American origin complainants across the globe may include victims of rape bereaved families and individual officers The reason why certain victims and complainants are targeted by policing agencies is complex and leads to an investigation into police bias covert practices and one of the most common areas of policing road death investigations Consequently other members of the criminal justice system such as prosecutors coroners and hospital pathologists medical examiners are shown to often corroborate the police s version of events compromising victims rights and the very nature of justice Given recent miscarriages of justice and public relation campaigns on behalf of the police Eccy de Jonge argues that never before has a greater openness on the inner workings of the police been needed to fully support the interests of those the criminal justice system is meant to serve     Road Passenger Transport: Road Goods Transport D.
