[The Art of Attack and the Development of Weapons](#) H. S. Cowper, 2012-03-30

This most unusual book is subtitled *Being a Study in the Development of weapons and Appliances of Offence from the Earliest Times to the Age of Gunpowder*. It surveys in considerable detail and with numerous drawings and illustrations the art and means of aggression developed by man beginning with the bare hand or fist and then the fist reinforced by such appliances as the cestus of Roman times and the knuckleduster of the more enlightened age. From here it moves on to simple unshafted hand-held weapons designed for bruising and ripping: clubs, stones etc. The next stage is reinforcing the arm: the development of shafted weapons and attachment of weapon heads to shafts: the axe and adze type and the ball and thong such as the bola. These are categorized as striking weapons. Then come the pointed weapons: flint and metal daggers, spears, tridents and the like. So we are taken on a stage by stage journey through the whole range of weaponry: grappling hooks, cutting weapons

throwing spears javelins harpoons catapults blowpipes and the means of throwing or discharging them The sheer variety of means of dealing aggressively with your opponent when they are spelled out in detail is remarkable and there are many odd looking weapons illustrated In the detailed study and analysis of its subject this book can have no rival The Flowers of Japan and the Art of Floral Arrangement Josiah Conder,1891 This striking work prepared through the enthusiasm of Professor Conder who was Professor of Art and Architecture to the Japanese Government is particularly important as it includes six woodblocks by Tsukioka Yoshitoshi deemed to be perhaps the finest print designer of the period 1839 1892 a Kuniyoshi pupil who stands almost alone in expressing ukiyo e vigor during the years of social political and artistic upheaval
