Tom Lansford

South African Military Skills Development Form 2015 16:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention of military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

African Peacekeeping Training Centres Anne Flaspöler, 2018-10-26

Peacekeeping training centres play a crucial role in preparing peacekeepers for their deployment. However, despite their popularity within the international community as a tool for achieving international security, development and state building objectives, they have not received a great deal of analysis or academic attention. This book provides an in-depth analysis of peacekeeping training in Africa, tracing how centres have adapted to the operational and normative changes of peace operations over time and raising questions about the expectations attached to these training efforts and their impact. The book examines training content and methods in detail, exploring the potential of peacekeeping training centres as sites for socialisation and diffusing international norms in an effort to change and shape peacekeepers' behaviour. The analysis is based on two contrasting case studies selected to show the spectrum of training centres operating in Africa, namely the Kofi Annan International Peacekeeping Training Centre (KAIPTC) in Accra, Ghana and the African Centre for the Constructive Resolution of Disputes (ACCORD) in Durban, South Africa. At a time when impact is being determined by the number of course

attendees this book provides an important critical assessment of training efforts and what they are supposed to achieve It will be of interest to scholars and practitioners within the fields of international security peacekeeping and African development *The Handbook of Displacement* Peter Adey, Janet C. civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion, the 21st century requires a new approach to statecraft. In 21st Century Statecraft, Professor Nayef Al-Rodhan proposes five innovative statecraft concepts. He makes the case for a new method of geopolitical analysis called meta geopolitics and for dignity-based governance. He shows how, in an interdependent and interconnected world, traditional thinking must move beyond zero-sum games and focus on multi-sum and symbiotic realist interstate relations. This requires a new paradigm of global security premised on five dimensions of security and a new concept of power: just power, which highlights the centrality of justice to state interests. These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft. Throughout, Professor Al-Rodhan brings his philosophical and neuroscientific expertise to bear, providing a practical model for conducting statecraft in a sustainable way. *Education in Africa* African Union, UNESCO Office Dakar and Regional Bureau for Education in Africa, 2023-02-14 **Who's who of Southern Africa**, 1996 Vols for 1967-70 include as a section Who's who of Rhodesia, Mauritius, Central and East Africa.

Regulating the Security Industry Mahesh Nalla, Tim Prenzler, 2020-01-24 It is widely acknowledged that the size of the security industry has increased in virtually every country around the world, often eclipsing conventional police forces in personnel numbers and expenditures. Security providers differ from law enforcement officers in many ways, yet the nature of their crime reduction activities brings them into frequent contact with citizens, drawing to the forefront issues of training, professionalism and accountability. Unlike police officers, whose training and licensing standards are well established, regulations for security providers are often minimalist or entirely absent. This volume brings together research on regulatory regimes and strategies from around the globe, covering both the large private security sector and the expanding area of public sector non-police protective security. It examines the nature and extent of licensing and monitoring and the minimum standards imposed on the industry by governments across the world.
