Economic Investigations in Twentieth-Century Detective Fiction Yan Zi-Ling, 2016-03-09 In his study of Golden Age and hard-boiled detective fiction from 1890 to 1950, Yan Zi-Ling argues that these two subgenres can be distinguished not only by theme and style but by the way they structure knowledge, value, and productive labour. Using the detective as a reference point and enactor of socially based interests, Yan shows that Golden Age texts are distinguished by their conservatism and not only by their conservatism with the detective's actions serving to stabilize institutions with specific ideological aims. In contrast, the criminal investigations of the hard-boiled detective, who is poorly aligned with institutions and strong interest groups, reveal the fragility of the status quo in the face of escalating cycles of violence. Key to Yan's discussion are theories of exchange value and the gift, the latter of which he suggests is more akin to detective work than is wage labour. Analyzing texts by a wide range of authors that includes Arthur Conan Doyle, Agatha Christie, Dashiell Hammett, Raymond Chandler, Dorothy Sayers, Raoul Whitfield, George Harmon Coxe, and Mickey Spillane, Yan demonstrates that the detective's truth-generating function, most often characterized as a process of discovery rather than creation, is in fact crucial to the institutional and class-based interests that he or she serves.

Investigating Identities, 2009-01-01 Investigating Identities: Questions of Identity in Contemporary International Crime Fiction is one of the relatively few books to date which adopts a comparative approach to the study of the genre. This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national, regional, or local contexts and also uncover similarities between the works of authors from very different areas. Contributors explore discourse concerning national and historical memory, language, race, ethnicity, culture, and gender, and examine how identity is affirmed and challenged in the crime genre today. They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with philosophical enquiry into the epistemological dimensions of investigation. Throughout, the notion of stable identities is subject to scrutiny. While each essay

in itself is a valuable addition to existing criticism on the genre all the chapters mutually inform and complement each other in fascinating and often unexpected ways This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity It will therefore be of special interest to students and scholars of the crime genre identity studies and comparative literature It will also appeal to all who enjoy reading contemporary crime fiction

The Importance of Place in Contemporary Italian Crime Fiction Barbara Pezzotti, 2012-09-20 By taking as its point of departure the privileged relationship between the crime novel and its setting this book is the most wide ranging examination of the way in which Italian detective fiction in the last twenty years has become a means to articulate the changes in the social landscape of the country Nowadays there is a general acknowledgment of the importance of place in Italian crime novels However apart from a limited scholarship on single cities the genre has never been systematically studied in a way that so comprehensively spans Italian national boundaries The originality of this volume also lies in the fact that the author have not limited her investigation to a series of cities but rather she has considered the different forms of social landscape in which Italian crime novels are set Through the analysis of the

way in which cities the urban sprawl and islands are represented in the serial novels of eleven of the most important contemporary crime writers in Italy of the 1990s Pezzotti articulates the different ways in which individual authors appropriate the structures and tropes of the genre to reflect the social transformations and dysfunctions of contemporary Italy In so doing this volume also makes a case for the genre as an instrument of social critique and analysis of a still elusive Italian national identity thus bringing further evidence in support of the thesis that in Italy detective fiction has come to play the role of the new social novel
