The Grand Scam Rob Rose, 2013-11-20 From 2005 to 2009 the heir to one of South Africa's blue blood families Barry Tannenbaum methodically constructed the largest ever con in South African history The Grand Scam exposes details about the brazen greed of the scammers a bank that facilitated the shady dealings rather than alerting the authorities and the naivety of business people who should have known better It goes far beyond the original news stories containing original research and material that for the first time answers the central question of why Barry Tannenbaum the grandson of the founder of one of the country's biggest pharmaceutical firms Adcock Ingram offered investors stratospheric returns of more than 200 per cent a year by investing in the components used to make AIDS drugs It was nothing more than a lie which suckered the country's business elite including the former CEO of Pick n Pay the one time head of the Johannesburg Stock Exchange and the ex boss of OK Bazaars After the bubble popped in June 2009 finance minister Pravin Gordhan announced that hundreds of investors in South Africa Australia and Europe had ploughed more than R12.5 billion into Tannenbaum's scheme based on the empty promise of immense riches Dwarfing the Brett Kebble rip off Fidentia and the Krion pyramid scheme it proved to be the most embarrassing financial disaster in the country's history and it exposed holes in a banking and financial system billed as one of the safest in the world For Tannenbaum's victims the nightmare continued after the scheme collapsed as liquidators tax officials and criminal investigators demanded their pound of flesh But Tannenbaum now at large on Australia's Gold Coast continues to live as if nothing happened working for an Australian insurance company The question that hasn't been answered until now is how did Tannenbaum swindle so many people with such ease And more crucially why did he do it Through extensive interviews with his family friends and numerous investors this book provides the startling answers to those questions For the first time the real motivation that fuelled South Africa's Bernie Madoff is laid bare

Demokrasi Hamish McDonald, 2015-01-06 Indonesia a nation of thousands of islands and almost 250 million people straddles the junction of the Pacific and Indian oceans Current President Susilo Bambang Yudhoyono has presided over 6 per cent average yearly growth of its economy to surpass 1 trillion If this rate continues Indonesia will join the world's ten biggest economies in a decade or so just behind the so called BRIC countries The much discussed recent documentary The Act of Killing revived some of its darker past and Barack Obama's reminiscences about the childhood years he spent there briefly shone the spotlight on a country many Americans know little about Yet as Indonesia approaches its 2014 parliamentary and presidential elections its future is wide open Though the largest Muslim nation by population it remains a receiver of wisdom from the Arab world rather than a messenger of multi

religious tolerance Its pursuit of trade agreements with Japan and South Korea have burnished its economic ambitions but its diplomacy is long on so called soft power and short on sanctions or force So what does the future hold for this pivotal place Award winning Asia Pacific journalist Hamish McDonald s *Demokrasi* is an accessible and authoritative introduction to the modern history and politics of this fascinating country

Extremisms in Africa Volume 2 Alain Tschudin, Craig Moffat, Stephen Buchanan-Clarke, Susan Russell, Lloyd Coutts, 2019-06-18 Over the past two decades the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa s most enduring conflicts Moreover the inability of African states to contain the threat of extremism or of heavy handed security responses has led to the loss of thousands of lives displaced millions and deeply impacted the continent s democratisation and development goals This is the second anthology published by Good Governance Africa GGA on the topic of extremism and political violence in Africa Extremisms in Africa one of the first anthologies of its kind on this topic to be authored and published on the African continent provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges enabling them to exploit the grievances of individuals and communities for their cause This anthology Extremisms in Africa Volume 2 looks

forward giving special attention to the ways in which emergent trends global geopolitics and conflict dynamics merge to impact upon the African continent To this end we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration the implications of such human movement for modern day trafficking and slavery and the roles of women and youth State responses to extremisms on the African continent are not uniform the capacity of individual states to detect identify police investigate and prosecute is highly variable At the most fundamental level extremisms are ripe to arise in contexts where governments are failing especially when democracy is on the wane This anthology identifies some of the most pressing challenges in addressing extremisms today and provides chapters that could offer actionable policy insights to governments and civil society Given the nature of Africa s geopolitical landscape state and security services alone cannot prevent extremism It will take a whole of society approach where government civil society academia communities families and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context specific strategies in response This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism while also being of interest to the general reader

Africa's Dependency Syndrome Mhango, Nkwazi N.,2017-08-16 There are milliards of off beam assumptions that Africa will always remain immobile in development of whatever type This pseudo take has mainly been propounded by Western thinkers in order to dubiously make Africans internalise and reinforce this flimsy and flimflam dependency Africa needs to embark on paradigm shift and tweak and turn things around Africa has what it take to do so quickly especially now that new economic powers such as China and India are evolving as counterweight to the West Shall Africa use these new economic forces to its advantage based on fair and win win cooperation To do so Africa must make sure

that it does not slink back into business as usual vis a vis beggarliness dependence frailty gullibility made up backwardness monkey business and pipedreams not to mention the nasty and narcissistic behaviours of its venal and navel gazing rulers Verily Africa needs inter alia to use its God given gifts namely immense resources young population abundance of vast and unexploited amounts of land Equally Africa must without equivocation invest copiously and earnestly in its people the youth in the main Most of all Africa needs to shy away from all colonial carryovers and encumbrances This volume shows many ways through and by which Africa can inverse the current imbroglio cum no go it faces for the better and thereby actualise the dream of being truly independent and prosperous *Making Public in a Privatized World* David A. McDonald, 2016-02-15

existence of darknet untraceable Internet telephone calls and messages smart encrypted device direct messaging applications and commercially available encryption software These problems are then related to the traceability and typecasting of potential terrorists showing that law enforcement agencies are searching for needles in the ever expanding haystacks To this end the book examines the bulk powers of digital surveillance introduced by the Investigatory Powers Act 2016 The book then moves on to assess whether these new powers and the new legislative safeguards introduced are compatible with international human rights standards The author creates a digital rights criterion from which to challenge the bulk surveillance powers against human rights norms Lord Carlile of Berriew CBE QC in recommending this book notes this particular legal advancement commenting that rightly so the author concludes the UK has fairly balanced individual privacy with collective security The book further analyses the potential impact on intelligence exchange between the EU and the UK following Brexit Using the US as a case study the book shows that UK laws must remain within the ambit of EU law and the Court of Justice of the European Union's CJEU's jurisprudence to maintain the effectiveness of the exchange It addresses the topics with regard to terrorism and counterterrorism methods and will be of interest to researchers academics professionals and students researching counterterrorism and digital electronic communications international human rights data protection and international intelligence exchange

Dun's Review, 1914 Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization

The Chinese Constitution of Central Asia N. Godehardt, 2014-03-21 China's commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China's rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define Central Asia when they talk and write about policy issues related to China's immediate Western neighbourhood In this context she gives an inside

perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies **Forum on China-Africa Cooperation** Yazini April, Garth Shelton, 2014-12-14 As the Chinese economy continues to grow increased commercial engagement with Africa will offer the continent new and rewarding prospects for trade investment and economic development The challenge is for Africa to grasp these opportunities and take full advantage of China's friendship and willingness to co-operate The Forum on China Africa Co-operation FOCAC provides a mechanism for all inclusive diplomatic consultation to advance China Africa co-operation and to effectively manage expanding economic inter-dependence FOCAC is a political arena for developing Sino-African co-operation and problem solving FOCAC also provides an important framework for developing a common development agenda Given new global trends towards antiglobalisation FOCAC's importance is expected to increase in the years ahead This book seeks to strengthen the China Africa relationship and offer new suggestions for both policy makers and scholars seeking to understand and advance FOCAC for mutual benefit FOCAC holds the key to Africa's development and long term prosperity The new policy initiatives and proposals outlined in this study make a very valuable contribution to strengthening FOCAC and advancing Africa's economic development *The China Challenge* Thomas J. Christensen, 2015-06-02 A standout a balanced informative and highly intelligent guide to dealing with China Fareed Zakaria Many see China as a rival superpower to the United States and imagine the country's rise to be a threat to U.S. leadership in Asia and beyond Thomas J. Christensen argues against this zero-sum vision Instead he describes a new paradigm in which the real challenge lies in dissuading China from regional aggression while encouraging the country to contribute to the global order Drawing on decades of scholarship and experience as a senior diplomat Christensen offers a compelling new assessment of U.S.-China relations that is essential reading for anyone interested in the future of the globalized world The China Challenge shows why China is nowhere near powerful enough to be considered a global peer competitor of the United States but it is already strong enough to destabilize East Asia and to influence economic and political affairs worldwide Despite China's impressive achievements the Chinese Communist Party faces enormous challenges Christensen shows how nationalism and the threat of domestic instability influence the party's decisions on issues like maritime sovereignty disputes global financial management control of the Internet climate change and policies toward Taiwan and Hong Kong China benefits enormously from the current global order and has no intention of overthrowing it but that is not enough China's active cooperation is essential to global governance Never before has a developing country like China been asked to contribute so much to ensure international stability If China obstructs international efforts to confront nuclear proliferation civil conflicts financial instability and climate change those efforts will falter but even if China merely declines to support such efforts the problems will grow vastly more complicated Analyzing U.S.-China policy since the end of the Cold War Christensen articulates a balanced strategic approach that explains why we should aim not to block China's rise but rather to help shape its choices so as to deter regional aggression and encourage China's active participation in
