The Americans ,2003 Divergent Memories Gi-Wook Shin,Daniel Sneider,2016-09-07 No nation is free from the charge that it has a less than complete view of the past History is not simply about recording past events it is often contested negotiated and reshaped over time Debate over the history of World War II in Asia remains surprisingly intense and Divergent Memories examines the opinions of powerful individuals to pinpoint the sources of conflict from Japanese colonialism in Korea and atrocities in China to the American decision to use atomic weapons against Japan Rather than labeling others views as distorted or ignoring dissenting voices to create a monolithic historical account Gi Wook Shin and Daniel Sneider pursue a more fruitful approach analyzing how historical memory has developed been formulated and even been challenged in each country By identifying key factors responsible for these differences Divergent Memories provides the tools for readers to both approach their own national histories with reflection and to be more understanding of others
