Wayne reveals how the human body was used as the model for creating the buildings and high rise structures we live and
work in today Yet more telling he walks us through scientific evidence that shows how our building s and structures can
communicate with people He uses a number of analogies and real life experiences to reveal how buildings and facilities
operate and communicate He systematically interconnects your cognitive functions with facilities related processes These
interrelated functions encompass reasoning memory attention and related facility engineering terms which lead directly to
the attainment of information and in turn enhance your understanding as a current and future facilities professional as well
as that of a novice that would just simply like to know of Wayne s exploits or a basic curiosity of just how buildings work
Daisy Gallagher a global Who s Who within the built environment and Washington DC insider advances the Foreword of this
book to introduce a number of Wayne s achievements and teachings that includes Wayne being recognized by the 114th
Congress of the United States She shares how Wayne takes the wrapper off some of America s most prestigious companies
and organizations to share a few of his insights and dealings with some of these recognizable structures while ultimately
