God's Internationalists David P. King, 2019-04-11

Over the past seventy years, World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world with 40,000 employees, offices in nearly one hundred countries, and an annual budget of over 2 billion. While founder Bob Pierce was an evangelist with street smarts, the most recent World Vision U.S. presidents move with ease between megachurches, the boardrooms of Fortune 500 companies, and the corridors of Capitol Hill. Though the organization has remained decidedly Christian, it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development.

God's Internationalists is the first comprehensive study of World Vision or any such religious humanitarian agency. In chronicling the organization's transformation from 1950 to the present, David P. King approaches World Vision as a lens through which to explore shifts within post-World War II American evangelicalism as well as the complexities of faith-based humanitarianism. Chronicling the evolution of World Vision's practices, theology, rhetoric, and organizational structure, King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture. King's pairing of American evangelicals' interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement. By examining these patterns of change, *God's Internationalists* offers a distinctive angle on the history of religious humanitarianism.

Reauthorizing the Voting Rights Act's Temporary Provisions United States. Congress. Senate. Committee on the Judiciary. Subcommittee on the Constitution, Civil Rights, and Property Rights, 2007

Arsnick Jennifer Jensen Wallach, John A. Kirk, 2011-01-01

The Student Nonviolent Coordinating Committee (SNCC) arrived in Arkansas in October 1962 at the request of the Arkansas Council on Human Relations, the state affiliate of the Southern Regional Council. SNCC efforts began with Bill Hansen, a young white Ohioan already an early veteran of the civil rights movement who traveled to Little Rock in the early sixties to help stimulate student sit-in movements promoting desegregation. Thanks in large part to SNCC's bold initiatives, most of Little Rock's public and private facilities were desegregated by 1963, and in the years that followed, many more SNCC volunteers rushed to the state to set up projects across the Arkansas Delta to help empower local people to take a stand against racial discrimination. In the five short years before it disbanded, the SNCC's Arkansas Project played a pivotal part in transforming the state, yet this fascinating branch of the national organization has barely garnered a footnote in the history of the civil rights movement. This collection serves as a corrective by bringing articles on SNCC's activities in Arkansas together for the first time, by providing powerful firsthand testimonies and by

collecting key historical documents from SNCC's role in the region's emergence from the slough of southern injustice

Pacific States Reports: v. 1- 29. Kansas ,1912 *Appeals and Writs in Criminal Cases* Dennis A. Fischer,1998

Harvard Law Review ,1914 **Identity and Diversity on the International Bench** Freya Baetens,2020

A distinctive feature of modern international society is the increase in the number of international judicial bodies and dispute settlement and implementation control bodies in their case loads and in the range and importance of the issues they are called upon to address. These factors reflect a new stage in the delivery of international justice. The International Courts and Tribunals series has been established to encourage the publication of independent and scholarly works which address in critical and analytical fashion the legal and policy aspects of the functioning of international courts and tribunals including their institutional substantive and procedural aspects. Book jacket General Digest of the Decisions of the Principal Courts in the United States, England and Canada ,1897 **Sexual Orientation Discrimination** Lee Badgett,Jeff Frank,2007-06-11

Having recently authored one of the most significant books *Money Myths and Change* in this exciting area of economics Lee Badgett has now teamed up with Jeff Frank and a collection of international contributors to provide an analysis of sexual orientation discrimination on an international scale. Discrimination based on sexual orientation continues to fuel collective action policy debates and academic scrutiny in many countries. For some time sociologists and psychologists have studied sexual orientation discrimination in institutions and explored prejudices against lesbian, gay, bisexual and transgender people in mainstream areas. Now economists have also begun to examine the experiences of lesbians, gay men and bisexuals in less traditional research sectors including the labour, housing, credit and retail markets. This book includes sections on wages and jobs discrimination across institutional contexts, discrimination in cultural institutions including religion, education and sport, addressing discrimination through public policies. Innovative and up to date, this book is an essential read for postgraduate students studying in the areas of political economy, gender studies and feminist economics. *E-Cycling: Linking Trade and Environmental Law in the EC and the U.S.* Harri Kalimo,2006-06-20. Dr Kalimo's legal and policy analysis explores the phenomenon of recycling throughout the entire product life cycle from the extraction of raw materials to the production and marketing of goods to the use of those goods and to the management of the resulting wastes. In this light he shows how trade law interacts and can function within the demands and needs of the evolving environmental legal paradigm. Overall the work provides more than one hundred examples of just how and when modern environmental and free trade law converge in the practical context of recycling of electronics such as mobile phones and personal computers in the internal markets of the EC and the U.S. *E-Cycling* is an ideal text for anyone navigating the myriad legal issues surrounding environmental protection and free trade. With holistic horizontal guidelines and innovative use of charts and figures, the book will contribute to the effectiveness and coherence of public policy making on the environmental law, trade law and constitutional law levels.
