Economic Capital and Risk Management in Islamic Finance Abdul Ghafar Ismail, Muhamed Zulkhibri, 2024-03-06 Economic capital is the subject of great debate among academics and professionals in the field of risk management Conceptually Islamic finance's encouragement of risk sharing eliminates the debt burden encountered by the conventional banking sector The majority of the Islamic banking system is based on equity based financing To be effective in practice a variety of well functioning institutions are required to translate Islamic banking concepts into a real world financial system In spite of this the regulatory legal product and operational requirements specific to Islamic banks may necessitate a distinct strategy for managing capital related risks This book provides a comprehensive review of the theoretical and practical aspects of Islamic economic capital in relation to contemporary Islamic finance

Drawing on the risk sharing concept this book delves into the core concept of economic capital from an Islamic perspective including comparisons to conventional finance theory Furthermore it introduces alternative models and offers practical examples to strengthen the regulation and supervision of the Islamic banking system It also addresses critical policy challenges concerning economic capital in Islamic finance especially in dual banking countries This book seamlessly integrates new theory with empirical insights and discusses emerging themes including stress testing and Shari ah compliance issues Most of the chapters are illustrated with real world cases and practical examples This book is intended for advanced degree students in finance and investment professionals as well as financial practitioners and advisors particularly those who are pursuing Islamic economics and finance courses

Understanding Investments Nikiforos T.

Laopodis,2012-11-12 The author s main goal in writing Understanding Investments is to present the classic theories and strategies in the field of finance in a new intuitive and practical way This text offers context and grounding information to students truly looking as the title indicates to understand investments This textbook brings a number of innovative features to the field 1 Presentation of material from the economics point of view stressing the interpretation of concepts rather than their mere memorization and mechanical application 2 Shorter more streamlined chapters so instructors and students won t be distracted by superfluous detail and can instead focus on the most relevant issues 3 Fewer chapters than in current textbooks so instructors can comfortably cover all material within a semester 4 Boxes with International Focus vignettes discussions Applying Economic Analysis to relevant topics and featured Lessons from our Times allowing students to gain a deeper understanding of the material and its relevant context and applications 5 Sections in each chapter discussing different investment strategies and their pros and cons 6 Questions that solicit students critical thinking skills and problems that require their quantitative expertise to address real life problems rather than rote mechanical questions that merely require regurgitation
