Since your NAS system is always on, a highly reliable drive is essential. With a 12% MTBF improvement over standard drives, the WD Red drive with NASware 3.0 is designed for the 24x7 environment.

Lower operating temperatures

Innovative technology reduces power consumption and lowers the operating temperatures, resulting in a more reliable and affordable solution for always-on NAS environments.

Longer warranty coverage

The WD Red drive is backed by a 5-year limited warranty for great peace of mind.

* WD hard drives are designed and tested for use in specific applications and environments. To ensure that your hard drive is compatible with an enclosure properly in your application, our hard drives are marked against details in enclosures and environments in the system for which they were designed. Use in systems other than for what the hard drive was designed could result in compatibility problems and/or product failure. For best results, be sure to select the appropriate product for your application by consulting our product specifications on our website at www.wd.com or by calling our customer support line where we would be happy to help you through this selection process.
