**The Monocle Guide to Good Business** Monocle, 2014-08 The Monocle Guide to Good Business follows up on the success of The Monocle Guide to Better Living The book offers multifaceted perspectives on the world of work today and in the future from compelling business ideas to inspiring company cultures Ever since the launch of Monocle in 2007 this highly successful global magazine and media brand has championed a clear and new take on the world of work It has encouraged its readers to start their own businesses do the thing that makes them feel fulfilled even if it means ditching a comfortable corporate salary and find places to build their HQ that deliver a good quality of life too The magazine's belief in making things and making them well using your hands doing an apprenticeship and keeping things small and tight has linked perfectly with a community of entrepreneurs who are determined to find their own way in the world and know that this will allow them to run their lives in new and fresh ways These developments are also expressed in the maker movement new shared spaces and unusual business schools So it was a natural step for the magazine's team to create The Monocle Guide to Good Business This guide is not your traditional business book but it does give advice on how to go from clever fledgling idea to success story and introduces people with inspiring stories The Monocle Guide to Good Business is also a picture rich journey for anyone who runs a company wants to run a company or wishes their boss had some new ideas It will even tell you why you need an office dog From the best business neighborhoods to the sturdiest desks this book will have you planning a new career or at least fixing your office It's a book that should be thumbed and used It's a manual and a manifesto a guide and a good read

**Nonlinear** Kevin G. Bethune, 2025-02-04 From the acclaimed designer and bestselling author of Reimagining Design a nonlinear approach to navigating design's nuances in pursuit of meaningful innovation In Nonlinear Kevin Bethune shows us that we can reject trodden paths of digital or physical product creation by taking advantage of a nonlinear approach To unlock meaningful innovation that breeds new and novel outcomes he writes teams need to embark on a journey into the proverbial forest of ambiguity the result of a rapidly converging dynamic and exponentially changing landscape The journey is less about getting it right or wrong and more about using the information we have at our disposal to understand our choices and unlock new learning Nonlinear begins by taking the reader through Bethune's professional zigs and zags The author explains that while his interdisciplinary leaps were rare at the time he took them these varied experiences unlocked perspectives about design and innovation that uniquely prepared him for our present moment and for the future He then showcases the role of quantitative information to strategically frame and set boundary conditions for our creative exploration and he highlights the role of qualitative insights to provide the substance necessary to begin crafting solutions that address unmet needs The book also identifies accelerants or flywheels that will help readers as they reflect on their journey through the forest of ambiguity with a specific emphasis on diversity a key theme for Bethune a Black man who has navigated new horizons Readers will enjoy having the chance to customize the author's perspectives and make them

their own at both an individual and a team level      **Digital Participation through Social Living Labs** Michael Dezuanni, Marcus Foth, Kerry Mallan, Hilary Hughes, 2017-08-14 Digital Participation through Social Living Labs connects two largely separate debates On the one hand high speed internet access and associated technologies are often heralded as a means to bring about not only connectivity but also innovation economic development new jobs and regional prosperity On the other hand community development research has established that access by itself is necessary but not sufficient to foster digital participation for the broadest possible range of individuals Edited by leading scholars from the fields of education youth studies urban informatics librarianship communication technology and digital media studies this book is positioned as a link to connect these debates It brings together an international collection of empirically grounded case studies by researchers and practitioners from diverse backgrounds They advance knowledge that fosters digital participation by identifying the specific digital needs issues and practices of different types of communities as they seek to take advantage of access to digital technologies Collectively these cases propose new ways for enabling residents to develop their digital confidence and skills both at home and in their local community particularly through a social living labs approach The book is organised around key focus areas digital skills enhancement youth entrepreneurship connected learning community digital storytelling community led digital initiatives and policy development Highlights that high speed internet is necessary that high speed internet access is necessary but not sufficient to resolve digital divides and foster social inclusion Brings together international empirically grounded case studies to identify digital needs issues and practices of different communities and contextualises these with expert comment Presents contributions from multiple disciplines with most chapters incorporating more than one disciplinary background Gives insight on the place of the digital in contemporary society Illustrates the innovative potential of social living labs to foster digital learning and participation in a variety of community contexts
