Once Upon a Time in a Dark and Scary Book K. Shryock Hood, 2018-05-25 Contemporary American horror literature for children and young adults has two bold messages for readers adults are untrustworthy unreliable and often dangerous and the monster always wins as it must if there is to be a sequel Examining the young adult horror series and the religious horror series for children Left Behind The Kids for the first time and tracing the unstoppable monster to Seuss's Cat in the Hat this book sheds new light on the problematic message produced by the combination of marketing and books for contemporary American young readers

**The Art of Goosebumps** Sarah Rodriguez, 2021-11-17 Featuring tons of fun facts about the series alongside a walkthrough of all books and covers in the Goosebumps collections this art book is a must have for old and new fans alike In the summer of 1992 Scholastic tasked two terrifyingly talented artists with creating the cover paintings for the books that would premiere the Goosebumps series At that time four books in the line were being market tested by the publisher to see how young readers would react to R L Stine's particular brand of humor tinged horror One element that was sure to catch the attention of little eyes everywhere was striking cover art and boy did they find it The imagery provided by the covers of the Goosebumps series

is part and parcel to the 90s Kid zeitgeist helping to create a visual brand for R L Stine's smash hit horror series. The covers helped set the tone for the numerous adaptations of the series including a television series, a theatre experience and more recently blockbuster films.

**The Book Publishing Industry** Albert N. Greco, Jim Milliot, Robert Wharton, 2013-07-31. **The Children's Ghost Story in America** Sean Ferrier-Watson, 2017-04-11. Ghost stories have played a prominent role in childhood. Circulated around playgrounds and whispered in slumber parties, their history in American literature is little known and seldom discussed by scholars. This book explores the fascinating origins and development of these tales, focusing on the social and historical factors that shaped them and gave birth to the genre. Ghost stories have existed for centuries but have been published specifically for children for only about 200 years. Early on, supernatural ghost stories were rare, authors and publishers fearing they might adversely affect young minds. Presented stories in which the ghost was always revealed as a fraud. These tales dominated children's publishing in the 19th century but the 20th century saw a change in perspective and the supernatural ghost story flourished.

**Horrifying Children** Lauren Stephenson, Robert Edgar, John Marland, 2024-03-07. Horrifying Children examines weird and eerie children's television and literature via critical analysis, memoir and autoethnography. There has been an explosion of interest in the impact of children's television and literature of the late twentieth century. In particular, the 1970s, 80s and 90s are seen as decades that shaped a great deal of the contemporary cultural landscape. Television of this period dominated the world of childhood entertainment, drawing freely upon literature and popular culture like the Garbage Pail Kids and Stranger Things, and much of it continues to resonate powerfully with the generation of cultural producers, fiction writers, screenwriters, directors, musicians and artists that grew up watching the weird, the eerie and the horrific, the essence of 21st century Hauntology. In these terms, this book is not about children's television as it exists now but rather as it features as a facet of memory in the 21st century. As such, it is the legacy of these television programmes that is at the core of Horrifying Children. The haunting of adults by what we have seen on the screen is crucial to the study. This collection directly addresses that which scared us in the past, inasmuch as there is a correlation between individual and collective cultural memory with some chapters providing an opportunity for situating existing explorations and understandings of Gothic and Horror TV within a hauntological and experiential framework.
