From Silence to Song Peter J. Leithart, 2003 The debate in many Reformed circles over worship music is only a small part of the larger question of Reformed liturgics And dancing All sides admit that the New Testament offers relatively little instruction on liturgy and so the debate over the regulative principle continues with apparently little hope for resolution In this study Peter Leithart's key insight reveals a prominent scriptural example of a liturgy that interprets God's commands for worship in ways far more biblically grounded than traditional regulativism allows King David's tabernacle worship becomes a rich story not only in respect to liturgical wisdom but also to the significance of Zion in the fulfillments of the Christian era

David in the Fourth Gospel Margaret Daly-Denton, 2018-12-10 This volume deals with the reception of the psalms in the New Testament taking as an example the Fourth Gospel a work profoundly

shaped by early Christian liturgy It explores the contemporary Jewish attribution of the Psalms to David an idealized figure envisaged as Temple founder and man of prayer It then shows how this image of David has affected the way the Fourth Evangelist draws on the psalms through quotation allusion and echo It frequently demonstrates that the Fourth Gospel attests to Jewish psalm interpretations found in rabbinic sources Challenging the prevailing view that the Fourth Evangelist intentionally dissociates Jesus from David this book argues that David as psalmist plays a highly significant role in the Johannine portrayal of Jesus
