[Charlotte Illes Is Not a Teacher](#) Katie Siegel, 2024-07-23 The drive is strong for 25-year-old former kid detective Charlotte Illes when she lands back in Frenchman Middle School this time as a substitute teacher with a sideline in sleuthing in the second zany mystery based on the much-loved TikTok web series from *Katie Flies Away*. For fans of *Poker Face*, *Knives Out*, *Elle Cosmano's Finlay Donovan Series*, and anyone seeking to satisfy their Harriet the Spy, Encyclopedia Brown, or Nancy Drew nostalgia. Mention returning to the scene of a crime and people don't usually picture a middle school. But that's where kid detective Lottie Illes enjoyed some of her greatest successes solving mysteries and winning acclaim before the world of adult responsibilities came crashing in. Twentysomething Charlotte is now back in the classroom this time as a substitute teacher. However, as much as she's tried to escape the shadow of her younger self, others haven't forgotten about Lottie. In fact, a fellow teacher is hoping for help discovering the culprit behind anonymous threats being sent to her and her aunt who's running for reelection to the Board of Education. At first, Charlotte assumes the messages are a harmless prank. But maybe it's a good thing she left a detective kit hidden in the band room storage closet all those years ago just in case. Because the threats are escalating and it's clear that untangling mysteries isn't child's play anymore.

The American High School Experience John R.

McCoy, 2024-04-30 The American high school experience is as complex as we are as humans. It takes place at a time when young people are discovering who they are or who they may become. Life in high school is often made more complex as a result of family values mixing with newly discovered social values. Young people often dabble in any number of acceptable or unacceptable behavior without giving much thought to the consequences of their conduct and how it might play out in the short term or the long term for that matter. Interestingly, because there are mainly three groups of people who are impacted by all the many variables that affect human behavior in schools, the conduct of each of these groups is described in some detail in this book. The groups are students, teachers, and parents, and the crazy, silly, inspiring, comical, sometimes disgusting, unacceptable things they do. Many stories, all true, are told in this book. Daily experiences are met with reactions from kids, teachers, school administrators, and parents in ways that may seem appropriate in some cases or inappropriate, funny, or terrible in other cases. An argument can be made that while many folks in the general population expect near perfection from our public school personnel, the fact that all of us are flawed human beings interacting with each other, perfection or anything close to it, simply is not possible. The manner in which the author describes the reaction to each situation is a good opportunity for the reader to see the thinking behind the administrator's or the teacher's response while allowing for other possible resolutions that maybe should have been taken. The common thread in all this underscores the author's belief that while we are inherently flawed people, all can be enhanced if we focus on relationships as the key to our success when it comes to the business of humans.
