Toward a New Interior Lois Weinthal, *Toward a New Interior* Lois Weinthal, 2011-10-19 Interior design as a relatively young discipline within the academic world of design has historically been interpreted as an extension of other fine arts Narratives exist but they all too often treat interior design as a function of architecture or display rather than experience An independent interior design theory is virtually nonexistent Professor Lois Weinthal envisions a future where interior design is treated with parity to architecture and industrial design a future with a new interior A reader for architects and interior designers Weinthal has carefully curated a collection of forty eight essays that will form the foundation of interior design theory and shape future interior space Her introductory essays illuminate each source prefacing and directing discussion of the material as it relates to interior design theory Alluding to Le Corbusier's classic text she has organized this material into a framework that inspires conversation marking a break with the past and forming a new vocabulary for the discourse Contributions to the book's eight sections include essays by David Batchelor Aaron Betsky Petra Blaisse Andrew Blauvelt Beatriz Colomina Le Corbusier Robin Evans Adolf Loos Ellen Lupton Charlotte Perkins Gilman Michel Serres Henry Urbach Wim Wenders and Mark Wigley

The Interior Architecture

Theory Reader Gregory Marinic, 2018-01-17 The Interior Architecture Theory Reader presents a global compilation that collectively and specifically defines interior architecture. Diverse views and comparative resources for interior architecture students, educators, scholars, and practitioners are needed to develop a proper canon for this young discipline. As a theoretical survey of interior architecture, the book examines theory, history, and production to embrace a full range of interior identities in architecture, interior design, digital fabrication, and spatial installation. Authored by leading educators, theorists, and practitioners, fifty chapters refine and expand the discourse surrounding interior architecture. *Interiors and Interiority* Ewa Lajer-Burchard, Beate Söntgen, 2015-11-13 Veranschaulichungsformen von Innerlichkeit finden in der Moderne in Darstellungen des Interieurs ihr prägnantes Bild. Die Beiträge der Publikation untersuchen die Verbindungen zwischen architektonischen Innenräumen, visuellen und literarischen Darstellungen von Interieurs und dem Konzept der Innerlichkeit vom 18. Jahrhundert bis heute. Jene Darstellungen sind Effekt, aber auch Produzenten spezifischer Vorstellungen von Innerlichkeit als einer, wenn nicht der subjektkonstituierenden Praxis der Moderne. **A Companion to Contemporary Design since 1945** Anne Massey, 2019-03-26 A critical overview of contemporary design and its place within the broader context of art history. *A Companion to Contemporary Design since 1945* introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century: design history, design methods, design studies, and more recently design thinking. The book delivers a thoughtful overview of all design disciplines and also strives to stimulate interdisciplinary debate and examine unconsidered convergences among design applications in different fields. By offering a new perspective on design, the articles assembled here present a challenging account of the boundaries between design history and its cognate disciplines, especially art history. The volume comprises five sections: Time, Place, Space, Objects, and Audiences, that discuss environments for design and how we interact with designed objects and spaces. Notable features include 24 new essays reflecting the current state of design history and theory and examining developments on a global basis. Contributions by eminent scholars and practitioners from around the globe. Enriched throughout with illustrations, *A Companion to Contemporary Design since 1945* provides a new and thought-provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history, theory, and practice and in related fields. Research Methods for Interior Design Dana E. Vaux, David Wang, 2020-08-05 Interior design has shifted significantly in the past fifty years from a focus on home decoration within family and consumer sciences to a focus on the impact of health and safety within the interior environment. This shift has called for a deeper focus in evidence-based research for interior design education and practice. *Research Methods for Interior Design* provides a broad range of qualitative and quantitative examples, each highlighted as a case of interior design research. Each chapter is supplemented with an in-depth introduction, additional questions, suggested exercises, and additional research references. The book's subtitle

Feminist Practices Lori A. Brown, 2016-04-15 Women continue to be extremely under represented in the architectural profession Despite equal numbers of male and female students entering architectural studies there is at least 17 25% attrition of female students and not all remaining become practicing architects In both the academic and the professional fields of architecture positions of power and authority are almost entirely male and as such the profession is defined by a heterosexual Eurasian male perspective This book argues that it is vital for all architectural students and practitioners to be exposed to a diversity of contemporary architectural practices as this might provide a first step into broadening awareness and transforming architectural engagement It considers the relationships between feminist methodologies and the various approaches toward design and their impact upon our understanding and

relationship to the built environment In doing so this collection challenges two conventional ideas firstly the definition of architecture and secondly what constitutes a feminist practice This collection of up and coming female architects and designers use a wide range of local and global examples of their work to question different aspects of these two conventional ideas While focusing on feminist perspectives the book offers insights into many different issues concerns and interpretations of architecture proposing through these types of engagement architecture can become more culturally politically and environmentally relevant This next generation of architects claim feminism as their own and through doing so help define what feminism means and how it is evolving in the 21st century
