Books and Bookmen ,1965 *The European Renaissance in American Life* Paul F. Grendler,2006-03-30 An informative but light hearted look at the popularity of the Renaissance today this book was written by a Renaissance scholar intrigued with the way his subject continues to resonate outside the scholarly community. His purpose is to uncover and describe the many manifestations of America's love of the Renaissance. Why do millions don costumes to attend Renaissance Faires? Why do novels and films about the period enjoy continued popularity as do Renaissance icons such as Elizabeth I Michelangelo Shakespeare and the Mona Lisa? How is it that American politicians and business leaders still look to Machiavelli as a symbol of wisdom or of evil? Grendler posits that Americans embrace the Renaissance as a model of culture and sophistication seeing it as confirmation that the individual can achieve greatness against long odds a belief at the core of our own society. After an examination of *The Real Renaissance 1400-1620* the book looks at ways in which Americans relive the experience including Faires and *Living Last Suppers* ways in which we re create the Renaissance in our own world and finally ways in which the Renaissance is portrayed for better or worse in fiction and film [Resources in Education](#) ,1998-07

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1976 **On Bramante** Pier Paolo Tamburelli,2022-05-10 A new interpretation of the work of Bramante suggesting an agenda for contemporary architectural practice. In *On Bramante* architect Pier Paolo Tamburelli considers the work of the celebrated Italian Renaissance architect Donato Bramante and through this reappraisal suggests a possible agenda for current architectural practice. Bramante Tamburelli argues offers an excellent starting point to imagine a contemporary theory of space to reflect on the relationship

between architecture and politics and to look back with neither nostalgia nor contempt at the tradition of Western classicism Starting from a discussion of the difference in the work of Bramante in Milan 1481 1499 and Rome 1499 1514 Tamburelli highlights the peculiarities of Bramante s architecture especially in comparison to that of his predecessor Leon Battista Alberti and successor Andrea Palladio This in turn opens up new possibilities for appreciating his spatial experiments and to derive from Bramante s abstraction and disassociation of form from function a revised theory of space for contemporary architecture Such a theory might even advance a newfound political understanding of classicism and a model perhaps more valid now than ever before for a public architecture The text is bookended by a series of color photographic plates of Bramante s works by photographer Bas Princen **The Book Publishing Industry** Albert N.
