

The Hobbit

by J.R.R. Tolkien

illustrated by Peter Sís

About the Book

Many decades ago in England, a highly respected professor at Oxford was correcting exam papers and, having a few minutes to spare, idly scribbled on a blank page in an exam book, "In a hole in the ground there lived a hobbit." He didn't even know what a hobbit was, or why he wrote those words. But they were, nevertheless, the beginning of one of the most famous fantasy adventure tales ever written. The professor was J.R.R. Tolkien, and the book, of course, was *The Hobbit*.

Professor Tolkien was a teacher of (among other things) philology and a student of many languages, including such ancient ones as Old Icelandic, Old Norse, Anglo-Saxon (the basis of modern English), and others, long since dead. He would seem to be an unlikely author of a fantasy tale, but he had originated some languages for his own amusement and had written about an imaginary world in which to use them. The idea of *The Hobbit* fitted in that imaginary world somehow, and Tolkien, wrote over some years, the story of the adventures of Bilbo the hobbit and Gandalf and the dwarves. He read it, with great applause, to his children as he was writing it, and finally it was submitted for publication. Rayner Unwin, the ten-year-old son of Tolkien's English publisher, read it for his father and thought the book was appealing. *The Hobbit* was published to favorable reviews in 1937 and has been a favorite with millions of readers ever since. It has become a classic and has been read even more since the publication of its famous sequel, *The Lord of the Rings*.

The Hobbit Discussion Guide
