The Authorization Of Use Of Force In Syria:

The Authorization of Use of Force in Syria Committee on Foreign Relations United States Senate, 2015-01-03 We convene this hearing as we have convened many before to make one of the most difficult decisions we are asked and tasked to make the authorization of the use of American military power This time in Syria to respond to the horrific chemical attack of August 21st that took the lives of 1 429 Syrians including at least 426 children The images of that day are sickening and in my view the world cannot ignore the inhumanity and the horror of this act There are risks to action but the consequences of inaction are greater and graver still Further humanitarian disaster in Syria regional instability the loss of American credibility around the world an emboldened Iran and North Korea and a disintegration of international law Our friends and allies await our decision as does the despot in Pyongyang the ayatollahs of terror in Tehran and terrorist groups wherever they may be What we do in the face of the chemical attack by the Assad regime against innocent civilians will send a signal to the world that such weapons in violation of international law cannot be used with impunity *A Chinese Perspective on Enhanced Collective Security* LU Jing, 2018-03-25 *Congressional Record* United States. Congress, 2012 *The Syrian Conflict's Impact on International Law* Michael P. Scharf, Milena Sterio, Paul R. Williams, 2020-03-26 Written as the decade long Syria conflict nears an end this is the first book length treatment of how the Syrian war has changed international law In *The Syrian Conflict's Impact on International Law* the authors explain the history of the current conflict in Syria and discuss the principles and process of customary international law formation and the phenomenon of accelerated formation of customary international law known as Grotian Moments They then explore specific examples including how use of force against ISIS in Syria has changed the law of self defense against non state actors how the allied airstrikes in response to Syria's use of chemical weapons have changed the law of humanitarian intervention and others This book seeks to contribute both to understanding the concept of accelerated formation of customary international law and the specific ways the Syria conflict has led to development of new norms and principles in several areas of international law **The Use of Force in International Law** Tom Ruys, Olivier Corten, Alexandra Hofer, 2018-04-26 The international law on the use of force is one of the oldest branches of international law It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide The number of armed conflicts is equal only to the number of methodological approaches used to describe them Many violent encounters are well known The Kosovo Crisis in 1999 and the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril Ruys and Corten's expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question How

much authority does the power of precedent really have in the law of the use of force *The ^AOxford Handbook of Comparative Foreign Relations Law* Curtis A. Bradley,2019-06-07 This 46 chapter book written by leading experts across the globe compares and contrasts the foreign relations law of nations around the world both documenting important differences and also noting commonalities and emerging trends Comparative foreign relations law is a newly emerging field of study and teaching and this volume is likely to become a key reference work as the field continues to develop **Congressional Record , A Time to Attack** Matthew Kroenig,2014-05-13 What does it mean for Iran to have nuclear weapon capabilities And what should the United States do about this threatening situation **The Obama Legacy** Bert A. Rockman,Andrew Rudalevige,2019-05-31 Hope and change were the keywords of President Barack Obama s 2008 campaign and in his farewell address on January 10 2017 he cited the evidence that he d delivered from reversing the Great Recession rebooting the auto industry and unleashing the longest stretch of job creation in the nation s history to winning marriage equality and securing the right to health insurance for another 20 million citizens At the same time and with a view to the country s divisive polarization he made a plea for the decency of our people and the sense of common purpose that we so badly need right now In hindsight it is increasingly possible to understand whether and how Obama s legacy matched his rhetoric as well as to evaluate from various angles what his presidency accomplished and what this has meant for US politics public policy and civic life going forward In *The Obama Legacy* some of the leading observers and scholars of US politics take up this challenge In twelve essays these writers examine Obama s choices operating style and opportunities taken and missed as well as the institutional and political constraints on the president s policy agenda What were Obama s personal characteristics as a leader What were the policy aspirations output and strategy of his presidency What was his role as a political and public leader to the various constituencies needed to generate presidential power And how did his presidency interact with other political forces Addressing these questions and others the authors analyze Obama s preferences tactics successes and shortcomings with an eye toward balancing the personal and institutional factors that underlie each all the while considering how resilient or fragile Obama s legacy will be in the face of the Trump administration s eager efforts to dismantle it **Syrian Civil War and Europe** Zhao Chen,Zhao Jizhou,Huang Mengmeng,2020-12-08 Known as the beating heart of the Arab World Syria has held high geographic and political importance in the Middle East and has been the battlefield of superpowers for centuries Since the outbreak of the Arab Spring its central role has been reinforced by its civil war one of the longest and bloodiest conflicts since World War II causing significant humanitarian disaster With American power diminishing and European power in the region emerging Europe has begun to exert its impact on Syria and this book analyzes the diplomatic policies of European countries on Syria from the perspective of Chinese scholars Starting with a review of the European Union s policies in the Middle East and North Africa as a whole the authors analyze the Syrian policies of France the United Kingdom and Germany the three most influential and representative countries on the European

continent The authors argue that the favoured humanitarian intervention concept failed to achieve the expected results increased the bloodiness of the Syrian civil war and undermined the European Union s advantage in the region Researchers and students of international relations as well as Middle East Studies will benefit from this volume **TERRORISM:**

Chief celebrated constitutional scholar John Yoo makes a provocative case against Donald Trump s alleged disruption of constitutional rules and norms Donald Trump isn t shredding the Constitution he s its greatest defender Ask any liberal and many moderate conservatives and they ll tell you that Donald Trump is a threat to the rule of law and the U S Constitution Mainstream media outlets have reported fresh examples of alleged executive overreach or authoritarian White House decisions nearly every day of his presidency In the 2020 primaries the candidates have rushed to accuse Trump of destroying

our democracy and jeopardizing our nation's very existence Yoo argues that this charge has things exactly backwards Far from considering Trump an inherent threat to our nation's founding principles Yoo convincingly argues that Washington Jefferson Madison and Hamilton would have seen Trump as returning to their vision of presidential power even at his most controversial It is instead liberal opponents who would overthrow existing constitutional understanding in order to unseat Trump but in getting their man would inflict permanent damage on the office of the presidency the most important office in our constitutional system and the world This provocative and engaging work is a compelling defense of an embattled president's ideas and actions Journal of the House of Representatives of the United States United States. Congress.

House,2014 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House **The Art of Law in the International Community** Mary Ellen O'Connell,2019-05-16

Aesthetic philosophy and the arts offer an innovative and attractive approach to enhancing international law in support of peace

Beyond the Water's Edge Kathleen H. Hicks,Louis Lauter,Colin McElhinny,2018-10-15 This report assesses domestic political support for internationalist foreign policy by analyzing the motivations of members of Congress on key foreign policy issues It includes case studies on major foreign policy debates in recent years including the use of force foreign aid trade policy and U S Russia relations It also develops a new series of archetypes for describing the foreign policy worldviews of members of the 115th Congress to replace the current stale and unsophisticated labels of internationalist isolationist hawk and dove Report findings emphasize areas of bipartisan cooperation on foreign policy issues given member ideologies

TERRORISM: COMMENTARY ON SECURITY DOCUMENTS VOLUME 143 Douglas Lovelace Jr.,2016-09-08

Terrorism Commentary on Security Documents is a series that provides primary source documents and expert commentary on various topics relating to the worldwide effort to combat terrorism as well as efforts by the United States and other nations to protect their national security interests Volume 143 The Evolution of the Islamic State focuses on the U S response to the Islamic State IS both in Syria and Iraq from a foreign policy standpoint and a military strategy perspective as well as considering the impact of the rise of IS on the broader global jihadist movement Consideration is also given to the importance of information warfare in countering IS's worldwide recruiting efforts via the Internet This volume also includes documents examining related issues of great importance including a report considering IS's financing a report on the legal issues arising in connection with U S military action against IS the role of Shia warlords and militias in Iraq in opposing IS and the lessons that can be learned from the support provided to IS by European fighters Evaluating the Obama Presidency Meena Bose,Paul Fritz,2024-07-22 In 2007 and 2008 Barack Obama ran for president with a message of a shared purpose uniting all Americans and was elected with expectations that he would usher in a new national culture under an approach grounded in public engagement that would transcend partisan divisions But in an institutional system designed for

incremental and contested policy making governance enacting these transformational ambitions proved to be far more difficult than anticipated This innovative volume assesses the legacy of President Obama with a conceptual focus on the challenge of meeting his goals with the realities of governing A diverse group of political science history and communication studies experts systematically examines Obama s performance accomplishments and shortcomings through the lens of the expectations gap the tensions and obstacles of translating campaign promises into policies The wide representative set of case studies address campaigning and coalition building party polarization presidential communication executive power leadership and decision making and domestic and foreign policy With original and deep analysis these scholars make a unique enduring contribution to understanding the Obama presidency the office of the president and indeed American politics This insightful accessible book will be of great interest to students and scholars of the presidency political communication rhetoric and broadly across US government and democracy *Research Handbook on Law and Diplomacy* Margaret E. McGuinness, David P. Stewart, 2022-12-08 This timely Research Handbook examines the dynamic and interdependent relationship between law and diplomacy in the contemporary international system Through accounts of the actual practice of international law and diplomacy it provides insights into how international law and relations operate and examines the complex relationship *Fighting for the Progressive Center in the Age of Trump* Joseph M. Hoeffel, 2017-08-24 A dedicated politician who has served as a congressman and state legislator defines the formidable challenge for progressives after the November 2016 election and explains how to bring back leaders focused on working in the broad center of politics in order to get things done for the people How did Donald Trump become president According to author Joseph M Hoeffel a former congressman state legislator and county commissioner Trump s unprecedented ascension to the highest seat in the country happened because of the American people s frustration with the endless fighting within our dysfunctional government and because Trump promised change Now what What is next for progressives Fighting for the Progressive Center in the Age of Trump offers a manifesto specifically for opposing the Trump agenda and presents a viable game plan for advocating progressive ideas while also demanding fiscal responsibility and clearly rejecting political extremes Readers will understand how regaining ground for liberal and progressive thinkers will require winning public support which will depend on fighting to reestablish the political center with policies that are socially liberal and fiscally responsible The culmination of decades of political experience this book offers progressive proposals for championing government reform balancing the budget investing in people maintaining international alliances standing up for progressive convictions and promoting sweeping plans to benefit every American including establishing Medicare for all This is a rousing call to arms for progressives to fight for the progressive center as the best way to overcome the policies of Donald Trump
