Annelies Wilder-Smith

The American Republic Since 1877 Chapter Notes:

American Republic Since 1877, Performance Assessment McGraw-Hill Staff,2002-06 **Globalisation and Historiography of National Leaders** Joseph Zajda,Tatyana Tsyrlina-Spady,Michael Lovorn,2016-12-23 Globalisation and Historiography of National Leaders Symbolic Representations in School Textbooks the 18th book in the 24 volume book series Globalisation Comparative Education and Policy Research explores the interrelationship between ideology national identity national history and historical heroes setting it in a global context Based on this focus the chapters represent hand picked scholarly research on major discourses in the field of history textbooks and symbolic representations of national heroes and draw upon recent studies in the areas of globalisation history textbooks and national leaders A number of researchers have written on the importance of teaching national history in order to foster national identity and a sense of belonging to a certain society state and people among the younger generation Some nations prefer to create national heroes out of their political leaders who are still in power and whose lives and reputation are portrayed as being eminently spotless Using diverse comparative education paradigms from critical theory social semiotics and historical comparative research the authors analyse the unpacking of the ideological agenda hidden behind the choice and lionization or silencing of the preferred national heroes They provide an informed critique of various historical narratives depicting national leaders and national heroes The book provides an easily accessible practical yet scholarly source of information on international concerns in the field of globalisation history education and policy research Offering an essential sourcebook of ideas for researchers history educators practitioners and policymakers in the fields of globalisation and history education it also provides a timely overview of current changes in politically correct history education narratives in history textbooks [American Republic Since 1877 Teaching Transparency Sampler 2003](#) McGraw-Hill Staff,2002-08 [American Republic Since 1877, Teaching Strategies for American History Classroom, Including Block Scheduling](#) McGraw-Hill Staff,2002-08 **American Republic Since 1877, Standardized Test Practice Workbook, Teacher's Edition** McGraw-Hill Staff,2002-07 [Was the American Revolution a Mistake?](#) Burton Weltman,2013-08-27 Why was George Washington dismayed by the outcome of the American Revolution Would slavery still exist if the South had not seceded from the Union in 1861 Might socialists rule America today if Teddy Roosevelt had not run for President and lost in 1912 History is full of contingencies People confront problems and debate options for solving them Then they make a choice and face the consequences of their choice Often they wonder if a different choice might have been better Was the American Revolution a mistake Was racial segregation inevitable Was the Cold War necessary Americans have repeatedly asked these sorts of questions as they examined the consequences of their choices This is a book about revisiting crucial choices people made in history and examining the consequences of those choices for them and for us It demonstrates a method of teaching history that recreates events as people experienced them and asks important questions that troubled them but that rarely appear in conventional textbooks Unlike conventional

methods that often reduce history to names dates and factoids for students to memorize it is a method that brings past debates to life the losers as well as the winners points of view and makes the subject exciting In studying history as choice students examine the problems people faced their options for solving them their decision making processes and the choices they made Then students evaluate the consequences of those choices both for people in the past and us today They explore what might have happened if different choices had been made Finally students relate the consequences of those past choices to problems we face today and the choices we need to make History as choice is a practical and practicable method It has been designed to satisfy the curriculum goals of the National Council for the Social Studies and the book explains how it can be used to satisfy any state or local curriculum standards The book also identifies and illustrates resources that can be used with this method from data bases to popular music and explains how teachers can gradually integrate it into their courses In the first part of the book the method of history as choice is explained using the question of whether the American Revolution was a mistake as a case in point The second part of the book explores thirteen other questions about significant issues and events in American history as additional examples of how one might teach history as choice The Times of Round Top

Cynthia A. Thornton,2013-10 Throughout the times of the land we call Round Top one thought has constantly prevailed This is a land of opportunity The land was formed over the centuries into flat land and hills by rivers beyond and by creeks and springs while waiting for animals and mankind to arrive This land is located in the northeastern margin of today s Fayette County and lies on a high hill that looks down toward the south into the bottom lands of a crossing The struggle on this small piece of land began with the movement of animals that needed a convenient place for water that was crossable during the seasons This perfect crossing flows through the south eastern side of the present town of Round Top located between two high hills This crossing was the home of native American Indians American settlers and German immigrants **Slavery in the American Republic** David F. Ericson,2011-10-27 Many scholars believe that the existence of slavery stymied the development of the American state because slaveholding Southern politicians were so at odds with a federal government they feared would abolish their peculiar institution David Ericson argues to the contrary showing that over a seventy year period slavery actually contributed significantly to the development of the American state even as a house divided Drawing on deep archival research that tracks federal expenditures on slavery related items Ericson reveals how the policies practices and institutions of the early national government functioned to protect slavery and thereby contributed to its own development Here are surprising descriptions of how the federal government increased its state capacities as it implemented slavery friendly policies such as creating more stable slave markets by removing Native Americans deterring slave revolts recovering fugitive slaves enacting a ban on slave imports and not enacting a ban on the interstate slave trade It also bolstered its own law enforcement power by reinforcing navy squadrons to interdict illegal slave trading hiring deputy marshals to capture fugitive slaves and slave rescuers and deploying soldiers to remove Native Americans and deter slave rescues and revolts

Going beyond Don Fehrenbacher's *The Slaveholding Republic* Ericson shows how the presence of slavery indirectly influenced the development of the American state in highly significant ways. Enforcement of the 1808 slave import ban involved the federal government in border control for the first time and participation in founding a colony in Liberia established an early model of public-private partnerships. The presence of slavery also spurred the development of the U.S. Army through its many slavery-related deployments, particularly during the Second Seminole War, and the federal government's own slave rentals influenced its labor management practices. Ericson's study unearths a long neglected history connecting slavery-influenced policy areas more explicitly to early American state development and more fully accounting for the money and manpower the federal government devoted to those areas. Rich in historical detail, it marks a significant contribution to our understanding of state development and the impact of slavery on early American politics.

Building the American Republic Harry L. Watson, 2018. Tells the story of United States beginning with the earliest Americans and the arrival of strangers on the eastern shore, then moving through colonial society to the fight for independence and the construction of a federal republic. From there, it explains the renegotiations and refinements that took place as a new nation found its footing and traces the actions that eventually rippled into the Civil War. This volume goes beyond famous names and battles to incorporate politics, economics, science, arts, and culture. And it shows that issues that resonate today—immigration, race, labor, gender roles, and the power of technology—have been part of the American fabric since the very beginning. Adapted from publisher description.

The Language Police Diane Ravitch, 2007-12-18. If you're an actress or a coed just trying to do a man-size job, a yes-man who turns a deaf ear to some sob sister heiress aboard her yacht, or a bookworm enjoying a boy's night out, Diane Ravitch's internationally acclaimed *The Language Police* has bad news for you. Erase those words from your vocabulary. Textbook publishers and state education agencies have sought to root out racist, sexist, and elitist language in classroom and library materials. But according to Diane Ravitch, a leading historian of education, what began with the best of intentions has veered toward bizarre extremes. At a time when we celebrate and encourage diversity, young readers are fed bowdlerized texts devoid of the references that give these works their meaning and vitality. With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring, *The Language Police* offers a powerful corrective to a cultural scandal.

American Republic to 1877 Teaching Transparency Sampler 2003 McGraw-Hill Staff, 2002-09.

Roger Sherman and the Creation of the American Republic Mark David Hall, 2013. One of the leading figures of his day, Roger Sherman was a member of the five-man committee that drafted the Declaration of Independence and an influential delegate at the Constitutional Convention. As a Representative and Senator in the new republic, he had a hand in determining the proper scope of the national government's power as well as drafting the Bill of Rights. In *Roger Sherman and the Creation of the American Republic*, Mark David Hall explores Sherman's political theory and shows how it informed his many contributions to America.

s founding A close examination of Sherman s religious beliefs provides insight into how those beliefs informed his political actions Hall shows that Sherman like many founders was influenced by Calvinist political thought a tradition that played a role in the founding generation s opposition to Great Britain and led them to develop political institutions designed to prevent corruption promote virtue and protect rights Contrary to oft repeated assertions that the founders advocated a strictly secular policy Hall argues persuasively that most founders believed Christianity should play an important role in the new American republic

The American Revelation Neil Baldwin, 2005-05 Meticulously researched and entertainingly written this will make readers regardless of their politics proud of America s intellectual heritage over the past 400 years *History Teacher's Magazine* Albert Edward McKinley, William Glenn Kimmel, 1914 Includes War supplements Jan Nov 1918

Supplements Dec 1918 Nov 1919 These were also issued as reprints **States of Childhood** Jennifer S. Light, 2020-07-14 How virtual adulthood children s role play in simulated cities states and nations helped construct a new kind of sheltered childhood for American young people A number of curious communities sprang up across the United States in the late nineteenth and early twentieth century simulated cities states and nations in which children played the roles of legislators police officers bankers journalists shopkeepers and other adults They performed real work passing laws growing food and constructing buildings among other tasks inside virtual worlds In this book Jennifer Light examines the phenomena of junior republics and argues that they marked the transition to a new kind of sheltered childhood for American youth Banished from the labor force and public life children inhabited worlds that mirrored the one they had left Light describes the invention of junior republics as independent institutions and how they were later established at schools on playgrounds in housing projects and on city streets as public officials discovered children s role playing helped their bottom line The junior republic movement aligned with cutting edge developmental psychology and educational philosophy and complemented the era s fascination with models and miniatures shaping educational and recreational programs across the nation Light s account of how earlier generations distinguished real life from role playing reveals a hidden history of child labor in America and offers insights into the deep roots of such contemporary concepts as gamification play labor and virtuality **Memories of War**

Thomas A. Chambers, 2012-09-24 Even in the midst of the Civil War its battlefields were being dedicated as hallowed ground Today those sites are among the most visited places in the United States In contrast the battlegrounds of the Revolutionary War had seemingly been forgotten in the aftermath of the conflict in which the nation forged its independence Decades after the signing of the Constitution the battlefields of Yorktown Saratoga Fort Moultrie Ticonderoga Guilford Courthouse Kings Mountain and Cowpens among others were unmarked except for crumbling forts and overgrown ramparts Not until the late 1820s did Americans begin to recognize the importance of these places In *Memories of War* Thomas A Chambers recounts America s rediscovery of its early national history through the rise of battlefield tourism in the first half of the nineteenth century Travelers in this period Chambers finds wanted more than recitations of regimental movements when they visited

battlefields they desired experiences that evoked strong emotions and lent meaning to the bleached bones and decaying fortifications of a past age Chambers traces this impulse through efforts to commemorate Braddock's Field and Ticonderoga the cultivated landscapes masking the violent past of the Hudson River valley the overgrown ramparts of Southern war sites and the scenic vistas at War of 1812 battlefields along the Niagara River Describing a progression from neglect to the Romantic embrace of the landscape and then to ritualized remembrance Chambers brings his narrative up to the beginning of the Civil War during and after which the memorialization of such sites became routine assuming significant political and cultural power in the American imagination

A Leap in the Dark John Ferling, 2003-06-12 It was an age of fascinating leaders and difficult choices of grand ideas eloquently expressed and of epic conflicts bitterly fought Now comes a brilliant portrait of the American Revolution one that is compelling in its prose fascinating in its details and provocative in its fresh interpretations In *A Leap in the Dark* John Ferling offers a magisterial new history that surges from the first rumblings of colonial protest to the volcanic election of 1800 Ferling's swift moving narrative teems with fascinating details We see Benjamin Franklin trying to decide if his loyalty was to Great Britain or to America and we meet George Washington when he was a shrewd planter businessman who discovered personal economic advantages to American independence We encounter those who supported the war against Great Britain in 1776 but opposed independence because it was a leap in the dark Following the war we hear talk in the North of secession from the United States The author offers a gripping account of the most dramatic events of our history showing just how closely fought were the struggle for independence the adoption of the Constitution and the later battle between Federalists and Democratic Republicans Yet without slowing the flow of events he has also produced a landmark study of leadership and ideas Here is all the erratic brilliance of Hamilton and Jefferson battling to shape the new nation and here too is the passion and political shrewdness of revolutionaries such as Samuel Adams and Patrick Henry and their Loyalist counterparts Joseph Galloway and Thomas Hutchinson Here as well are activists who are not so well known today men like Abraham Yates who battled for democratic change and Theodore Sedgwick who fought to preserve the political and social system of the colonial past Ferling shows that throughout this period the epic political battles often resembled today's politics and the politicians the founders played a political hardball attendant with enmities selfish motivations and bitterness The political stakes this book demonstrates were extraordinary first to secure independence then to determine the meaning of the American Revolution John Ferling has shown himself to be an insightful historian of our Revolution and an unusually skillful writer *A Leap in the Dark* is his masterpiece work that provokes enlightens and entertains in full measure

[The Transformation of the American Democratic Republic](#) Stephen M. Krason, 2017-09-08 In this stimulating volume Stephen M Krason considers whether the Founding Fathers vision of the American democratic republic has been transformed and if so in what ways He looks to the basic principles of the Founding Fathers then discusses the changes that resulted from evolving contemporary expectations about government Referencing

philosophical principles and the work of great Western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration Acknowledging that any attempt to revive the Founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the Founders vision and want to take action Ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people Written by a foremost authority in the field of US Constitutional law this book will appeal to those interested in American history society and politics **The American Republic: Since 1865** Richard Hofstadter, 1959 The American Commonwealth: Vol. 4: Illustrations and Reflections & Social Institutions James Bryce, Professor Bryce s work rises at once to an eminent place among studies of great nations and their institutions It is so far as America goes a work unique in scope spirit and knowledge There is nothing like it anywhere extant nothing that approaches it Without exaggeration it may be called the most considerable and gratifying tribute that has yet been bestowed upon America by an Englishman and perhaps by even England herself One despairs in an attempt to give an adequate account of a work so infused with knowledge and sparkling with Suggestion Every thoughtful American will read it and will long hold in grateful remembrance its author s name It is a work that takes instant rank as the keenest critique and most trustworthy description of America s social and political life and is recognized as the most remarkable among English books for the accuracy of its statements its fairness of judgment and its clearness of comprehension Written with full knowledge by a distinguished Englishman to dispel vulgar prejudices and to help kindred people to understand each other better Prof Bryce s work is in a sense an embassy of peace a message of good will from one nation to another This is volume four out of four Illustrations and Reflections Social Institutions
