apologizing Making restitution Soul reckoning Avoiding sin when the next opportunity arises
