What Day Does Fifth Grade Take Ileap:

Hope Against Hope Sarah Carr, 2014-03-25 A moving portrait of school reform in New Orleans through the eyes of the students and educators living it

When the Saints Come Marching in Bruce Sacerdote, 2008 I examine academic performance and college going for public school students affected by Hurricanes Katrina and Rita. Students who are forced to switch schools due to the hurricanes experience sharp declines in test scores in the first year following the hurricane. However, by the second and third years after the disaster, Katrina evacuees displaced from Orleans Parish appear to benefit from the displacement, experiencing a 15 standard deviation improvement in scores. The test score gains are concentrated among students whose initial schools were in the lowest quintile of the test score distribution and among students who leave the New Orleans MSA. Katrina evacuees from suburban areas and Rita evacuees from the Lake Charles area eventually recover most of the ground lost during 05-06 but do not experience long-term gains relative to their pre-Katrina test scores. High school age Orleans evacuees have higher college enrollment rates than their predecessors from the same high schools. Meanwhile, Katrina evacuees from the suburbs experience a 3.5 percentage point drop in their rate of enrollment in four-year colleges. Those evacuees do not make up for the decline in the subsequent two years. Later cohorts of suburban New Orleans evacuees are unaffected. The results suggest that for students in the lowest performing schools, the long-term gains to achievement from switching schools can more than offset even substantial costs of disruption.

The Turnaround Mindset Tierney Temple Fairchild, Jo Lynne DeMary, 2011-06-16 This book provides a valuable balance between what one must know and what one must do to turn around low-performing schools. The 3-E framework simplifies this complex process by focusing resources on the environment, the executive, and the execution of the turnaround plan. Central to each of these components is a spotlight on the values supporting change and an examination of the unique perspectives and actions required at the school, district, and state levels in renewing chronically underperforming schools. A set of case studies on individuals who have led successful turnarounds of schools gives life to the theoretical concepts. These cases focus on the principal as turnaround specialist, offering leadership profiles from their varied perspectives and demonstrating the resilience of these leaders across settings and challenges. The book concludes with a discussion of how the developing field of school turnarounds affects educational policy in the K-12 and higher education arenas.
