Faster, Better, Stronger

Eric Heiden, Massimo Testa, DeAnne Musolf, 2008-08-05 Are you one of the millions of people out there who feel like they've read everything there is to read on fitness and have spent an enormous amount of time and money trying to get fit and still failed? Until you know how your body really works and reacts to physical activity, you may never succeed. Eric Heiden M.D. and Massimo Testa M.D. two preeminent sports physicians who know the training needs of beginners as intimately as those of elite athletes want to fix this problem. They know there has been an entire field of training science and medicine that has never been translated for the general public until now. In a program that is designed for everyday people, Heiden and Testa bring us **Faster Better Stronger**, a customized science-based program designed to guide you into a lifelong fitness habit, giving you step-by-step instructions on how to make the most of your body through exercise, physically, mentally, biomechanically, and nutritionally. In Part I, the doctors detail the solid science behind your body's responses to exercise. They share the same philosophy and medical expertise they have shared with world-class athletes and give scientific secrets in several areas of fitness: the prescriptive aspects of exercise, the biology of movement, the importance of fueling your body with the right food and water, what rest really accomplishes, and motivation. They also debug and clarify some all-too-often misunderstood medical and biological truths about training and offer you ways to find your hidden talents and strengths. These doctors know that the luxuries of time and access are significant factors in getting fit, and thus Part II helps you design your own unique individualized exercise program, no matter your age, ability, experience, or schedule. Once you have assessed your current fitness level, the doctors guide you through assembling blocks of activities into a twelve-week program that will get you started on the road to lifelong health.

World-Class Brain Harald S. Harung, Frederick Travis, 2025-05-30 This book tells the story of world-class performers and offers an easy-to-read introduction to research showing that their brain function is different from the brains of average performers. No surprise there. But what is surprising is that regardless of whether these top performers are athletes, musicians, or CEOs, their brains share one feature that makes them stand out: more integrated functioning. Their brains work in a more coherent, relaxed, wakeful, and efficient way. Other features these top performers have in common include intensely happy and fulfilling peak experiences and a greater moral sense. Readers also learn how they too can effortlessly develop greater brain integration. About the authors: Dr. Harald S. Harung is an interdisciplinary peak performance researcher at Oslo Metropolitan University in Norway. For many years, he taught Leadership, ethics, and world-class performance to classes of up to 500 students. Harald holds a Ph.D. from the University of Manchester and has worked as a researcher at Oxford University, a naval officer, CEO of an engineering company, and president of an international business college. Dr. Frederick Travis has been Director of the Center for Brain, Consciousness, and Cognition at Maharishi International University in the US since 1990. His work has focused on brain development from birth to adulthood, higher states of consciousness, and the effects of meditation experiences on the brain. Fred and Harald were the first researchers in the world to find a brain basis of high performance.
