**The Ancient Paths** Graham Robb, 2013-10-01 When Graham Robb made plans to cycle the legendary Via Heraklea he had no idea that the line he plotted stretching from the south western tip of the Iberian Peninsula across the Pyrenees and towards the Alps would change the way he saw a civilisation. It was an ancient path that took him deep into the world of the Celts, their gods, their art, and most of all their sophisticated knowledge of science. Gradually a lost map revealed itself of an empire constructed with precision and beauty across vast tracts of Europe. Oriented according to the movements of the Celtic sun god, the map had been forgotten for almost two millennia. Its implications were astonishing. **The Ancient Paths**

M.C. Bishop, 2014-02-28 There have been many books on Britain's Roman roads but none have considered in any depth their long term strategic impact. Mike Bishop shows how the road network was vital not only in the Roman strategy of conquest and occupation but influenced the course of British military history during subsequent ages. The author starts with the pre Roman origins of the network, many Roman roads being built over prehistoric routes, before describing how the Roman army built, developed, maintained and used it. Then uniquely he moves on to the post Roman history of the roads. He shows how they were crucial to medieval military history, try to find a medieval battle that is not near one, and the governance of the realm, fixing the itinerary of the royal progresses. Their legacy is still clear in the building of 18th century military roads and even in the development of the modern road network. Why have some parts of the network remained in use throughout? The text is supported with clear maps and photographs. Most books on Roman roads are concerned with cataloguing or tracing them or just dealing with aspects like surveying. This one makes them part of military landscape archaeology. *The Discovery of Middle Earth*

Graham Robb, 2013-10-29 Intriguing and stimulating. Jane Smiley Harper's. In this real life historical treasure hunt, bestselling author Graham Robb, one of the more unusual and appealing historians currently striding the planet, New York Times reveals the mapping of ancient Gaul as a reflection of the heavens, demonstrates the lasting influence of Druid science and recharts the exploration of the world and the spread of Christianity. This fascinating Los Angeles Times history offers nothing less than an entirely new understanding of the birth of modern Europe. Boudica: The Truth Janet Smart, 2022-01-10 Historians have led us to believe that the last great battle fought between the Roman Legions and the ancient Celtic Britons led by the warrior Queen Boudica during the winter of AD 60 occurred somewhere in the

Midlands on the old Watling Street The research provided in the book aims to question that this theory which has been accepted as a historical fact is founded on a mere idea with no evidence whatsoever to support it The tribal people have also wrongly been branded Barbarians and a mindless marauding mob when nothing could be further from the truth It lays out the case with supporting evidence that this momentous event which ultimately decided the future of Briton instead took place in Flintshire North Wales Boudica and her Warriors deserve and demand that the truth be known and their extraordinary sacrifice be honoured So did the Iceni Queen and Welsh Princess come home to fight the deadliest foe the Celtic people of Briton had ever encountered It is for you the reader to decide and Archaeology to prove **Gothic Cathedrals** Karen

us across extravagantly varied island topographies and surveys centuries of history Albinia ranges between languages and genres and through disparate island cultures She talks to stubbornly independent islanders and searches for archaeological and linguistic traces of island identities discovering distinct traditions and resistance to mainland control Trespassing into the past to understand the present *The Britannias* uncovers an enduring and subversive mythology of islands ruled by women Albinia finds female independence woven through Roman colonial reports and Welsh medieval poetry Restoration utopias and island folk songs These neglected epics offer fierce feminist countercurrents to mainstream narratives of British identity and shed new light on women's status in the body politic today Vivid perceptive and disruptive *The Britannias* boldly upturns established truths about Britain while revealing its suppressed and forgotten beauty *The Celts* Ian Stewart, 2025-03-04 A history of Celtic thought and identity over the last three centuries This book will be the first synoptic historical study of Celtic ideas in the modern era The Celts are perennially popular in both academic and popular culture having been the subject of several recent books scholarly and otherwise as well as a major exhibition *The Celts Art and Identity* at the British Museum and National Museum of Scotland in 2015-16 However attention remains overwhelmingly focused on the ancient peoples labelled Celts with little interrogation of how and why they became known as such during the modern period In addressing these questions this study will be the first to account for the trajectory of ideas of the Celts or Celticism and how they became fundamental pillars of national identities in western Europe especially in Britain Ireland and France A transnational approach covering the period from roughly 1700 to the present day will allow the proposed volume to chart the transformation of perceptions of the Celts from those of a sought after European ancestor to those of a marginalised people living on the fringes of western Europe In doing so it will illustrate the wider intellectual cultural and political ramifications of this protracted ideological shift in different national contexts As nationalism resurfaces across Europe this timely study will reveal the intellectual history of a prominent cultural identity and show the historical contingency of Celtic based nations national identities and nationalisms **The Pilgrim Journey** James Harpur, 2016-09-16 Pilgrimage in the Western world is enjoying a growing popularity perhaps more so now than at any time since the Middle Ages *The Pilgrim Journey* tells the fascinating story of how pilgrimage was born and grew in antiquity how it blossomed in the Middle Ages and faltered in subsequent centuries only to re-emerge stronger than before in modern times James Harpur describes the pilgrim routes and sacred destinations past and present the men and women making the journey the many challenges of travel and the spiritual motivations and rewards He also explores the traditional stages of pilgrimage from preparation departure and the time on the road to the arrival at the shrine and the return home At the heart of pilgrimage is a spiritual longing that has existed from time immemorial *The Pilgrim Journey* is both the colourful chronicle of numerous pilgrims of centuries past searching for heaven on earth and an illuminating guide for today's spiritual traveller *The Magical History of Britain* Martin Wall, 2019-03-15 The first book to consider British history from a magical perspective and how these arcane magical themes

developed over time      **Britain & Rome: Caesar to Claudius** P.J. O'Gorman,2022-06-16 This is a bold reassessment of one of the pivotal points in British history PJ O Gorman analyses the sources for the period from Julius Caesar s first forays into these islands to the invasion under the Emperor Claudius and the conclusions he reaches are nothing short of radical and call into question much of the accepted narrative of Roman invasion and conquest The author starts by showing that Caesar s initial cross Channel adventures were motivated not so much by seeking the glory of taming primitive savages but to gain control of an economic powerhouse His treatment of the period leading up to the Claudian invasion and the invasion itself is even more shocking Most significantly he argues convincingly that two of the most important Roman sources underpinning the conventional narrative are in fact Renaissance fakes and that their acceptance has distorted the interpretation of modern archaeological evidence Meanwhile he reinstates a discounted British source The result is a startlingly different version of Britain s early history      **Cols and Passes of the British Isles** Graham Robb,2016-06-02 A col is the lowest point on the saddle between two mountains Graham Robb has spent years uncovering and cataloguing the 2 002 cols and 105 passes scattered across the British Isles Some of these obscure and magical sites are virgin cols that have never been crossed Dozens were lost by the Ordnance Survey and are recorded only in ballads or monastic charters The eleven cols of Hadrian s Wall are practically unknown and have never been properly identified These underappreciated slices of natural beauty provide a new way of looking at British history and a challenge for cyclists and walkers      **The Secrets of Tenet and the Sator Square** François-Marie Périer,Romain Teixeira,2023-12-14 From the Early Christians to Christopher Nolan What if the famous Magic Square Sator engraved two millenia ago on the walls of Pompeii shortly before the eruption of Vesuvius attributed to the Early Christians and the inspiration for Christopher Nolan s film Tenet released in 2020 had been announcing the troubled and decisive times we are living Sator Arepo Tenet Opera Rotas a 25 letters mandala of which numerous versions dot ancient medieval or modern Europe and a two thousand years old mystery Like a living heart where ancient traditions and religions converge with contemporary discoveries in physics such as the reversibility of Time and the question of Artificial Intelligence the Magic Square takes us through the arcane of the Tarot Gnosis Hebrew Wisdom and their links to Egypt Christian Mysticism and the Renaissance It also allows us to decipher for the first time the work of Christopher Nolan also director of The Prestige Batman Interstellar Inception and Oppenheimer In the center of the Sator Square a cross is formed by Tenet the name of the director of the CIA at the time of September 11 2001 Space and Time Eternity the destiny of Human kind its quest for freedom are simultaneously hidden and revealed in the Sator Square as well as C G Jung s necessary reconciliation of the opposites at the crossing point between the Pisces era and the Aquarian era we are encountering We live in a twilight World is the device of Tenet But the Sator Square also announced us the dawn of a new one      **History and Politics of Well-Being in Europe** Wolfgang Glatzer,2018-12-14 This book presents a reconstruction of the history of well being on the European continent with special attention to the European Union as people

from Europe have a history of a long term march towards well being It discusses ancient civilizations on the European continent which have contributed significantly to the features of well being in contemporary Europe Following Europe s success over the past millennium which brought the continent a unique rise to better well being it also imposed new challenges for sustaining well being and alleviating misery It is shown that Europeans attained a high level of well being in global comparison yet their attitudes remained at the same time ambivalent and precarious Significant parts of the population claim a low well being and suffer from the difficulties of life Even though a top ranked area of socio economic development in the world this book shows that poverty inequality and hardship remain stable structural problems which have to be overcome in order to avoid significant restrictions for a broad quality of life But despite all their burdens and hardships Europeans are among the most prosperous and privileged people in the world      *West: Tales of the Lost Lands* Martin Wall,2023-02-15 Walter Map Layamon William Langland Michael Drayton William Shenstone Sabine Baring Gould A E Housman J R R Tolkien Geoffrey Hill Simon Evans Bruce Chatwin all experienced an epiphany in The Lost Lands of western Britain And so did one other writer Martin Wall      **The Children's Fire** Mac Macartney,2018-10-31 SILVER AWARD WINNER 2019 NAUTILUS BOOK AWARDS The Children s Fire forges a trail into Britain s wild and ancient Celtic past It locates the fragments of a story that still has resonance today the pulse and surge of an older wisdom that cracks the mendacity of the shopping mall s vacuous promise It is a passionate evocation of a generous inclusive diverse and spiritually significant world the world of our longing In the winter of 2009 Mac Macartney walked from his birthplace in England across Wales to the island of Anglesey once the spiritual epicentre of Late Iron Age Britain navigating by the sun and the stars with no map compass stove or tent and in the coldest winter for many years The Children s Fire records that journey and seeks to lay bare the aching loss of knowing and understanding sacredness as it applies to everything ordinary that brings joy to the human heart It asserts the emergence of a new story the story of a people coming home to a truth made all the more poignant having so painfully broken faith with nature our deeper humanity and the paradise we fouled with such casual disrespect It is a love story and part of a larger narrative that is surfacing all around the world It seeks to reclaim our future and name it beautiful      *A Spell in the Forest* Roselle Angwin,2021-06-25 This book gently leads the reader into a new and deeper understanding of the forest and our ancient and intrinsic connection with the trees that has been largely forgotten in this modern age If you wish to develop and nurture a true affinity and knowledge of trees then *Tongues in Trees* will most definitely help you to do that Luke Eastwood author of *The Druid Garden* and *The Druid s Primer* Trees occupy a place of enormous significance not only in our planet s web of life but also in our psyche *A Spell in the Forest* *Tongues in Trees* is part love song part poetic guidebook and part exploration of thirteen native sacred British tree species *Tongues in Trees* is a multi layered contribution to the current awareness of the importance and significance of trees and the resurgence of interest in their place on our planet and in our hearts FROM THE BOOK Trees have always figured in human consciousness I believe

that when we walk among trees or notice a particular tree a kind of exchange happens Trees love to be met Trees somehow mediate between ourselves and a different reality a different order of consciousness pre verbal post verbal trans verbal non verbal such a relief sometimes Trees in a natural forest mirror and speak to something of the wild soul in a human As we visit we encounter and are supported by the elemental powers that reside in such places and can more readily connect with our own instinctual natures and the wild soul Wildness is not to be confused with a state of chaos being out of control savage It is a question of relinquishing the ego's grip to larger natural rhythms cycles surroundings an essential aspect of thriving When one does this one is more receptive to one's environment physical or more numinous Woodland forest strikes me as a perfect example of the individual and the community being gracefully harmoniously and inextricably part of each other I walk the forest listen for birds rivers cascades stories of the wildwood rustling in the leaves try and stay aware of the great mycorrhizal web beneath my feet connecting us all The ancients knew that spending time among trees is one of the best approaches to health and healing Recently Japan has spent millions researching the health benefits of shinrin yoku forest bathing In the forest I step into a different kind of time It is not simply that it so clearly stretches back so far into the past but also that it allows me what Thoreau described as a broad margin to my day Mother trees we know from work by Suzanne Simard will reduce their own root competition to make room for their own offspring Trees will also help neighbours of their own species if necessary Forests are liminal places thresholds into a meeting of the physical and metaphysical where we are on the cusp of another reality In our past our physical survival and some of our sense of meaning came from an awareness and direct experience of our connectedness with the more than human We need that awareness more than ever now Our being here our walking on this earth is a co creation a mutual belonging How to live if not in reciprocal affinity *Climate and Culture* Giuseppe Feola, Hilary Geoghegan, Alex Arnall, 2019-10-03 Discusses how culture both facilitates and inhibits our ability to address live with and make sense of climate change **Earth to Climate Change** Nya Alison Murray, 2015-01-27 Earth to Climate Change traces the effects of climate change on our past present and future adaptations to social political and climate factors since the last glaciation Deeply simple solutions to climate change are available We already have a blueprint for the clean technology future Responding to the threats of extreme weather events the risks of disaster and the associated large scale migration of populations is as close as our family tree The past provides the clues as to how global temperature rises are going to affect us all Earth the beautiful blue planet is constantly balancing the biosphere We can all work collaboratively and proactively to address climate change *Public Universities, Managerialism and the Value of Higher Education* Rob Watts, 2016-12-19 This book provides a rigorous examination into the realities of the current university system in Britain America and Australia The radical makeover of the higher education system which began in the 1980s has conventionally been understood as universities being transformed into businesses which sell education and research in a competitive market This engaging and provocative book argues that this is not actually the case Drawing on lived experience

Watts asserts that the reality is actually a consequence of contradictory government policy and new public management whose exponents talk and act as if universities have become businesses The result of which is market crazed governance whereby universities are subjected to expensive rebranding and advertising campaigns and the spread of a toxic culture of customer satisfaction surveys which ask students to evaluate their teachers and what they have learned based on government metrics of research quality This has led to a situation where not only the normal teacher student relationship is inverted academic professional autonomy is eroded and many students are short changed but where universities are becoming places whose leaders are no longer prepared to tell the truth and too few academics are prepared to insist they do An impassioned and methodical study this book will be of great interest to academics and scholars in the field of higher education and education policy
