History of Pittsburgh and Environs George Thornton Fleming,1922 Made From This Earth Vera Norwood,2014-07-01 The broad sweep of environmental and ecological history has until now been written and understood in predominantly male terms In Made From This Earth Vera Norwood explores the relationship of women to the natural environment through the work of writers illustrators landscape and garden designers ornithologists botanists biologists and conservationists Norwood begins by showing that the study and promotion of botany was an activity deemed appropriate for women in the early 1800s After highlighting the work of nineteenth century scientific illustrators and garden designers she focuses on nature s advocates such as Rachel Carson and

Dian Fossey who differed strongly with men on both women's nature and the value of the natural world. These women challenged the dominant male controlled ideologies often framing their critique with reference to values arising from the female experience. Norwood concludes with an analysis of the utopian solutions posed by ecofeminists the most recent group of women to contest men over the meaning and value of nature. *History of Pittsburgh and Environs* American Historical Company, 1922

What Is the Rock Cycle? Ellen Lawrence, 2020. Some of the rocks we see around us are millions of years old. Rocks don't stay the same forever though. Rocks are changing and becoming new rocks all the time. Inside this book readers will follow a clear accessible step by step journey through Earth's rock cycle. They will find out how igneous rock forms from magma following a volcanic eruption. Then they will explore how the igneous rock is eroded by rain to become sediment that eventually forms new sedimentary rock. When Earth's crust moves the sedimentary rock is crushed, baked and transformed into metamorphic rock deep underground. Finally completing the cycle the metamorphic rock is heated and melted to once again become magma. Filled with information perfectly suited to the abilities and interests of an early elementary audience this colorful fact filled volume gives readers a chance not only to learn but also to develop their powers of observation and critical thinking. From stunning photographs to high interest facts this book makes learning about Earth's ever changing rocks a lively engaging experience. *The Spectator*, 1845. A weekly review of politics literature theology and art.
