Between the World and the Urban Classroom George Sirrakos Jr., Christopher Emdin, 2017-05-12

Borrowing from the ideas of John Dewey schools and classrooms are a reflection of the world therefore in order to make sense of the urban classroom we need to make sense of the world In this book the editors have compiled a collection of nine critical essays or chapters each examining a particular contemporary national and or international event The essays each undertake an explicit approach to naming oppression and addressing it in the context of urban schooling Each essay has a two fold purpose The first purpose is to help readers see the world unveiled through a more critical lens and to problematize long held beliefs about urban classrooms with regard to race gender social class equity and access Second as each author draws parallels between an event and urban classrooms a better understanding of the microstructures that exist in urban classrooms emerges At a time of serious political economic and social uncertainty we need a book like this one that showcases how the world can be seen as a critical site of curriculum and pedagogy A powerful intersectional analysis of the world word and urban sociopolitical context authors in this book push the boundaries of what educators know and do in urban schools and classrooms Grounded in frameworks of critical race theory and culturally relevant pedagogy authors center essential societal moments that must be viewed as the real curriculum These moments can equip students with tools to examine the what of the world as well as how to examine critique challenge and disrupt individual systemic and structural realities and practices that perpetuate and maintain a racist sexist homophobic and xenophobic status quo This is an important forward thinking innovative book a welcome addition to the field of urban education H Richard Milner IV Helen Faison Chair of Urban Education University of Pittsburgh

Paul Jones, 2021-11-03 The contemporary Christian church is in critical decline both in membership and finances All attempts at reversal are failing primarily because of the consuming socioeconomic secular dynamic in which society is immersed in its self destructive course Consequently Christian imagery is losing its conceivability and credibility and past motivations that once encouraged belief have lost their appeal Without these as points of contact the demise of the institutional church will be relentless despite all efforts to halt it Yet as at other crisis points in history the divine promise has been to raise a faithful remnant with sufficient promise to outlast whatever the societal demise After carefully analyzing the ingredients of our societal crisis the author develops the contours of a Remnant Church to be set in place now within the present institutional churches This necessitates distilling a vital spirituality and discerning the heart of a preservable tradition sufficient to claim both personal and communal commitment Thereby prepared for the long haul the Remnant Church can emerge as a prophetic alternative
