The Moot Papers:

The Moot Papers Keith Clements, 2015-02-26 The Moot was the study and discussion group set by J H Oldham 1874 1969 following the 1937 Oxford conference on Church Community and State Its purpose was to continue in an informal but serious way exploration of the relation between church and society and the realization of Christian ethics in the public sphere The Moot met twice or three times a year from 1938 to 1947 21 times in all and was convened by Oldham with the conscious intention of responding to the grave crisis that was felt to be facing western society in Britain no less than on the continent of Europe Overall some 35 people attended the Moot at one time or another but its core comprised a small number of regular members who were representative of the highest levels in theology social science and public affairs In addition to Oldham himself they included T S Elliot H A Hodges Eleonora Iredale Adolf L we Karl Mannheim Walter Moberly John Middleton Murry and Alec Vidler Other participants included Kathleen Bliss Fred Clarke Christopher Dawson H H Farmer Hector Hetherington Walter Oakshott and Gilbert Shaw while notables such as Reinhold Niebuhr Melville Channing Pearce Donald McKinnon Philip Mairet Leslie Newbiggin William Paton Frank Pakenham later Lord Longford Michael Polanyi and Oliver Tomkins made occasional guest appearances Against the background of impending and then actual war the discussions in the Moot repeatedly focused on the planned nature of modern society and therewith the roles if any within it of moral choice and the Christian community Catalogue of the Moot Papers University of London. The Modernist God State Michael Lackey, 2012-03-22 The Modernist God State seeks to overturn the traditional secularization approach to intellectual and political history and to replace it with a fuller understanding of the religious basis of modernist political movements Lackey demonstrates that Christianity instead of fading after the Enlightenment actually increased its power by becoming embedded within the concept of what was considered the legitimate nation state thus determining the political agendas of prominent political leaders from King Leopold II to Hitler Lackey first argues that novelists can represent intellectual and political history in a way that no other intellectual can Specifically they can picture a subconscious ideology which often conflicts with consciously held systems of belief short circuiting straight into political action an idea articulated by E M Forster Second in contrast to many literary scholars who discuss Hitler and the Nazis without studying and quoting their texts Lackey draws his conclusions from close readings of their writings In doing so he shows that one cannot understand the Nazis without taking into account the specific version of Christianity underwriting their political agenda **The ^AYear of Our Lord 1943** Alan Jacobs, 2018-07-02 The Year of Our Lord 1943 tells the story of how five Christian intellectuals Jacques Maritain T S Eliot C S Lewis W H Auden and Simone Weil sought to provide a plan for the moral and spiritual renewal of the Western democracies in the post World War II world This is your hour John

Carter Wood, 2019-05-02 In the 1930s and 1940s amid the crises of totalitarianism war and a perceived cultural collapse in the democratic West a high profile group of mostly Christian intellectuals met to map out middle ways through the age of

extremes Led by the missionary and ecumenist Joseph H Oldham the group included prominent writers thinkers and activists such as T S Eliot John Middleton Murry Karl Mannheim John Baillie Alec Vidler H A Hodges Christopher Dawson Kathleen Bliss and Michael Polanyi The Oldham group saw faith as a uniquely powerful resource for social and cultural renewal and it represents a fascinating case study of efforts to renew freedom in a dramatic confrontation with totalitarianism The group s story will appeal to those interested in the cultural history of the Second World War and the issue of applying faith to the modern social order

In History and in Education Richard Aldrich,2014-07-16 This tribute from historian and educationists to the work and influence of Peter Gordon Emeritus Professor at the Institute of Education in London is grouped round the central theme of the educational history of the 19th and 20th centuries

Absent Minds Stefan Collini,2006-03-09 A richly textured work of history and a powerful contribution to contemporary cultural debate Absent Minds provides the first full length account of the question of intellectuals in twentieth century Britain have such figures ever existed have they always been more prominent or influential elsewhere and are they on the point of becoming extinct today Recovering neglected or misunderstood traditions of reflection and debate from the late nineteenth century through to the present Stefan Collini challenges the familiar cliché that there are no real intellectuals in Britain The book offers a persuasive analysis of the concept of the intellectual and an extensive comparative account of how this question has been seen in the USA France and elsewhere in Europe There are detailed discussions of influential or revealing figures such as Julien Benda T S Eliot George Orwell and Edward Said as well as trenchant critiques of current assumptions about the impact of specialization and celebrity Throughout attention is paid to the multiple senses of the term intellectuals and to the great diversity of relevant genres and media through which they have communicated their ideas from pamphlets and periodical essays to public lectures and radio talks Elegantly written and rigorously argued Absent Minds is a major long awaited work by a leading intellectual historian and cultural commentator ranging across the conventional divides between academic disciplines and combining insightful portraits of individuals with sharp edged cultural analysis

So What's New About Scholasticism? Rajesh Heynickx,Stéphane Symons,2018-07-09 In So What s New about Scholasticism thirteen international scholars gauge the extraordinary impact of a religiously inspired conceptual framework in a modern society The essays that are brought together in this volume reveal that Neo Thomism became part of contingent social contexts and varying intellectual domains Rather than an ecclesiastic project of like minded believers Neo Thomism was put into place as a source of inspiration for various concepts of modernization and progress This volume reconstructs how Neo Thomism sought to resolve disparities annul contradictions and reconcile incongruent new developments It asks the question why Neo Thomist ideas and arguments were put into play and how they were transferred across various scientific disciplines and artistic media growing into one of the most influential master narratives of the twentieth century Edward Baring Dries Bosschaert James Chappel Adi Efal Lautenschl ger Rajesh Heynickx Sigrid Leyssen Christopher Morrissey Annette M lberger Jaume Navarro

Herman Paul Karim Schelkens Wim Weymans and John Carter Wood reconstruct a bewildering yet decipherable thought structure that has left a deep mark on twentieth century politics philosophy science and religion Modernism, Christianity and Apocalypse, 2014-10-30 Modernism Christianity and Apocalypse stages an encounter between the fields of Modernism and Christianity and Apocalypse Studies The modernist impulse to make it new to transform and reform culture is an incipiently apocalyptic one poised between imaginative representations of an Old Era or civilization and the experimental promise of the New Christianity figures in formative tension with the new but its apocalyptic paradigms continued to impact modernist visions of cultural revitalization In three sections tracing a rough chronology from the late nineteenth century fin de siècle via interwar conflicts and the rise of political religions to post 1945 anxieties such as the Bomb this thematic is explored in nineteen far ranging scholarly contributions outlining a distinctive and fresh interdisciplinary field of study

The History of Sociology in Britain Plamena Panayotova, 2019-07-09 For many years the history of British Sociology has been a neglected area of study among sociologists In more recent times there are signs of a growing curiosity among British sociologists about their subject's origins and development This collection sets out both to encourage and satisfy that curiosity while recognising the value of history as a teaching tool that can be used to inspire young sociology students and furnish them with a deeper understanding of the development of British sociology The volume contains essays by distinguished sociologists and historians who discuss British sociology's controversial origins the neglected legacies of several individuals and institutions the history of how the discipline was taught in the UK throughout the twentieth century and its peculiar relationships with statistics and the humanities The History of Sociology in Britain reveals the distinct character of British sociology through the course of its historical evolution It is an original contribution and valuable addition to the field which intersects with historiography epistemology and literature Education for Democracy in England in World War II Hsiao-Yuh Ku, 2020-04-07 Education for Democracy in England in World War II examines the educational discourse and involvement in wartime educational reforms of five important figures Fred Clarke R H Tawney Shena Simon H C Dent and Ernest Simon These figures campaigned for educational reforms through their books publishing articles in newspapers delivering speeches at schools and conferences and by organizing pressure groups Going beyond the literature in this key period the book focuses on exploring the relationship between democratic ideals and reform proposals in each figure's arguments Displaying a variety of democratic forums for debates about education beyond parliament the book reinterprets wartime educational reforms from a different perspective and illustrates the agreements and contradictions in the educational discourse itself **The Poems of T. S. Eliot, Volume I** T. S. Eliot, 2018-12-04 The first volume of the first paperback edition of The Poems of T S Eliot This two volume critical edition of T S Eliot's poems establishes a new text of the Collected Poems 1909 1962 rectifying accidental omissions and errors that have crept in during the century since Eliot's astonishing debut The Love Song of J Alfred Prufrock In addition to the masterpieces The Poems of T S Eliot contains the

poems of Eliot's youth which were rediscovered only decades later poems that circulated privately during his lifetime and love poems from his final years written for his wife Valerie Calling upon Eliot's critical writings as well as his drafts letters and other original materials Christopher Ricks and Jim McCue have provided a commentary that illuminates the imaginative life of each poem This first volume respects Eliot's decisions by opening with his *Collected Poems 1909-1962* as he arranged and issued it shortly before his death This is followed by poems uncollected but either written for or suitable for publication and by a new reading text of the drafts of *The Waste Land* The second volume opens with the two books of verse of other kinds that Eliot issued *Old Possum's Book of Practical Cats* and *Anabasis* his translation of St John Perse's *Anabase* Each of these sections is accompanied by its own commentary Finally pertaining to the entire edition there is a comprehensive textual history that contains not only variants from all known drafts and the many printings but also extended passages amounting to hundreds of lines of compelling verse

God's Will in a Time of Crisis Andrew R. Morton, 1994 **John W. Thompson** Paul Weindling, 2010 John W Thompson Psychiatrist in the Shadow of the Holocaust is the biography of a doctor whose revulsion at Nazi human experiments prompted him to seek a humane basis for physician patient relations As a military scientific intelligence officer in 1945 Thompson was the first to name medical war crimes as a category for prosecution His investigations laid the groundwork for the Nuremberg medical trials and for the novel idea of informed consent Yet Thompson has remained a little known figure despite his many scientific literary and religious connections This book traces Thompson's life from his birth in Mexico through his studies at Stanford Edinburgh and Harvard and his service in the Canadian Air Force It reconstructs his therapeutic work with Unesco in Germany and his time as a Civil Rights activist in New York where he developed his concept of holistic medicine Thompson was close to authors like Auden and Spender and inspirational religious figures like Jean Vanier founder of L'Arche He drew on ideas of Freud Jung and Buber The philosophical and religious dimensions of Thompson's response to Holocaust victims suffering are key to this study which cites accounts of psychiatrists students and patients who knew Thompson personally war crimes prosecution records and unpublished personal papers Paul Weindling is Wellcome Trust Research Professor at the Centre for Health Medicine and Society Past and Present Oxford Brookes University UK *Accounts and Papers of the House of Commons* Great Britain. Parliament. House of Commons, 1873

Hitotsubashi Journal of Social Studies, 1996 **Collection of Papers Relating to the Hooghly Imbarra. 1815-1910** Bengal (India), 1914 *Conference Papers*, 1903 Selected papers from the annual meeting of the Conference *Civil Society in British History* Jose Harris, 2005-07-14 This book explores the many different strands in the language of civil society from the sixteenth to the twentieth centuries Through a series of case studies it investigates the applicability of the term to a wide range of historical settings These include state interference voluntary associations economic decision making social and economic planning the bourgeois public sphere civil society in wartime the inclusion and exclusion of women and relations between the state the voluntary sector and individual citizens The

contributors suggest that the sharp distinction between civil society and the state common in much continental thought was of only limited application in a British context. They show how past understandings of the term were often very different from even in some respects the exact opposite of those held today, arguing that it makes more sense to understand civil society as a phenomenon that varies between different cultures and periods rather than a universally applicable set of principles and procedures.

Christopher Dawson Joseph T. Stuart, 2022-01-14 The English historian Christopher Dawson (1889–1970) was the first Catholic Studies professor at Harvard University and has been described as one of the foremost Catholic thinkers of modern times. Joseph T. Stuart argues that through Dawson's study of world cultures he acquired a cultural mind by which he attempted to integrate knowledge according to four implicit rules: intellectual architecture, boundary thinking, intellectual asceticism, and intellectual bridges. Dawson responded to the cultural fragmentation after the Great War (1914–1918) through this multilayered approach to culture, which was an instantiation of John Henry Newman's philosophical habit of mind. Stuart demonstrates how Dawson formed his cultural mind practicing an interdisciplinary science of culture involving anthropology, sociology, history, and comparative religion, and applied his cultural thinking to problems in politics and education.
