Barrett, Jon Bartley Stewart, 2010 Exploring Kierkegaard's complex use of the Bible the essays in this volume use source critical research and tools ranging from literary criticism to theology and biblical studies to situate Kierkegaard's appropriation of the biblical material in his cultural and intellectual context The contributors seek to identify the possible sources that may have influenced Kierkegaard's understanding and employment of Scripture and to describe the debates about the Bible that may have shaped perhaps indirectly his attitudes toward Scripture They also pay close attention to Kierkegaard's actual hermeneutic practice analyzing the implicit interpretive moves that he makes as well as his more explicit statements about the significance of various biblical passages This close reading of Kierkegaard's texts elucidates the unique and sometimes odd features of his frequent appeals to Scripture This volume in the series devotes one tome to the Old Testament and a second tome to the New Testament Tome I considers the canonically disputed literature of the Apocrypha Although Kierkegaard certainly cited the Old Testament much less frequently than he did the New passages and themes from the Old Testament do occupy a position of startling importance in his writings Old Testament characters such as Abraham and Job often play crucial and even decisive roles in his texts Snatches of Old Testament wisdom figure prominently in his edifying literature The vocabulary and cadences of the Psalms saturate his expression of the range of human passions from joy to despair The essays in this first tome seek to

elucidate the crucial rhetorical uses to which he put key passages from the Old Testament the sources that influenced him to do this and his reasons for doing so Soil Conditions and Plant Growth Edward John Russell,1927 Reason, Faith and Otherness in Neoplatonic and Early Christian Thought Kevin Corrigan,2024-10-28 This book brings together a selection of Kevin Corrigan s works published over the course of some 27 years Its predominant theme is the encounter with otherness in ancient medieval and modern thought and it ranges in scope from the Presocratics through Plato Aristotle Plotinus and the late ancient period on the one hand and early Christian thought especially Gregory of Nyssa Augustine and much later Aquinas on the other Among the key questions examined are the relation between faith and reason the nature of creation and insight being and existence literature philosophy and the invention of the novel personal human and divine identity the problem of evil particularly here in Dostoevsky s adaptation of a Platonic perspective the character of ideas themselves women saints in the early Church love of God and love of neighbor the development of Christian Trinitarian thinking the strange notion of philosophy as prayer and the mind soul body relation **A voyage to Saint Domingo, in the years 1788, 1789, and 1790. the texts produced during the Palaeologan era extending as well till the end of 15th c in ex Byzantine territories By shedding light on the translation activity of late Byzantine scholars this volume aims at revealing the cultural aspect of late Byzantine openness to its neighbours *Proceedings Pathological Society of Philadelphia*,1906 *The Cognitive Artifacts of Designing* Willemien Visser,2006-08-08 In this dynamic review and synthesis of empirical research and theoretical discussion of design as cognitive activity Willemien Visser reconciles and integrates the classical view of design as conceptualized by Herbert Simon s symbolic information processing approach with modern views of design such as the situativity approach as formulated by Donald Schon The author goes on to develop her own view on design in which design is most appropriately characterized as a construction of representations She lays the groundwork for the integration of design research and cognitive science This seemingly simple framework has implications that set the stage for this mutually beneficial integration *Bulletin of the New York Public Library* New York Public Library,1927 *Philosophical Transactions of the Royal Society of London* Royal Society (London),1832 *Philosophical Transactions of the Royal Society of London* ,1832
