Wharton Revisited English Edition:

Teaching Edith Wharton's Major Novels and Short Fiction Ferdâ Asya,2021-05-13 This book translates recent scholarship into pedagogy for teaching Edith Wharton's widely celebrated and less known fiction to students in the twenty first century. It comprises such themes as American and European cultures, material culture, identity, sexuality, class, gender, law, history, journalism, anarchism, war, addiction, disability, ecology, technology, and social media in historical, cultural, transcultural, international, and regional contexts. It includes Wharton's works compared to those of other authors taught online, read in foreign universities, and studied in film adaptations. **Edith Wharton's The Age of Innocence** Arielle Zibrak,2019-11-28

Following the publication of *The Age of Innocence* in 1920, Edith Wharton became the first woman to win the Pulitzer Prize. To mark 100 years since the book's first publication, *Edith Wharton's The Age of Innocence: New Centenary Essays* brings together leading scholars to explore cutting-edge critical approaches to Wharton's most popular novel. Revisiting the text through a wide range of contemporary critical perspectives, this book considers theories of mind and affect, digital humanities, and media studies, narrational form, innocence and scandal, and the experience of reading the novel in the late twentieth century as the child of refugees. With an introduction by editor Arielle Zibrak that connects the 1920 novel to the sociocultural climate of 2020, this collection both celebrates and offers stimulating critical insights into this landmark novel of modern American literature. The Memory of Architecture in Edith Wharton's Travel Writings Ágnes Zsófia

Kovács,2024-09-13 Edith Wharton was not only the author of novels and short stories but also of drama, poetry, autobiography, interior decoration, and travel writing. This study focuses on Wharton's symbolic representations of architecture in her travel writings. It shows how a network of allusions to travel writing and art history books influenced Wharton's representations of architectural and natural spaces. The book demonstrates Wharton's complex relationship to works of art historians John Ruskin, Miles M. Le Arthur C. Porter, and travel authors Wolfgang Goethe, Henry Adams, Henry James in the trajectory of her travel writing. Kovács surveys how the acknowledgment of Wharton's sources sheds light both on the author's model of aesthetic understanding and scenic architectural descriptions and how the shock of the Great War changed Wharton's travel destinations but not her symbolic view of architecture as a mediator of things past. Wharton's symbolic representations of architecture provide a new key to her travel writings. **The Secrets and Silences of Edith Wharton's Women** Isabelle

Parsons,2025-03-11 Edith Wharton's sensitively observed portraits of women's lives a century ago resonate into the present day, captivating readers now as they did then. Threaded throughout her accounts is a rich seam of secrets and silences that reveals Wharton's keen grasp of the realities navigated by women and her astute use of withholding to tell their stories. This book explores her frequent marshalling of secrets and silences presented as an integral part of her literary aesthetic to cast light on her enduring interest in women's experiences in private and public settings during the early twentieth century.

The Last 10 Per Cent Erica Harper,2023-03-28 Criticism that the development sector has not delivered in terms of

eliminating extreme poverty fast tracking growth and preventing conflict is neither new nor surprising In fact it may be the one thing that scholars donors and practitioners agree on While many of these concerns are valid this book makes a case that the sector is closer to unlocking the gates to more effective and efficient development outcomes than is popularly believed Specifically it argues that by overturning a few myths making better use of evidence and employing some different rules practitioners policy specialists and donors can foster the changes in the development architecture that are needed to reach the 10 percent of the world s population still living in extreme poverty Engaging provocative and clear sighted the book provides insight into interventions around democratic governance refugee response counterterrorism gender mainstreaming environmental protection and private sector engagement It is instructive reading for professionals across the development sector think tanks and NGOs
