Sovereignty And Responsibility Power Norms And Intervention In International Relations

Stephanie Lawson

Sovereignty And Responsibility Power Norms And Intervention In International Relations:

Sovereignty and Responsibility J. Moses, 2014-11-18 This book is a critical study of the concept of sovereignty and its relationship to responsibility It establishes a clear distinction between empirical and normative definitions of sovereignty and examines the implications of these concepts in relation to intervention international law and the world state Sovereignty and Responsibility J. Moses, 2014-11-18 This book is a critical study of the concept of sovereignty and its relationship to responsibility It establishes a clear distinction between empirical and normative definitions of sovereignty and examines the implications of these concepts in relation to intervention international law and the world state Norm Contestation, Sovereignty and (Ir)responsibility at the International Criminal Court Emanuela Piccolo Koskimies, 2021-10-26 Grappling specifically with the norm of sovereignty as responsibility the book seeks to advance a critical constructivist understanding of norm development in international society as opposed to the conventional or liberal constructivist mis understanding that still dominates the debate Against this backdrop the book delves into the institutionalization of sovereignty as responsibility within the lived practice of the International Criminal Court ICC More to the point the proposed exploration intends to revive questions about the power laden nature of the normative fabric of international society its dis symmetries and its outright hierarchies in order to devise an original framework to operationalize research on how institutional practice impinges on norm development To this end the book resorts to an original creole vocabulary which combines the contributions of post positivist constructivist scholars with the legacy of key post modernist thinkers such as Michel Foucault and Jacques Derrida as well as critical approaches to International Criminal Law and Post Colonial Studies The book will appeal to scholars of international relations and international law in addition to critical scholars more broadly as well as to practitioners in the fields of human rights and international justice interested in normative theory and the implementation and contestation of international social norms **Atrocity Crimes and International Law** Stacey Henderson, 2022-10-31 Despite repeated declarations of never again in response to the commission of atrocities civilians have continued to be targeted by their leaders and opposition groups The international law principles of sovereignty and non intervention when taken at their highest require States to stand idle and not intervene in another State regardless of what atrocities may be occurring there This traditional legal view is being challenged by an emerging practice of States choosing to respond in non forceful ways inspired by the concept of the Responsibility to Protect R2P Drawing on R2P this book introduces and develops an original conceptual tool intercession to capture and explain this change in State practice and the impact of R2P on the development of international law Through a close examination of State practice the work explores whether there has been an expansion in the permissible measures and situations in which States can intervene without using force in response to atrocity crimes occurring in other States This book concludes that the development of the secondary duty on the international community under R2P provides the greatest opportunity to progress the R2P framework in a meaningful way which will have a

significant impact on the protection of populations from atrocity crimes The book will be essential reading for students researchers and policymakers working in the areas of international law international relations humanitarian law and peace and security studies Protecting Human Rights in the 21st Century Aidan Hehir,Robert W. Murray,2017-04-12 This book contributes to current debates on the protection of human rights in the 21st century With the global economic collapse the rise of the BRICS the post intervention chaos in Libya the migration crisis in Europe and the regional conflagration sparked by the conflict in Syria the need to protect human rights has arguably never been greater In light of the precipitous decline in global respect for human rights and the eruption or escalation of intra state crises across the world this book asks what is the future of human rights protection Seeking to avoid both denial and fatalism this book thus aims to examine the principles at the very foundation of the debate on human rights diagnose the causes of the decline of liberal internationalism so as to offer guiding lessons for future initiatives identify those practices and developments that can and should be preserved in the new era question the parameters of the contemporary debate and advance perspectives that aim to identify the contours of future ideas and practices that may offer a way forward This book will be of much interest to students of humanitarian intervention R2P international organisations human rights and security studies Introduction to Politics Robert Garner,Peter Ferdinand,Stephanie Lawson,2023 The only introductory textbook to bring together theory comparative politics and international relations to provide the most comprehensive and global introduction to politics available A Theory of De Facto States Lucas Knotter,2023-12-12 A Theory of De Facto States offers a new perspective on the phenomenon of de facto states political communities that manifest forms of statehood in international politics but lack international legal recognition zooming in on two prominent examples Somaliland and Kosovo Employing a thorough understanding of classical realist theories of international relations this book provides a fresh critique of the common ways in which existing research tends to identify the ostensible state features of these communities In contrast to the prevalent portrayals of such features in terms of international legal discursive and or everyday logics this book argues that de facto states can be most fundamentally characterised as exceptional polities in international relations Showcasing how the statehood and sovereignty of de facto states is based in international political crises this book concludes that these entities function as recurring disruptions of any supposed international political order A Theory of De Facto States will therefore be of interest to researchers of secession de facto statehood and International Relations theory alike Global Politics Stephanie Lawson,2021 The most concise introduction to international relations covers all the essentials with learning features that link theories to the real world Global Politics is a concise and engaging introduction to international relations In it Stephanie Lawson introduces the key theories and concepts underpinning the discipline giving readers a foundation to study politics on both a personal and global scale including issues relating to gender sexuality and ethnicity as well as the economy environment and concepts of justice The textbook presents theories in their historical context demonstrating how they can evolve over time Case studies both

contemporary and historical and biographies of key figures help bring these issues to life Additional features such as key debates and summary questions provide opportunities to analyse issues from a range of perspectives

The End of American World Order Amitav Acharya, 2018-03-16 The age of Western hegemony is over Whether or not America itself declines or thrives under President Trump's leadership the post war liberal international order underpinned by US military economic and ideological primacy and supported by global institutions serving its power and purpose is coming to an end But what will take its place A Chinese world order A re constituted form of American hegemony A regionalized system of global cooperation including major and emerging powers In this updated and extended edition of his widely acclaimed book Amitav Acharya offers an incisive answer to this fundamental question While the US will remain a major force in world affairs he argues that it has lost the ability to shape world order after its own interests and image As a result the US will be one of a number of anchors including emerging powers regional forces and a concert of the old and new powers shaping a new world order Rejecting labels such as multipolar apolar or G Zero Acharya likens the emerging system to a multiplex theatre offering a choice of plots ideas directors power and action leadership under one roof Finally he reflects on the policies that the US emerging powers and regional actors must pursue to promote stability in this decentred but interdependent multiplex world Written by a leading scholar of the international relations of the non Western world and rising above partisan punditry this book represents a major contribution to debates over the post American era

Historical Dictionary of International Relations Peter Lamb, Fiona Robertson-Snape, 2017-03-21 The Historical Dictionary of International Relations is a general guide to the theory and practice of the relations between states and between states and other actors on the world stage It introduces readers to the real world operations of international relations and is thus concerned with the actual relations between states organizations groups and people It also offers introductory information about the various theories old and new that help explain these relations why they happen and the possible alternatives that might be available now or in the future Moreover some of the key thinkers of these theories are discussed The Historical Dictionary of International Relations contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on real world operations of international relations the actual relations between states organizations groups and people This book is an excellent resource for students researchers and anyone wanting to know more about International Relations

Selective Responsibility in the United Nations Katy Harsant, 2022-08-30 The United Nations claims to exist in order to maintain international peace and security providing a space within which all states can work together But why then does the UN invoke its responsibility to protect through humanitarian intervention in some instances but not others Why is it that five states have the power to decide whether or not to intervene This book challenges the dominant narrative of the UN as an institution of equality and progress by analyzing the colonial origins of the organization and revealing the unequal power relations it has perpetuated Harsant argues that the United Nations is unable to fulfill its claims around the protection

of international peace and security due to its very structure and the privilege of certain states Moreover through a rigorous examination of the history of the UN and how those structures came to be she argues that the privilege afforded to these states is the result of power relations established through the colonial encounter In order to understand the pressing contemporary issues of how the United Nations operates particularly the Security Council this book discusses issues of power and sovereignty by de silencing the narratives of resistance and reconstructing a history of the United Nations that takes this colonial and anti colonial relationship into account This is a bold challenge to the eurocentrism that dominates International Relations discourse and a call to better understand the colonialism s role in preserving the existing global order The Routledge Handbook on Responsibility in International Relations Hannes Hansen-Magnusson,Antje Vetterlein,2021-07-29 What does responsibility mean in International Relations IR This handbook brings together cutting edge research on the critical debates about responsibility that are currently being undertaken in IR theory This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance Chapters with an empirical focus zoom in on particular actor constellations of emerging states international organizations political movements or corporations or address how responsibility matters in structuring the politics of global commons such as oceans resources or the Internet Providing a comprehensive overview of IR scholarship on responsibility this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR international law political theory global ethics science and technology area studies development studies business ethics and environmental and security governance

Sovereignty and the Responsibility to Protect Theresa Reinold,2013 This book explores how the bedrock institution of today s global order sovereignty is undergoing transformation as a result of complex interactions between power and norms between politics and international law This book analyses a series of controversial military interventions into the internal affairs of irresponsible sovereigns and discusses their consequences for the rules on the use of force and the principle of sovereign equality Featuring case studies on Kosovo Darfur and Afghanistan It shows that frames from one discourse for example the debate over the responsibility to protect have been imported into other discourses on counter terrorism and nuclear non proliferation in an attempt to legitimize a bold challenge to the global legal order Although the demise of sovereignty is widely debated this book instead seeks to deconstruct sovereignty by explaining how this institution has been reconstituted by global powers whose hegemonic law making activities have popularized the notion of sovereignty as responsibility Drawing on international relations theory international law and sociology **Sovereignty and the Responsibility to Protect** develops a truly interdisciplinary perspective on the transformation of sovereignty and will be of strong interest to

students and scholars in these fields

International Relations as Politics among People Hannes

Hansen-Magnusson, 2019-11-25 Pioneering a hermeneutic methodology for analyses of global governance this is the first monograph that makes Hans Georg Gadamer's and Paul Ricoeur's hermeneutic philosophy relevant for global politics research Drawing on the concept of horizon as the element that captures the dynamics of understanding in social interaction in order to analyse processes of international politics this book shows that what is required is the embeddedness of meanings and ideas in human action and reflection By advancing theory building with regard to particular questions of global governance it reconceptualises international relations as politics among people Providing a contextualised constructivist approach that highlights the importance of processes to which people are central it challenges the use of collective concepts such as state and nation as units of analysis which continue to dominate international relations but which cloud the details of interaction processes The two case studies of UN Convention on the Law of the Sea and Germany in NATO's mission Operation Allied Force in Kosovo in 1999 are structured around this contextualised constructivist approach developed in the monograph The studies reveal how interaction processes can be made accountable leading to new vantage points of our understanding of governance problems This book will be of interest to scholars interested in global governance the work of Hans Georg Gadamer Paul Ricoeur and hermeneutic philosophy the UN humanitarian interventions and foreign policy analysts

State Renaissance for Peace Emmanuel H. D. De Groof, 2020-08-27 After 1989 the function of transitional governance changed It became a process whereby transitional authorities introduce a constitutional transformation on the basis of interim laws In spite of its domestic nature it also became an international project and one with formidable ambitions ending war conflict or crisis by reconfiguring the state order This model attracted international attention from the UN Security Council and several regional organisations and became a playing field of choice in international politics and diplomacy Also without recourse to armed force international actors could impact a state apparatus through state renaissance This book zooms in on the non forcible aspects of conflict related transitional governance while focusing on the transition itself This study shows that neither transitional actors nor external actors must respect specific rules when realising or contributing to state renaissance The legal limits to indirectly provoking regime change are also being unveiled

International Intervention in the Post-Cold War World Michael C. Davis, 2004 International intervention on humanitarian grounds has been a contentious issue for decades This volume undertakes a systematic and broadly international review of issues relating to this subject

International Organizations and the Implementation of the Responsibility to Protect Daniel Silander, Don

Wallace, 2015-04-17 This book seeks to understand the obligation of the international community to implement the principles of the Responsibility to Protect R2P With a focus on the humanitarian crisis in Syria the volume examines what formal responsibility and actual capability international institutions have to protect and prevent civilians from systematic mass atrocities and presents an analysis of several prominent international organizations IOs Each chapter focuses on a specific

organization and explores their formal responsibilities and how these pertain to the obligations of the R2P Existing capabilities and actual abilities to address the challenges of R2P are analysed by looking at these issues before during and after the occurrence of the humanitarian crisis in Syria With the UN not fully engaged in the Syrian conflict the systematic human rights abuses have engendered greater attention on other organizations This volume argues that if the UN Security Council's inactions result in an abdication of responsibilities under the UN Charter there should not only be a discussion of how the UN must alter its approach but also an examination of whether there are alternative R2P paths for other MNOs to take in the name of international peace and human security This book will be of much interest to students of R2P

humanitarian intervention international organisations Middle Eastern politics and security studies **Handbook on Global**

Constitutionalism Anthony F. Lang, Antje Wiener, 2023-11-03 This thoroughly revised Handbook presents an up to date political and philosophical history of global constitutionalism By exploring the constitutional like qualities of international affairs it provides key insight into the evolving world order The United States and Great Power Responsibility in

International Society Wali Aslam, 2013-07-24 This book evaluates American foreign policy actions from the perspective of great power responsibility with three case studies Operation Iraqi Freedom American drone strikes in Pakistan and the post 9 11 practice of extraordinary rendition This book argues that the US invasion of Iraq in 2003 American drone attacks in Pakistan and the practice of extraordinary rendition are the examples of irresponsible actions undertaken by the U S acting as a great power in international society Focusing on a major theoretical approach of International Relations the English School this book considers the responsibilities of great powers in international society It points to three obligations of great powers to act according to the norm of legality to act according to the norm of legitimacy and to adhere to the principles of prudence The author applies the criteria of legality legitimacy and prudence to analyse the three foreign policy endeavours of the U S and developing a normative framework clarifies the implications for future U S foreign policy This book will be of strong interest to students and scholars of international relations international relations theory American politics foreign policy studies international law South Asian studies and Middle Eastern studies **The Oxford Handbook of the**

Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-23 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely

developments in the next decade

Whispering the Strategies of Language: An Psychological Journey through **Sovereignty And Responsibility Power Norms And Intervention In International Relations**

In a digitally-driven world wherever displays reign great and immediate conversation drowns out the subtleties of language, the profound techniques and psychological nuances concealed within phrases usually get unheard. Sovereignty And Responsibility Power Norms And Intervention In International Relations Introduction

In today's digital age, the availability of Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Sovereignty And

Responsibility Power Norms And Intervention In International Relations books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Sovereignty And Responsibility Power Norms And Intervention In International Relations versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the

ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Sovereignty And Responsibility Power Norms And Intervention In International Relations books and manuals for download and embark on your journey of knowledge?

FAQs About Sovereignty And Responsibility Power Norms And Intervention In International Relations Books

1. Where can I buy Sovereignty And Responsibility Power Norms And Intervention In International Relations books?
Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Sovereignty And Responsibility Power Norms And Intervention In International Relations book to read?
