Just Another Car Factory? James Rinehart, Christopher Huxley, David Robertson, 2018-09-05 This study of CAMI Automotive a unionized joint venture between General Motors and Suzuki is the most comprehensive ever undertaken of a lean production plant James Rinehart Christopher Huxley and David Robertson address a topic that has inspired fierce debate in industrial relations sociology labor studies and human resource management Heralded as a model of lean production when it opened in 1989 CAMI promised workers something different from traditional plants a humane environment empowerment and cooperative labor management relations However the enthusiasm workers felt during the orientation and early phases of production steadily declined as did their involvement in participatory activities Workers came to describe CAMI as just another car factory Union challenges and shopfloor resistance to key elements of the lean system grew capped by a five week strike in 1992 The authors attribute workers disillusionment to lean production itself rather than to North American managers inadequate implementation *Alternatives to Lean Production* Christian Berggren, 2019-01-24 The Swedish auto industry has developed a distinct production design and work organization exploring alternatives to the assembly line and to the traditional shop floor hierarchy with a model of teamwork that increases independent decision making and elicits strong union commitment Berggren evaluates in detail the reorganization of work within the Swedish auto industry from 1970 to 1990 In his introduction to the new edition he explores the significance of Volvo's decision to close its two most innovative plants **Chilton Book Company Repair Manual**, 1991 **Defining the Lean Logistics Learning Enterprise** Jennifer Nicole Karlin, 2004 *Training For What?* Nancy Jackson, 1992-01-01 Are government sponsored training programs a route to greater management control of the workplace or to labour freedom Today as at the time of the book's publication in 1992 training is prominent in public policy and political life The authors in this collection maintain that it is central to management initiatives aimed at the restructuring of the workplace and that governments rely on it as a substitute for coherent industrial policy On the other hand it can enhance workers skills improve working conditions and build a more a more democratic working life Training for What is a collection of papers examining occupational training as a tool of ongoing political struggle in the workplace An Our Schools Our Selves book *States Against Markets* Robert Boyer, Daniel Drache, 2005-08-15 This work challenges the popular view that globalization threatens the role of the nation state in determining national policy It examines the fundamental issue of competitiveness and market power in an increasingly borderless and co dependent world Despite this increased threat to the nation state as an effective manager of the national economy the authors argue that there are a number of options and alternatives open to governments to protect themselves from the global business cycle **Ward's Automotive Yearbook**, 2005 Includes advertising matter **The Harbour Report**, 2006 *Asian American Librarians and Library Services* Janet Hyunju Clarke, Raymond Pun, Monnee Tong, 2017-12-08 What are the library services and resources that Asian Pacific Americans need What does it mean to be an
