Grey Aliens and the Harvesting of Souls Nigel Kerner,2010-01-19 Exposes the agenda behind the bio robotic grey aliens genetic manipulation of certain human races Reveals the Grey s nature as sophisticated self aware machines created by a long vanished extraterrestrial civilization Explains how their quest to capture human souls appears in the historical record from biblical times Explains how the phenomenon of racism is a by product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not souls Through the manipulation of human DNA these aliens hope to create their own souls and thereby escape the entropic grip of the material universe in favor of the timeless realm of spirit Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity such as violence greed and maliciousness Racism he contends was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence Examining historical records Kerner shows that Jesus who represented an uncorrupted genetic line warned his disciples about the threat posed by these alien interlopers while Hitler a pure product of this alien intelligence waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering Despite the powerful grip the Greys have on humanity Kerner says that all hope is not lost Greys exist wholly in the material world so if we follow the spiritual laws of reincarnation and karma

aiming for enlightenment and rising above the material a state the Greys are unable to reach we can free ourselves from their grasp

Angels Michel Serres, 1995 In this new work Michel Serres France's foremost philosopher of science explores how traditional images of angels in art and legend foretell the preoccupations of modern life Divided as between Heaven and Hell into First and Third Worlds our societies search for ways to make contact both by means of the most basic interpersonal relations and high tech communications The role of the messenger Serres argues is as important now as it was in Biblical times perhaps more and yet we lack a philosophy which can explain this role a philosophy of movement of communication Angels A Modern Myth offers such a philosophy showing how angels as message bearers are still part of our modern world our means of bringing together and understanding science law and religion and perhaps also the means of satisfying our need for reason justice and consolation Abundantly illustrated with an astounding breadth of images ranging from Renaissance paintings to film stills
