strategies is far from easy 70% of all change programmes fail This book shows how you can make sure that when change happens and it frequently does your company is ready for it Shareholders want to see change take effect immediately as each day's delay can cost them money or lose them market share while staff are often suspicious of change wondering what's in it for them How do you make sure the change you want happens successfully that it has everyone's support and how do you make it stick The only way to walk this tightrope without falling off is to leave behind the old models and adapt a new practice of change management Michael Jarrett draws on established research case examples and his own wide consulting experience to illustrate that current models of step change are largely doomed to failure and proposes a new framework that aligns both the internal and external dynamics of change In a refreshingly clear and practical approach Changeability points to a new route to successful change which uses a balanced approach taking account of the four key levers of change First take the online diagnostic test to benchmark your organisation against others in terms of your ability to change and to assess your relative strengths and weaknesses Then use the tools methods and techniques outlined by Jarrett to develop winning change strategies customised for your company There are four main groups of strategies depending upon your situation so choose the one that's right for you and open the door to accelerated and sustainable change
