Iran and Persianate Culture in the Indian Ocean World Andrew Peacock, 2025-02-06 The first interdisciplinary study of the history of contact between Iranians and the peoples and polities of the Indian Ocean Most of the historiography of the Iranian world focuses on interactions and migrations between Iran Central Asia and India Nonetheless this Iranian world was also closely connected to the maritime one of the Indian Ocean While scholarship has drawn attention to diverse elements of these latter interactions ranging from the claims to Shirazi descent of East African communities to Persian elements in Malay literature and Iranian communities of merchants in China such studies have remained largely isolated from one another The consensus of historiography on the Indian Ocean presents it as an Arabic cosmopolis or in earlier times a Sanskrit one The aim of this book is thus to bring

together scholars working on disparate aspects of Persianate interactions with the Indian Ocean world from antiquity to modern times to provide a more rounded picture of both the history of the Persianate world broadly conceived and that of the Indian Ocean. The book brings together a collection of internationally renowned scholars from a variety of disciplines including archaeology, history, literature, linguistics, art history, and covers interactions in Iran's political and commercial relations with the Indian Ocean world in history, Persian speaking communities in the Indian Ocean world, Persianate elements in Indian Ocean languages and literatures, Persian texts dealing with the Indian Ocean, and connections in material culture.
